The Lights of Christmas
NGL
GIFTS AND THEMES FROM THE NATIONAL GOVERNMENT AND ELECTRIC LIGHTS CONTRACTORS ASSOCIATION

Tree Trends

As the lights of Christmas begin twinkling on in your neighborhood, you may wish to take note of these Yuletide trends:

- Surveys show that ten percent of stores are set up for Christmas retailing by Columbus Day; 48 percent by October 15 and 99 percent by November 1.
- Christmas celebrating has moved outdoors in a big way. Light sets, lighted blow molds shaped like Santa Claus, snowmen, candles and nativity figures are popular lawn ornaments. Bows and ribbons decorate wreaths on doors and porches in traditional and non-traditional colors.
- Lifelike firs and spruces are the top artificial tree sellers. Green trees are still most popular, but there's a strong trend towards very natural looking, hard-swelled blue spruces. Cinnamon wreaths and eucalyptus wreaths are favored, though others come in fashionable colors—mauve, gold, silver.
- Christmas lights are shining brighter than ever. Sophisticated clear lights; fun novelty lights shaped like pinecones, hearts, icicles, even chili peppers; miniatures and candle-style luminarias are all available.

Helpful Hints on Dollars and Sense

How much do you have to invest in the world of money? How about a half hour of your time once a week? That may be all it takes—and you get the bonus of seeing an entertaining TV show as well. The program is **Adam Smith's Money World** which can be seen on most PBS stations (check local listings).

Adam Smith

What you get for your time is a fast-moving, in-depth look into a different aspect of the world of finance each week. Past shows have included: a report on free enterprise in China; a warning of the dangers to and from Social Security; an examination of how American industry stacks up against foreign challengers; predictions by such experts as Malcolm Forbes and Felix Rohatyn; ways to understand—and overcome—such crises as the stock market crash and the savings and loan problems; the inside story on books and movies; investing in cosmetics; and much more.

Adam Smith makes learning about money fun and entertaining

The series makes complex issues seem simple with its award-winning graphics, entertaining interviews and not just four experts explanations of the economic ills of our time and how they affect each of us. It's produced by WNET/New York and sponsored by Met Life and Universal. Try spending a few half-hours watching it. You could end up with a wealth of knowledge.

Accidental Discovery May End Obesity

Suppresses calorie absorption

SWEDEN–Medical researchers at the University of Kuopio, in Finland, have discovered (accidentally) a new weight-loss formula. The new discovery appears to enable an overweight individual to lose pounds and pounds without conventional dieting or exercise.

Scientists made the discovery while searching for a formula to lower cholesterol. In a controlled study of a test group of people, cholesterol levels remained unchanged but the doctors were astounded to find that every patient who used the formula lost weight. The published report of this study stated, "A highly significant decrease in body weight was seen" in patients who received the formula.

The formula was then tested at another prestigious European university, Sweden. Again, all patients lost weight even though they did not change their eating habits. The report detailing this study, published in the British Journal of Nutrition, stated: "Body weight was significantly reduced even though the patients were specifically asked not to alter their dietary habits". One patient in this study lost more than 30 pounds.

According to one informed source, the active ingredient comes from a 100% natural botanical source and contains no drugs or stimulants. When taken before mealtime it bonds with the food you eat and "ties up" calories, especially those from fats, suppressing their absorption.

A significant portion of the calories ingested therefore pass through the digestive system undigested. The body has to get energy to replace the lost calories, so it starts to burn stored fat, which can result in rapid body weight loss. Clinical testing has verified the safety of this formula for long-term use.

The formula is marketed in capsule form in the United States under the trade name Cal Ban 3000. A firm located in Tampa, Florida, has exclusive North American distribution rights. A review of the customer files of this company revealed the names of hundreds of people who have lost as much as 20, 40 or 80 or more pounds overall with Cal-Ban 3000. This appears to be a golden opportunity for people who are plagued by fat and cellulite that they can't seem to lose by conventional methods.

Cal-Ban 3000 is reasonably priced at $19.95 for a 3-week supply and $38.95 for a 6-week supply. Postage and handling is $3. VISA, MC, AMEX and COD orders are accepted. To order call TOLL-FREE 1-800-537-3723 or purchase locally at Hopkins Drug Co., 116 E. Main, Carlisle, KY.

Call today to begin the pleasant transformation from fat and flab to the slender trim body you want! If you fail to achieve a major weight loss you may return the empty bottle within 30 days for a 100% refund.
