A Card From Mr. James Mitchell

TO THE VOTERS OF NICHOLAS COUNTY

I, being a candidate for County Judge of Nicholas County, with three other gentlemen, and [illegible] having, through the newspapers, [illegible] support, I think in justice to myself and to the voters of the county I should give you my views on the fiscal and financial conditions as I see them, and what I will try to do if elected.

The Road Question is the most important question before the people of Nicholas County. I want to say at the outset that it is the worst managed of any county in this part of the State. No one will or can dispute that.

We have spent in the last 3 years $10,000 per annum on the roads. Was it spent to a good advantage—and don't you think, if properly managed, there could have been more work done on the roads? I don't claim that we can have the best roads in the State with the amount of money we have, but I do claim that we can make an improvement on what we have had.

I am in favor of paying a competent superintendent a sufficient salary, in order that he may devote his entire time to the road he is working for the county, and in order that he may stay on the roads as he would do if you had him hired to superintend your farm.

It has cost the county $1,000 per year, for the last ten years, to discount their paper. Is this a good financial proposition?

Section 4321 of the Kentucky Statutes provides that all delinquent taxpayers shall be required to work out their taxes on such roads as the Road Superintendent may prescribe, within reasonable distance of their homes, at $1.00 per day. Why has this not been done? Is this a good financial proposition for the county.

Section 4322 provides that all male persons confined in the county jail shall be available to the Road Supervisor, for the purpose of working them on the public highways. Has this been done? The Jailer received, last year, $800 of the taxes of the county, and the prisoners never worked a day on the roads. Is this a good financial proposition for the county?

Nicholas County owns one of the best farm—146 acres—in the county. In 1912 it cost the taxpayers of this county $800 and the use of this farm to support 12 people. Is this a good financial proposition for the county?

If elected County Judge, I shall try, with the aid of the fiscal court and the advice of some of the best business men of the county, to remedy the evils that exist. I know of $14,000 that can be spent on the roads next year, and not raise the taxes one cent. If anyone doubts the above facts, come to the County Clerk's office and I will take pleasure in showing you.

Some of the candidates are talking of the enforcement of law, and the morals of the county. I want to say that, while I have not gone out with great pretensions for some moral movement for political purposes, I am no hypocrite. There has never been a vote on that proposition that I have not been on the side of the people. I paid everything that has come into my hands over to the proper authorities. I have, and intend to pay every cent I owe. I have never harmed a man, woman or child in Nicholas County and there is not a man in Nicholas County that can say I ever lied to him. I have given more money for churches, schools and charitable purposes than all the balance of the candidates running for County Judge. I gave $125 last year for the success of the Democratic ticket. I have collected the taxes for three years and never advertised any one's property for sale, thus saving some of the poorest and best people in the county a lot of cost and expense.

I expect to enforce every law on the Statute Book, if elected; fine the guilty and protect the innocent; fine the guilty because they are guilty, not to get a few dollars to go in my pocket. Having held the office of Sheriff for nearly 8 years, I think I know the financial conditions as well as any man in the county.

I respectfully solicit your support and influence in this race, and, in the event of my election, I shall strive, by the manner in which I serve you as County Judge, to merit the confidence you bestow in me. Signed,

JAMES MITCHELL.

HIGH PRICE FOR WOOL

Mr. Jos. M. Hall, of this city, Saturday refused the price of 23 1-2 cents for his crop of wool clipped this spring. The offer was made by Lynch & Wiggins, who have been purchasing wool for several weeks and is said to be the highest price offered in the county this season.—[Bourbon News.

Your accounts will be ready for July 1, so be ready for them as we need money very badly. Sam K. Veach.

JUDGE FRYER HEARTILY IN ACCORD WITH MOVEMENT FOR CLEAN ELECTION IN NICHOLAS

The following letter was received from Judge L. P. Fryer, Wednesday:

Cynthiana, Ky., June 24, 1913.

