EDWARD B. HATCHETT, JR.
AUDITOR OF PUBLIC ACCOUNTS

To the People of Kentucky
Honorable Paul E. Patton, Governor
John P. McCarty, Secretary
Finance and Administration Cabinet
Margaret Handmaker, Secretary, Revenue Cabinet
Honorable Charles Smith, County Judge/Executive
Members of the Nicholas County Fiscal

Independent Auditor's Report

We have audited the accompanying statement of assets, liabilities, and fund balances arising from cash transactions of Nicholas County, Kentucky, as of June 30, 1995, and the related statement of cash receipts, cash disbursements, and changes in cash balances for the year then ended. These financial statements are the responsibility of the Nicholas County Fiscal Court. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, Government Auditing Standards issued by the Comptroller General of the United States, and the Audit Guide for Fiscal Court Audits issued by the Auditor of Public Accounts, Commonwealth of Kentucky. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Nicholas County, Kentucky, prepares its financial statements on a prescribed basis of accounting that demonstrates compliance with the cash basis and laws of Kentucky, which is a comprehensive basis of accounting other than generally accepted accounting principles. Consequently, certain revenues and the related assets are recognized when received rather than when earned, and certain expenses are recognized when paid rather than when a liability is incurred. This cash basis system does not require the maintenance of a general fixed asset group or general long-term debt group of accounts. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and fund balances arising from cash transactions of Nicholas County, Kentucky, as of June 30, 1995, and the related statement of cash receipts, cash disbursements, and changes in cash balances for the year then ended, in conformity with the cash basis of accounting described above.

In accordance with Government Auditing Standards, we have also issued a report dated December 4, 1996, on our consideration of Nicholas County, Kentucky's internal control structure and a report dated December 4, 1996, on its compliance with laws and regulations.

Our audit was made for the purpose of forming an opinion on the financial statements of Nicholas County, Kentucky, taken as a whole. The accompanying additional information, provided on Schedules A through C, is presented for purposes of additional analysis and is not a required part of the financial statements. This information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

Respectfully submitted,

Ed Hatchett

Edward B. Hatchett, Jr.

Don't you wish you could sleep like you used to?

The way you sleep affects the way you live. So if you wake up feeling more tired than when you went to bed — and it happens night after night — you've got a serious problem. A problem that can leave you depressed and dangerously unhealthy if left untreated.

Chronic snoring is often a sign of a common sleep disorder called sleep apnea. People with sleep apnea are exhausted by day and usually fall asleep easily, but they sleep restlessly gasping for air hundreds or even thousands of times throughout the night.

At Columbia Hospital Paris new Sleep Disorders Lab, we can diagnose and treat sleep apnea and numerous other sleep-related problems. If you think you or someone you know suffers from a sleep disorder, need more information, or would like to arrange a consultation, call us at (606) 987-1060 or discuss this with your family doctor.
