THURSDAY, OCT. 22, ---- 1891

The Covington Commonwealth says: It is reported that Auditor Norman has sent in his resignation from the Sinking Fund Commission to Gov. Brown, on account of differences in regard to penitentiary appointments.

MESSRS. WALLACE SHARPE, GREENBURY, and Claude Dedman, of Cynthiana, have been appointed by Governor Brown to represent the Ninth Congressional District in the Southern Land Convention to be held at Atlanta.

MONEY is said to be so plentiful in New York the bankers are carrying it around in their hats. Consequently it is impossible one so minor as interest to touch.—Exchange.

The stocks of silver has not reached the Wet yet. However it is expected that money matters will get more wet.

THE Indiana Commissioners are paying their railroad fares in traveling over the roads in Kentucky on an expense tour, and are collecting the same from the State Treasury as a legitimate expense against the State. This is all right. The railroads have learned the expense for some time, and the state will have to pay for a while.—Frankfort Argus.

NOTWITHSTANDING the Constitutional inhibition against consolidation of railroads, Montgomery County went about and by a majority of over two to one voted $50,000 to the Kentucky Midland. The president of the road, Judge Wm. Lindsay, is confident that he can make the subscription stick and will make a test case of it before the courts.

THE article in Harper's Monthly, by Dr. Lyman Abbott, on the Administrations of Cleveland, and the Cleveland Democracy of Brooklyn (tonight) is a monumental sneer of 100 men to the Governor when he appeared in that city to speak for Flower and Democracy. There is a most tremendous flopping together going on in the ranks of the New York Democracy. Has the Cleveland bath brought the lions together?—Louisville Times.

DALTON.—Ellen N. is a rollicking young miss who belongs to the Green County road for repairing road on Sunday. Presbyterian First Vice President, Stuart Robson—one of the youngest men in the world to occupy such a position, but not was too educated before the worlds were, the Directors and Mr. Knott could not help themselves.

GOV. KNOTT and other lawyers agree with the Courier that the control parole law is unconstitutional and there ought to be some kind of a test case. Governor Brown can turn Gang out but he can't turn the convicts out of court as fast as they might be.—Interior Journal.

If properly executed the parole law has many advantages over the Governor's pardon. It puts the convict on his good behavior, and is a constant reminder that if he becomes disorderly he can be returned to the penitentiary without the trouble of a trial. There are several hundred prisoners now out on parole, and the question arises as to whether under the new Constitution, they will not have to be taken back to prison.

THE next Legislature should and has to pass a law compelling railroads to accommodate negroes, as well as colored and white people. There is probably not man on earth that has more genuine sympathy and proper regard for the colored people than the writer, but the impudence and insolence of some negroes make sympathy and regard almost impossible. They enter the ladies' car whether there is room or not. If there are any of them in any company they take a seat, and if anybody comes in who is not of their race want one to undergo the pain of discomfiture and bring on a war of race. As far the law we do not propose to debate how it shall read. It might compel the company to put up one of their best reclining chair cars—put it in the rear, center or front wherever the colored people want it—and make it a preferentially observed a white man, other than the conductor or employee, should sit in the Lay-down car, and make the law compelling for us, so it gives the white man equal chance with the colored man.—Exchange.

A Wonder Worker

Mr. Frank Hoffman, a young man of Burlington, Ohio, states that he had Consumption in the last stage, was given up by his family and friends, declared incurable by doctors, was not able to get around. They pronounced him dying, he was emaciated and haggard. Long attacks of coughing, night sweats, and a terrible hacking cough, convinced all that time was not able to walk across the room without assistance. He had heard and read about Dr. King's wonderful cures, but was too weak to write. He ordered a bottle of Dr. King's New Discovery, Consumption Cough and Cold Cure, and to his wonderful relief he found it was doing him good. He continued using it, and was improved from the first bottle. He was much better, he continued using it, and was entirely cured. Now he can do his work, and he thinks Dr. King's New Discovery the grandest medicine ever made. Sarah Hoffman, Druggist, sells and guarantees this wonderful medicine. The Rolling Pins on

The balls and bibbles of the Flowery Field are crowded heavily with an average mass of humanity all taking turns at a lively rate. One of the most amusing of the recent occurrences mentioned in earlier issues was the attempt of a young Cincinnati lady to elope with her father-in-law, who had come to her home for dinner, with Allerton and Nancy Hinkle for Mission and Rescue efforts for pastry. Another gentleman, a married man, happened to introduce a conversation, a different subject than the weather, and the lady left the house and the latter he would be arrested for the crime of adultery. The lady gave in short order, and will be sent home to her mother, of Lexington Geneva.
