Firestone
will ALWAYS give
Most Miles per Dollar

No matter where crude rubber prices may go—Firestone advantages in securing raw material, in manufacturing and distribution are always active to make good the pledge of Most Miles per Dollar.

Racing drivers—hill-climbing and endurance record holders—taxicab, motor truck and bus operators—and hundreds of thousands of car owners—are daily emphasizing the unheard-of mileage and service delivered by Firestone Gum-Dipped Cords.

Gum-Dipping is one of the biggest factors in tire performance and long mileage, making Firestone Gum-Dipped Cords the most economical tires ever offered motorists.

The cord from the fabric mills is first delivered to a separate plant where it is treated in a solution of gum, which insulates every fiber of every cord. This protects against internal friction and heat, giving the sidewalls greater flexibility and additional strength.

Prove Firestone's many superiorities for yourself... If you have never had the safety, comfort and economy of these serviceable, long-mileage tires—go to the nearest Firestone Dealer—for Firestone only builds Gum-Dipped Cords.

SYNOPSIS

[illegible]

[illegible] Nelson Daylight came we had breakfast. The day was much the same as the day before, only that we had no Indian adventure. Once we were interrupted by some cattle that came down to the river one, which our scouts quickly turned back. We saw Big Bull Lake from a long way off. We got to Big Bull Lake late in the afternoon. We