Messrs. Sam K. Veach, W. G. Eldred, B. F. Swindler, and 170 other petitioners of Nicholas County, Ky.,

Dear Sirs:

Your petition requesting me as Judge of the 18th Judicial District to use my influence to have the various candidates for County offices to refrain from the use of money and intoxicating liquors in the coming primary election, and also requesting me to instruct the next Grand Jury to investigate all violations of the election laws, was duly received. I am heartily in sympathy with your movement and believe that you can render your County no greater service than to see to it that your movement is made effective. When the honest law abiding citizenship of any county declare, as you have, that the buying and selling of votes shall cease, and I believe that every candidate in your county will heartily join with you in the movement. The only thing you have to do is to make it plain that you mean what you say, that you mean to do to the corruption of elections shall be prosecuted and punished, then the candidates in my opinion will not only join with you but heartily commend you for inaugurating the movement. When each is assured that the opponent will not be permitted to corruptly influence the electorate then all will feel that they are on equal terms, and have an equal chance. I shall instruct the Grand Jury at the September term of court, and urge indictment against all persons violating any and all provisions of the election laws, and if sufficient evidence is produced I shall see to it that indictments are returned. I would suggest that you call a public meeting and appoint one or more persons to attend at each voting place during election day and take the names of all persons who are actively at work with the voters who are supposed to be susceptible to influence, and have their names given to the next Grand Jury together with the names of all other persons who may be able to give information regarding any violation of the election laws.

As you are the leaders in this important movement you owe it to each candidate to leave nothing undone on your part to prevent the use of money or other means to influence the voter. I feel sure that with the proper effort on your part you will have an honest, clean election.

Yours very truly,

L. P. FRYER

County School News

The June examination of teachers was held last Friday and Saturday in the court room. Eleven applicants took the examination which was very difficult. The time has come when good experienced teachers, fresh in the work and with special courses in the normal schools, dread examinations. We shall not be able to know from the examiners what these teachers did before the last of the week.

The County Board met last Saturday to open bids for the Judy school house near Mr. Henry Letton's. O. W. Hamilton bid $975, George Mattox $1000 less $60 for the old building, Lon Sparks bid $950 less $60 for the old house which left him the lowest bidder.

This is the last one of the 13 condemned school houses and this one was put up at public auction last Saturday and only $17 dollars was bid on it. And these good people out there have had to send their children summer and winter to this old house. It was the last house condemned, therefore, was the last one to get a new one.

We shall be in the county this week. Colored teachers' examination Friday and Saturday.

LIDA E. GARDNER, Supt.

Time Works

QUICK changes in the growing girl. Pigtails and short skirts are soon forgotten in the maturer charms of the debutante.

Sometime though you will ache for a picture of her just as she rompled in from school or play.

Think how you would like one too, to the after years, to show her friends, and possibly her children.

MAKE THE APPOINTMENT WHILE THE THOUGHT IS FRESH IN YOUR MIND.

SOME BUSINESS AND NO POLITICS

[This column is owned and edited by the Carlisle Real Estate Company, who are responsible for what appears herein.]

Behold, Brother Farmer, we bring you tidings of great joy; lift up your heads and your hearts, be game, and do not allow yourselves to be depressed by the scream of the "Calamity howlers," who hope to profit by deceiving you. KNOW YE that the visible supply of Burley Tobacco now in the hands of the manufacturers is almost none at all. Therefore, there being no BURLEY TOBACCO on hand, the new crop is bound to bring a fancy figure — a good price. Therefore, get a move on yourself — everything is MOVING, cattle are HIGH, hogs are HIGH, everything raised on the farm IS HIGH, and is bound to remain so except the small item of WOOL, which those darned fools at Washington have kicked into an unpleasant remembrance. Farmers should begin to apply the well known rule of CAUSE and EFFECT to their own business; every other class of business men do this. They should know and remember that Cheap Cotton and Cheap Sugar in the South mean Cheap Mules in Kentucky. A shortage of BURLEY TOBACCO on hand, that is, in the hands of the manufacturers means a good price for the crop now growing. Also, the farmer should know that the average immigration into this country for the last ten years has been 125,000 souls per month. Think of that! 125,000 people per month for the last ten years! Some people, isn't it? And all of them have to be FED, and FED FROM THE FARM, and very few of them produce any kind of foodstuffs at all; 95 per cent of them stop in the cities. Therefore, the farmer MUST RAISE MORE STUFF, and necessarily get a good price for it. That is why LAND WILL CONTINUE TO BE HIGH and in a few short years will be a GREAT DEAL HIGHER THAN IT IS NOW. The Moral is: BUY LAND and KEEP ON BUYING IT—the price will double over in the next five years.

