ANNOUNCEMENTS

We are authorized to announce W. E. BARLOW of Carlisle county, subject to the action of Nicholas County, as a candidate for Deputy Sheriff of Nicholas County.

We are authorized to announce J. R. GAILLIE, of Cane Run Lock, as a candidate for Deputy Sheriff of Nicholas County, subject to the action of the Democratic party.

We are authorized to announce J. B. HIGH as a candidate for the nomination for Sheriff of Nicholas county, subject to the action of the Democratic party.

We are authorized to announce H. H. MCCLANAHAN as a candidate for Sheriff, subject to the action of the Democratic party.

FRANKFORT is making big preparations for the inauguration of Governor Buckner on the 20th inst.

WHAT about that office-seeker? You cannot tell which way to place your little ones to find out their fathers' politics.

HON. A. S. BERRY, who was a candidate for the Democratic nomination for Governor refused to vote for Buckner at the August election.

BLAINE has been to Ireland and has kissed his Blarney stone. Now if he can get the Irish people to forget Buchanan's Dear Dominions and Revolution he may be elected President of some American Country.

MR. CHAS COLTER desires his friends to know that he will under the rules be Deputy Sheriff in this county. He asks the people not to make any pledges until he has time to come see them.

SOME of T. T. Young's Hickinbottom office seekers slipped over into Mt. Sterling to Mentelmo Park Saturday to A. J. White, Deputy Sheriff Mason McGee and others, and spread on their delivery book (assessor) and will hold them down at Maysville, and will hold them up to the orders of General Cassiliman.

CAPT. T. HALL, of Clark Co., who has been an official of the Blue Grass Association of Kentucky for the past four years, is now a candidate for Stock keeper. Mr. Hall has always at his post, and was an efficient and faithful officer, and if the House sees fit to make him Doorkeeper it will never have cause to regret it.

J. T. YOUNG was in Fleming last week, but he denies that he was there for the purpose of seeing the Sheriff. In selecting that he was not interested in seeing the Sheriff, but what in the name of all the world did he want in Fleming at this time. He will never let a little to remove the suspicion that his visit to Fleming was connected with the selection of the jury.

The projectors of the Fleming County Democrat have determined to make that paper a permanent institution, and have engaged the services of Colo. B. W. Harris and W. A. Gilly to edit it. It was started some weeks ago as a campaign paper. Fleming now has three papers, but they can not all live, so the fight for life will be on, and we rise for some months to come.

EX-GOVERNOR L. P. HARRISON, who was thought to be near death's door last week has recovered remarkably. A few years ago he was a much abused man, but his afflictions have turned back words into words of sympathy and kindness. We have heard many over Blackburn mentioned for six or eight years, and we have always thought him to be a good old man, with a heart as big as immensity, and love for his fellow man never surpassed.

THE announcement of H. C. King for Deputy Sheriff will be found in our announcement column to-day. Mr. Kinkbrough, is well known to the people as the hostler of the Kelly House. He is a gentleman and has been popular with those who know him well. He has the energy and capacity to make a good officer, and he asks the people to give him a chance a commission.

THE offices in Lexington will been rented at Frankfort, and Gen. Buckner's majority is 17,613. Mr. Hardin received nearly 3,000 more votes than Blacke, and Gen. Buckner received about 3,000 less votes than Cleveland. While the result is nothing for Democrats to blow over, we regret to be thankful it is no worse. Judge Fox received 1,700 votes and Mr. Collin received 4,876. Mercer County gave Judge Fox but 1,000 votes, while Kenton gave Mr. Carlile, the Labor Candidate, his largest vote. John Campbell was carried by Nelson, he receiving 1,891 votes, then Kenton 1,790, Col. Bradley 1,576.

SARTORIS BRANCH stirred up the sensions Sunday night when he announced his faith in a universal resurrection. He said substantially that Death being the principal foe was to be overcome by Christ's death, all things whatsoever that have ever lived and were or had life in captivity, would be set free. Horses cattle, dogs, birds, bobcats and blue jays, every thing that has ever lived will live again, and in a higher state of perfection. "The fabled, that swim in the river clear as crystal will be more beautiful, swift and graceful, and the birds that live in the grove of heaven will have more brilliant hues and will sing far sweeter songs." Brother Barnes interprets the text "Turns in Adam all die, with Christ all are made alive, to mean what it says. All means all. Then schools, lodges and holes are included.—Winchester Sun.

PARTY ORGANIZATION.

In our last issue we had an editorial on the question of party organization, and we took the grounds that those who refused to support General Breckinridge and the Democratic nominees should not take part in future party conventions of primaries until they repented, by voting the Democratic ticket, their intention to come into the party. We have been for Democrats, but have heretofore been Democrats, but who voted for Judge Fox, took stand on the question. Of course we can not expect to be recognized as Democrats, but we will take the action of an old Democrat, and one who for the past two general elections has voted against the Democratic nominees. He is a good man and a devout Methodist, we would put the case to him in regard to his church. Suppose, for instance, that his congregation in Carlisle wished to build a new church, and call a meeting of its members to decide upon the style, size and cost of the building. When the meeting is held the house is full, and many are absent, but the vote is taken, and by a majority of probably two-thirds, a magnificent plan is adopted. The old pillars of the church are delighted at the size of the meeting and the outlook of the church, some insist on their old Democratic friend. The meeting adjourns and the time for building is canvassed, and after the handsome structure and costly edifice plan, but two-thirds of them cleave to the old ways of the other churches. They say that they attended the Methodist meeting that decided on the style and size of the new building but the Methodist must not look to them to aid in carrying in a successful congregation. Their own church demands all they are able to pay. Of course another meeting must be held, and it is held. What would our Democratic friend think of the man who had refused to pay carry out the first meeting's decision, appearing at the second meeting? Why it takes no stretch of the imagination to fancy the state of our old friend's mind. He would be, not only indignant, but he would be wrathy. He would require of his Methodist fellows to keep his hands off the church, and he would be in a further quandary. If you don't propose to stick to the Democratic ticket you can not be a Democrat, and it ought not require any argument to show you that Democrats are entitled to vote in the Democratic primaries, and none but Democrats ought to be allowed to vote.

