KENTUCKIANS

IN WASHINGTON

By Gil Kingsbury

Back On Job:

Senator Lyndon Johnson is back on the job as majority leader of the senate and Kentucky's Earle Clements has turned back the task of running the senate to his Texas colleague.

We thought that you, as a Kentuckian, would be pleased to hear some of the praise bestowed on Senator Clements on Johnson's return to duty. Here are some excerpts.

Praises Sung:

Senator Johnson "I believe that every member of the senate counts Earle Clements as a very close personal friend. I think he is one of the most outstanding men I have ever known" . . . Senator Knowland of California: "While the senator from Texas was absent, he was ably represented by the distinguished senator from Kentucky" . . . Senator Stennis of Mississippi: "Senator Clements has been faithful to his trust and has enjoyed the confidence of senators on both sides of the aisle" . . . Senator Kerr of Oklahoma: "I want to pay tribute to the great senator from Kentucky for the magnificent way he has carried on" . . . and finally from Senator Morse of Oregon. "All of us are appreciative of the fine qualities of leadership Senator Clements displayed in the absence of the majority leader."

We're Proud:

All of the above brings to mind that for the past 18 years a Kentuckian has either been in command of the senate or, at least, second in command.

It started in 1937 when Alben Barkley was elected majority leader. It continued when he was vice president. And now Earle Clements has taken up the responsibilities and it looks as though the happy situation will continue for at least 20 years.

While We're Talking:

While we are bragging about the deeds of favorite sons, we don't want to overlook Brent Spence, dean of the delegation in the lower house and chairman of the all-important Banking Committee. Nor do we want to forget Stanley Reed of Maysville, associate justice of the Supreme Court. With all this talk about the lack of educational facilities and the poverty of the state, it seems that Kentuckians do all right when competing in the big leagues. After all, obstacles only challenge those who have what it takes to achieve success.

Limestone Covers Silo

A cover of 4 inches of crushed limestone reduced spoilage in a trench silo on the farm of Dear Pate in Breckinridge county, Uk County Agent Kenneth A. Birdsharp reports. Only about 2 inches of the silage spoiled, compared to probably 6 inches when the silo was covered with hay and dirt. The limestone made a perfect seal, Birdsharp observed. When the stone was raked off, some of it remained for the cattle to eat, thereby giving them some needed mineral.

TV NOTEBOOK

By Gene Clinkenbeard

Now that the television industry is settling down to the task of licking technical problems posed by color TV, we can take a look at some of the more troublesome "bugs" plaguing this phase of the industry. Probably the biggest headache at the moment is getting good black-and-white reception from color telecasts. This is a tricky proposition because great care must be exercised not to lose details on conventional sets through the use of colors that tend to blend into each other. This could conceivably result in an actor becoming a "headless horseman."

In color TV the scenery requires considerable attention lest it detract from the performers. Even the healthy blush of a suntan can give color TV make-up men the fits. Lips, too, can cause no little amount of trouble as they often must be subdued by use of black-red lipstick.

Financially, color programs currently costing about three times as much as their less flashy cousins, must be whittled down in cost to a point where the sponsor won't have to pay so stiff a premium to hawk his products.

We've whittled down repair prices too . . . If your TV set is like your golf game, not up to par, let us have a look at it. You'll never boiler when you get an invoice from G E N E'S TELEVISION in Carlisle.

PLYMOUTH WINS FOR 1955 STYLING OVER "OTHER 2" LOW-PRICE CARS BY VOTE OF ALMOST 4 TO 1

THOUSANDS PREFER PLYMOUTH'S STYLING IN NATION-WIDE SURVEY!

A well-known independent research organization asked thousands of people—in New York, Chicago, Detroit, Atlanta, Dallas, Los Angeles—to compare the appearance of '55 models of the three low-price cars. Opinions were received from men and women—from people of all ages—from owners of all the different makes of cars. The results are below.

Best buy now; better trade-in, too!

HERE'S WHAT OTHERS THOUGHT OF PLYMOUTH!			
Compared with low-price car "X"		Compared with low-price car "B"	
Plymouth is better looking	62%	Plymouth is better looking	56%
Car "A" is better looking	16%	Car "B" is better looking	17%
Almost 4 to 1 in Plymouth's favor!		Again, almost 4 to 1 for Plymouth!	
(22% liked "both about the same")		(17% liked "both about the same")	

HERE'S WHY YOU'LL PREFER PLYMOUTH, TOO!

Plymouth '55—with THE FORWARD LOOK—is the only low-price car to offer you honestly new styling, instead of a mere face-lifting. It's bigger than the "other 2" cars (longer than car "A" by 5.4 inches!). It's lower and sleeker, with a host of styling advances that wins the most applause in the lowest-price field. See everything Plymouth has to offer today!

Yes, the big swing is to Plymouth—is this it today—drive it away!