We have a beautiful farm for sale—148 acres, on the Jackstown pike, elegant almost new frame house of 8 or 9 rooms, good tenant house, good tobacco and stock barns, land lays fine and in fine condition, 3 miles from Carlisle, everything good about it, a fine orchard of every kind of fruit, and the owner says SELL THIS FARM. It's a rare chance—see it at once.

Another — 80 acres — 1 1-2 miles from Carlisle on the Sharpsburg-Moorefield pike — excellent, two-story house, one of the finest locations in Nicholas County, everything nice, clean and comfortable, a most DESIRABLE PLACE, and the price we have on it OUGHT TO SELL IT QUICK. Better see this right away.

A GOOD THING—is 126 acres of FINE LAND with a NEW HOUSE, two Cracker-jack tobacco barns, nearly all this farm is GOOD TOBACCO LAND, located real close to school, church, good village, pike, rural mail, telephone, excellent neighborhood, a farm that will pay for itself in a very short time, and U can buy this farm for $85.00 an acre, usual payments. Now, if you are looking for a TOBACCO FARM that will raise tobacco to pay for the farm THIS IS THE FARM you are looking for. It's a great bargain—but we are not going to hold it. Come on and get it.

HERE-HERE—57 acres, good house and barn—SIXTY DOLLARS an acre. Be quick about this.

HERE AGAIN—35 1-2 acres, nice little home with 3-acre combined barn, 1 mile from Headquarters, and you can have this nice little home for SIXTY dollars an acre.

LISTEN—125 acres, the owner says 100 acres of this farm is good TOBACCO LAND, two good barns, will house 25 acres of tobacco, good house, and only FORTY-FIVE dollars an acre. Why don't you grab this?

Have we ever told you of that GREAT BARGAIN in a tobacco farm? 130 acres, two great, big tobacco barns built last year, good house, the owner says 100 acres is first class tobacco land, a farm that has never been "pounded," and we can sell it to you for the very low price of FIFTY-FIVE dollars an acre and give you the usual deferred payments on it. Do you want a better opportunity than this?

We have a couple of most desirable suburban properties for sale—the first, a nice home of 7 acres, extra good 2-story frame house, first-class barn, fine orchard, and the price is JUST RIGHT on this nice little home, 1-2 mile from city limits.

Another good, two-story house with one acre of ground, new stable, chicken houses, fine garden, fruits, etc., a place much in demand, and the price RIGHT. See us about it.

Better buy a FORD automobile while you can get them. They are the car for this country—no mistake about that. Look out in any direction—you'll see a Ford car coming. More Ford cars in use than any other kind and more selling every day. If you want a FORD we will try to get one for you but they are MIGHTY HARD TO GET. The demand is so great.

He has been a most efficient and courteous manager, and the general public will hear the news of his departure with regret. His successor will come to Carlisle today.

