GENERAL NEWS

Lara van der Heiden wins national equestrian award

Lara van der Heiden, the 14 year old daughter of Kim and Arie van der Heiden, has been named by the United States Hunter Jumper Association as the Foundation Award winner for 2009. The goal of the Foundation Awards program is to recognize the accomplishments of the grassroots equestrians and their achievements at nationally sanctioned "B" and "C" equestrian competitions.

Lara was the award on her horse, Ludger, for National Zone 5, which is comprised of Kentucky, Indiana, Michigan, Ohio and Illinois. Lara was the most successful competitor in Children's Jumper Division and was invited to accept her award recently in St. Petersburg, Florida at the national USHJA convention. The award was presented to Lara by Olympic gold medal winner, Joe Fargis. Lara is a 9th grade student at Nicholas County High School.

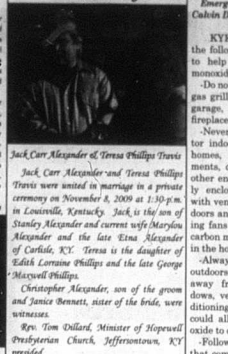
Wedding



Jack Carr Alexander & Teresa Phillips Travis

Jack Carr Alexander and Teresa Phillips Travis were united in marriage in a private ceremony on November 8, 2009 at 1:30 p.m. in Louisville, Kentucky. Jack is the son of Stanley Alexander and current wife Marylou Alexander and the late Etna Alexander of Carlisle, KY. Teresa is the daughter of Edith Lorraine Phillips and the late George Maxwell Phillips.

Christopher Alexander, son of the groom and Janice Bennett, sister of the bride, were witnesses.

Rev. Tom Dillard, Minister of Hopewell Presbyterian Church, Jeffersontown, KY presided.

Preventing carbon-monoxide poisoning

Nicholas County Emergency Management
Calvin Denton, Director

KYEM recommends the following precautions to help prevent carbon monoxide poisoning:

-Do not burn charcoal or gas grills inside a house, garage, vehicle, tent or fireplace.

-Never use a generator indoors, including in homes, garages, basements, crawl spaces and other enclosed or partially enclosed areas, even with ventilation. Opening doors and windows or using fans will not prevent carbon monoxide build-up in the home.

-Always locate the unit outdoors on a dry surface, away from doors, windows, vents and air-conditioning equipment that could allow carbon monoxide to come indoors.

-Follow the instructions that come with your generator. Position the unit outdoors and away from doors, windows, vents and air conditioning equipment that could allow carbon monoxide to come indoors.

-Have your home heating systems (including chimneys and flues) inspected each year for proper operations and leakage.

-Install battery-operated carbon monoxide detectors or plug-in carbon monoxide detectors with battery back-up in your home, according to the should conform to the latest safety standards for carbon monoxide detectors (UL 2034, IAS 6-96, or CSA 6. 19.01).

-Test your carbon monoxide detectors frequently and replace dead batteries.

-If you carbon monoxide detector indicates high levels of carbon monoxide, leave the building immediately and call 911.

-remember that you cannot see or smell carbon monoxide and portable generators can produce high levels of carbon monoxide very quickly.

-if you start to feel sick, dizzy or weak while using a generator, get to fresh air right away. Do not delay. If someone has collapsed or is not breathing, call 911 immediately.

Additional information and winter safety tips can be found on KyEM's web site at www.kyem.ky.gov.

Additional information regarding carbon monoxide poisoning can be found at www.cdc.gov/co/guidelines.htm.