NO man can have more one of the most orderly counties in the State, and we want it to remain so. At present there is not a shadow of murder or manslaughter standing against our jail offenses, and we hope many years may go by before such is the case. Our people are thoroughly aroused on the subject of taking life, and it will be exceedingly uncomfortable for the man who comes up before a jury in this county charged with the blood of his fellowman. We hope that the man who takes life be electrique, if, unless in mitigation, the defense of his life ought to be being lighter than Hamer. We have yet to settle differences, and he who appeal to the sword ought to die by the same method.

THE Louisville Commercial has a long sensational article in regard to the marriage of Dr. Blackburn to Mrs Scott, of Paducah, and also the purchase of the Doctors sudden death. The Commercial says Dr Dr. had been in a big way in Louisville, and that when he was married he was worth $100,000 and that he left his wife nothing. It says that when Dr. Blackburn left Paducah he got married for, at one time behind the condition of things and said a friend to Miss Scott with a check for $5,000 to release him from his engagement. It also says that he offered another lady $10,000 to marry him the day before he married Miss Scott. Everything possible was done to prevent the wedding, but Miss Scott said he was a man of honor, and must marry an. Dr. Blackburn's death was caused by excessive drinking.

We stop the press to say that we forgot to say anything last week about the congressional honors every year are permitting their children to attend school. We want our readers to understand that a new qualification has been laid down in regard to the admission of people into heaven, and we propose to adhere to it and live up to it. We decided that the people who visit our jail, our poor house and our county asylum are the ones we propose to say that the people who do not provide good schools for their children are not only not good citizens but that they are not fit to associate with those who do provide schools. They will be left out in the cold, and the people of which they have honors as hundred thousand half grown jays that which caused the little children to loiter through the long school days. This may seem very severe in us, but we have determined to see that every school district in Nicholas County has a comfortable house, and the patrons to the school works and the trustees two hundred miles north of the North pole, when Gov. Knott they can not even force to death.

The Latest Horror.

The most appalling railroad wreck in the country's history occurred around Chicago Wednesday night last, near Chatsworth, Ill., on the Toledo, Canada and Western road. A train of eleven sections, containing about 1,000 people, and people, fearful of all good and evil, was wrecked, the cars belonging to nothing but the other to an awful mass of broken wood, bent iron and bleeding humanity. Fire completed the job, and the cars became a funeral pyre. The exact number of the dead and men who escaped uninjured, and who rig to dry earth with their fingers to another the flames, the horror would have been all the more appalling. Daylight brought willing hands to the relief of injured was filled.

JAMES MARTIN fell from Bowling Bridge, a distance of 135 feet, the water, and received no apparent injuries.

—ETO PERPETUA.—

James A. Chappell.

On Sunday evening and during Sunday night a series of refreshing showers visited all the region of country and from mail and telegraph advices we doubt extended throughout Kentucky and other adjacent States. The drouth has been too long to make a good crop of either corn or tobacco but both of these valuable crops will be greatly benefited. The City Store tries to fully understand the situation, and will have a full fall stock of goods laid in at prices that will correspond with the times. We have the finest stock of Lexington yarn on our hands which we are selling at 5 cents per ball. We have a lot of cans of 5 cents per pounds at the factories.

Our stock of Kentucky Jeans was also purchased prior to the advance, and we have some special bargains to show the people. Also a job lot of bed blankets which we will sell at 75 cents per pair. Under the new schedule of freight tariffs made by the railroads from New York to the West we get the benefit of a decline of ten cents per hundred on all cotton yarn cotton goods, whether in original or assorted packages. This will be a further benefit to the people.

One of the first bargains we have to offer is a lot of Ladies' Hose at 5 cents per pair. Our store is filled with goods, and we are selling them at a very small profit. We have a lot of Gent's Furnishing Goods, Boots, Shoes, Hats, &c., at exceedingly low figures. I will receive a large line of Dress Silks, Satins, &c., during the week.

Throckmorton, of Paris, who were asked to detector a special police to look after the crowd on the occasion, say they never saw in the war of disorder, but even enough to cause a row. Brother Barnes at the meeting will be held next year will be invited.—Carlisle Mercury.

JOHN MANGINE closed his August meeting at Mt. Olivet last Friday, in which much effectual work was done. This is certainly encouraging to such good advocates as John our people generally, so we get the benefit of this extra work without a dollar additional expense to the Church.

Frank Hill closed on Sixteenth Ave. Monday night, and the attendance was not as large as it should have been, owing to the failure to make arrangements for the meeting to begin early enough to keep up the interest and the order was good. Brother Barnes made a good impression. A telegram brought the news, that he was called home to see a lady of his friends, who ended the jail with a bullet in her breast. Hill's friends generally regret the losing of a boy who is so fitted to be useful on the field of which deceased the Judge Lee.