There having been some discussion as to the reasons for the resignation of Mr. H. B. Bryson, he permits the MERCURY to publish the following letter:

Washington, June 2, 1913

Mr. H. B. Bryson, Postmaster,
Carlisle, Ky.,

Sir:

In view of the peculiar circumstances surrounding your resignation and subsequent reappointment as postmaster at Carlisle, Kentucky, the Postmaster General has decided to consider your term of office as expiring on January 22, 1913, the date upon which your original commission would have expired. Steps have therefore been taken toward the appointment of your successor, and in order that the record may not show "removal" as the cause for making the change in the postmastership, the Department is willing to accept your resignation if submitted immediately. Respectfully,

DANIEL C. ROPER,
First Assistant Postmaster General.

Mr. Bryson states to the MERCURY that the Commission referred to as expiring Jan. 22, 1913, is one issued by President Roosevelt. The later one was issued by President Taft, and would have expired Jan. 27, 1915.

In Memory

Ray Cecil Gaunce, son of Mr. and Mrs. George Gaunce, was born Sept. 7, 1903 and would have been ten years old had he lived until Sept. 7th. But God in his infinite wisdom saw fit to reach down and pluck this precious human flower while yet in the bud. Death is always sad, let it come in what form it may, but the tragic death of Ray Cecil, being thrown from his colt and dragged to death alone in the pasture, was doubly sad. It was a great stroke to this happy home to learn that their precious son and brother had been so suddenly taken from them. But this is a home where God reigns and where father and mother had consecrated this precious boy to God, and while their hearts were torn and bleeding, yet they could look through the clouds and see the silver lining, for they could through their faith in the Heavenly Father see Cecil in the beautiful home above.

Cecil had not missed a day at school for three years, nor a day from Sunday School except when sick. He won a prize at school for being the most courteous boy in school.

His parents had great hopes and plans for his future but God saw that it was best for him to leave this old world of sadness and disappointment and take up his abode where there is endless joy, there to await the coming of his loved ones, where they will some day meet him ever there.

His funeral was attended by over five hundred people. It was held at the Salt Well church and was preached by Rev. Coleman, their pastor. He told of the beautiful life of the departed loved one, and then preached such a good sermon to the living.

Little Ray Cecil will be missed by a large circle of friends and relatives, and the father, mother, brothers and sisters have the deepest sympathy of a host of friends.

The last song he was heard to sing was "Oh, think of the Home Over There," and this was sung at his funeral. And as the choir amid tears sang the song that he had so recently sung, we thought of the beautiful picture to be seen on the Heavenly Shore, could human eye but pierce the veil—where Cecil with Jesus and the angels were looking over the battlements of heaven on that sad scene in the Saltwell church.

God bless and comfort the bereaved family and friends. We know Ray Cecil and loved him. L. E. G.

Every member of the graduating class of the Carlisle High School this year will enter college in the fall. This is the first time in the history of the school, it is said, that every member of a graduating class has decided to enter a university, after finishing the course at the local school. The four young men graduates will enter State University. Miss Gladys Bryson will most probably enter Transylvania University.

Having been misrepresented in some statements made by misleading parties, will say that I have promised, should I be elected Superintendent of the Public Schools in Nicholas County, that I shall do my duty to the best of my ability and to work to the best interest of the Public Schools and citizens of the county.

Any statement contrary to the above is false and without foundation.

I believe that all public servants should be honest, truthful and economical in spending public funds. Sincerely yours,

GEORGE M. WILSON

A Reply

As the last issue of the MERCURY contained a card from my opponent promising the taxpayers that if elected Sheriff that he would advertise a day of tax collection in each precinct, I wish to say that this is no new law and that any man who did his duty would do the same. The law also requires an Assessor to visit or see every taxpayer in the county and take a list of his property.

Next, give us your record as Assessor in the past and cut out the promises. The people are from Missouri these days and you've got to show 'em. W. T. PARKER.

Hundreds of our patrons are asking, "What are you going to give away next year?" Not until now have we given much thought about giving any thing at all. As our this year's business up to now is largely in excess of of last year's same period, and no promise of any presents, we must conclude the plus is due to our liberal business methods. "Life is made up of hopes and expectations." These are the main reasons so many of our friends are asking, "What are you going to give away next year."
