Farmer's Income Tax Circular Published

Farmers may get help in making out their income tax returns from a circular called "The Farmer's 1948 Income Tax," published jointly by the College of Agriculture and Home Economics of the University of Kentucky and agriculture colleges of several other states. Directions are given on how to proceed in making out tax returns, on figuring depreciation, reporting sales of livestock, sale of timber, etc. A number of questions and answers are included. Copies of this circular may be had from county agents or by writing to the college at Lexington.
