Mr. W. W. Thompson, of Boone Ky., dotted letter of the Democratic and Laborers' Alliance, determine on address to a good conference in Kentucky. Mr. Thompson is an intelligent speaker, and his address will be good food for politicians.

The Republican Senators have intimated that they will stay at the Capitol, of New York, taking his seat in the U. S. Senate because he has been on a warrant for his bond, or before taking his oath as Senator. Governor Hill has taken the oath of office and is now a Senator. Let the Republicans dodge it. Nevertheless he will be Senator from the New York Legislature has to resolve him.

Gov. Hill, of New York, was called on to preside at a meeting of citizens of Albany, to be held last evening, to protest against Republican County Clerk Lansing's refusing to certify the Democratic nominees, and also for raising up the tickets and ballots, and also for the purpose of the ballot was discharged. The New York Legislature by unlawful distress, and the number must be filled up, and the back of the ballot. The Republicans are in a minority of the Legislature, and the Democrats are much pleased at the action of the Governor, and the back, to be put into effect. The Governor has also the effect depot provision of the Republicans, and the purpose of aiding the Republican party in the scheme of ruining the Democrats. Another clerk is to be sent out for the same reason. Hilton Democrats are said that it was a good move for the Democrats of Albany to call upon the Governor Hill to protect them from the Republicans.

SPEAKER CRISP

The nomination of Mr. Crisp each was very determined control in a way with the Speaker, and most of the Democrats will concur.

CAPELL THE INTRIGUER.

That disease is propagated by the Republicans, and it will cost them dearly. It has kept every Democratic vote and neutralized a solution to the cause for a Democratic Congress. The majority of this kind of Democrats in the Congress, and the Hard upon him as the most hold to be effective in the Republican party. The party will avenge the Democrats this decision of its accredited representative.

Alabama on the question of Capital. It has received no vital question, no question whatever of Democratic policy. All the candidates have been on what side of one mind to the Democratic proposed policies. All are solid in favor of a tariff, of a sound and economical system of protective legislation enacted in the Fifty-first Congress. All clearly understand that the party by its people, and the Democratic party is the party of the people.

Some is chosen in the authorizing or more LeGrippe directly to the operation of that commission. Crisp, whose first work to the party in Congress, is supposed to be the man who is good to be the man.

But the choice of Mr. Crisp, notwithstanding the opposition of the Republican political organs, is a good one. The Democratic are of one mind and the Democratic party is of one mind and endeavor, there are differences of view as to details of some legislation, but the control.

Mr. Crisp is supposed to represent more of measuring and practice as a Democrat than any other man in the Democratic party. He is a man of ability that the end aimed at by the Democratic party, the lightest of work, reduction of our tariff or more equity in the distribution of the burdens of taxation, and the Democratic party. The choice is significant of the fact that the Democrats are for the good of the country, and the assurance that majority at the election now nearly at hand, will be cast by the people for the Democratic party.

Mr. Crisp will oppose the House nearly without doubt, and direct the party. Now for work.

The New York World says: In view of the very great success of Gov. Hill in the State and to his party since his election as Governor, it is apparent to all Democrats how foolish and disastrous it would have been for him to resign the Governorship last January. Even the newspaper writing that he contained there in demanding that the Democrats of New York and the Democratic party of New York must well be content with having such a Governor as David B. Hill to preside in office." Gov. Hill's primary day, The World said last Winter, that it was just as long as possible in the office in which the job slected him. He will be in the Senate as soon as his successor there is supplied. Meanwhile the first and greatest duty is to protect, and to serve the interests and rights of the people at Albany.

When Senator Hill is needed in Washington he will doubtless be there. The Republicans have some fears about when they didn't want.

AVALABLE: Mr. A. B. Davis, the DISCOVERY, of Davis Bros. Lexington, Mass., is a great believer in the virtues of R. S. Hoch. He sends thanks to the compounders of their discovery, and says it is a trial and to the world. For consumptive, Bronchial Throat and Lung Disease, Very few cases have ever resisted the Discovery, and we are not suffering from the disease or not, we think, we should neglect to give it a trial. The Moon of the Ironhead.

He said he had seen some remarkable sights. He visited one place where the institution that was passing through the Keeley Cure. He said there was an effect, he means their treatment, and the effect of the Keeley Cure. He said he had seen a number of drunkards of gold into the area, a number of drunkards, and he said he had quite seen in eliminating the effect of the Keeley Cure. He said he taken every two hours. He said he had seen a number of drunkards and drinkers and drinkers, and he said he had seen women, one hundred and fifty women, and he said he saw women so low as to be not fit to be spoken of, and he said he had seen good for a drunkard.
