ANNOUNCEMENTS.

FOR CONGRESS.

FOR SUPT. PUBLIC INSTRUCTION.

The Big Sandy Railroad.

A party from Louisville visited Mt. Sterling last Friday in the interest of the Big Sandy Railroad. It is proposed to finish this road from Mt. Sterling to the mouth of the Big Sandy, and thence on to Norfolk, Va.

Two negroes, Nathan Reid, Diomed Powell and a half-breed Indian named Benjamin Hadley, were hung at Longview, Texas, Friday, for the murder of August Reineke. Clint. Anderson was executed at Little Rock, Arkansas, for rape.

A Discovery in Robertson.

The Mt. Olivet Tribune of July 18, got in last week, just a little over a month behind time. In an editorial the publisher says, "For any class of business to be successful, there must be some system and regularity." He ought to get a patent on his discovery.

Hon. E. C. Phister.

It is probable that Judge Phister will have enough votes instructed for him to nominate before the Democracy of Nicholas hold their convention. Hon. D. K. Weis withdrew from the race in Boyd County and that county instructed for Phister which gives the Judge 45 instructed votes. It requires only 67 to nominate. The Greenup Convention also instructed for Phister which gives him 54 votes, which with Nicholas County's 13, will nominate ...

... cational fields, we are able to say that his election to the office would give satisfaction to a large element of the people.—[Maysville Bulletin.

Prof. Vance has done a noble work in arousing the teachers of Kentucky. We have felt his influence at this distance; teachers inspired to improve themselves have subscribed in large numbers for the Journal. He has now taken hold of the problem of improving the condition of the public schools in the South, and invited the educators of the Southern States to meet at Chattanooga, August 6, to form an Association. We heartily approve of this movement to unite all who are in favor of a broad system of free school.—[N. Y. School Journal.

If the Southern Educational Association should do nothing more than to unite the people of the South in aid of the movement now before Congress to devote the sale of the public lands to school purposes, would be a grand mission for it. The following resolution was passed:—[New England Journal of Education.

"Resolved, That this Association does most heartily approve the policy of the measures now before Congress which propose to raise an educational fund from the sales of public lands and other sources, to be distributed for a term of years on the basis of illiteracy, and to be applied in the several States as directed by local State statutes.

"The Association also most heartily indorsed the Eclectic Teacher, edited by Prof. Vance as a valuable practical educational journal for the Southern and Southwestern States. It is but justice to say that to Prof. Vance much praise is due for his valuable suggestions and energetic labors in originating and perfecting the arrangements for this meeting, which has been successful beyond the expectation of those who favored the enterprise.

J. H. CHAPPELL,
Reporting Secretary of the Southern Educational Association.

The Trade Dollar.

For a time the trade dollar was a legal tender, as other silver, and being worth two cents more than any other silver dollar, were readily taken by the people and entered into general circulation. The legal tender clause was repealed, and on that account the General Government only proposes to receive them at the value of bullion, viz: 90 cents on the dollar, (the present value.) The justice of this the people fail to see; especially as New York banks take them at 99 cents. The Government's offer of 90 cents has had the effect to frighten the people, and many are submitting to the ...

Grand and Attractive Offering of Men's and Boys'

CLOTHING,

AND

Gents' Furnishing Goods

THE LARGEST BEST AND CHEAPEST STOCK

Ever brought to Carlisle, with which I am determined to lead the trade in style and price.

I have just returned from the East with a large stock which I have purchased for cash, thereby getting large discounts on all my bills. The stringency in the East has enabled me to buy my goods at astonishingly low prices for cash, and as I propose to sell only for cash I am prepared to give such figures as will please all.

My stock comprises everything kept in a first-class furnishing store, such as Boots, Shoes, Hats, Caps, Trunks, Valises, Clothing, Collars, Cuffs, Handkerchiefs, Shirts, Gloves, and everything with which men and boys regale their persons.

Do not fail to call and see me, as I am determined to have my portion of the trade. My goods are not shop worn, but everything new. I will prove to all that I can sell you more goods for your money than any other house in the West. All I ask is a trial.

Remember the place—sign of Diamond Clothing Hall.
