Complete and official figures show that again in 1954—for the 22nd straight year—

MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR

No other low-priced car even comes close

to matching these important Chevrolet advantages . . .

If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motoramic Chevrolet offers you as much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.

The body's built in—not bolted on!

Chevrolet's beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

The Body's by Fisher!

You see Body by Fisher on lots of the high-priced cars—and only Chevrolet has it in the low-price field!

Today's most modern engines!

That goes for Chevrolet's new V8 and two new sixes as well. All bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. Then Chevrolet's new "Turbo-Flow V8" has the shortest piston stroke in the industry!

A drive to suit your driving!

There's silky, peppery Powerglide (even better this year!), new Overdrive (both extra-cost options), and a new Synchro-Mesh transmission that's as smooth as they come.

All the power helpers you want!

Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish. They're the voltage of other low-priced cars. Then Chevrolet's new "Turbo-Flow V8" has the shortest piston stroke in the industry!

Come take the key!

There have never been so many good reasons why you should drive a Chevrolet!

Over Ten Million Chevrolet owners—Two Million more than any other car!
