CHRISTIAN SCIENCE

"Substance" is the subject of the Lesson-Sermon which will be read in all Christian Science churches throughout the world on Sunday.

The Golden Text is: "We are saved by hope: but hope that is seen is not hope: for what a man seeth, why doth he yet hope for? But if we hope for that we see not, then do we with patience wait for it." (Rom 8:24, 25)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Lay not up for yourselves treasures upon the earth, where moth and rust doth corrupt, and where thieves break through and steal: But lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through nor steal." (Matt. 6:19, 20).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Substance is that which is eternal and incapable of disease and decay. Truth, Life and Love are substance, as the Scriptures use this word in Hebrews: 'The substance of things hoped for, the evidence of things not seen'." (P. 468)

Favors Sanitation Program For Swine

With 20 years experience in following the detailed swine sanitation program and the ton-litter plan of the College of Agriculture and Home Economics, University of Kentucky, Urban O'Bryan of Daviess county recommended these methods to 70 farmers who attended a field day on his farm. O'Bryan, who uses inexpensive yet efficient equipment, according to Farm Agent John E. McClure said he had never failed to make a profit by following these plans and had produced two crops of pigs each year. With hogs ready for market in the spring and late summer, he has sold them on the top market for five times, and has not missed the high peak by more than 10 cents per hundred weight.
