ANNOUNCEMENT.

FOR CONGRESS.

We are authorized to announce

C. W. MATHERS

of Nicholas County, as a candidate for Congress from this district, subject to the action of the Democratic party.

We are authorized to announce

HON. MORDECAI WILLIAMS,

of Boyd County, as a candidate for Congress from the 9th District, subject to the action of the Democratic party.

STRIKING AT US

Millersburg, Ky., July 4th, 1910.

Dear Keller:

The citizens of the little village of Millersburg send greetings to the Capital of the Blackberry County, and regret that owing to the strict quarantine that they are unable to attend the celebration of this glorious day, and listen to the sweet strains of the Morning Glory Band while participating in the festivities.

CITIZENS.

We wish to say to our Millersburg friends that the MERCURY is always ready and willing to criticise officers who are attempting to do their duty as they see it. We have never believed that there was anything to gain by knocking. Criticism of Nicholas County, let it seem that our County Board of Health thinks otherwise, and we are willing to concede that they are in better condition to know than we are.

From reading the above it seems the writer takes exception to the action of our County Board of Health, and shows a little venom in his remarks. We are sure he takes an erroneous view of the matter. No Board will ever quarantine against any county, city or section unless they believe there are grounds for it, and certainly no "fair or honest man or woman—christian—should wish to see the dreaded disease—smallpox—spread—among the people. Experience has taught us that the only safety lies in strict quarantine—absolute exclusion—and everybody ought to be willing for this. If our officers are misinformed and there is no smallpox in or around Millersburg, the quarantine can be raised and no harm harm done. We confess that we think the trouble is something like that which afflicted some persons in this county a year or so ago, and that it will be over soon provided the people of Millersburg act as they should.

There's no reason why anyone should get mad,—and there is less why any community should undertake to deny the existence of any contagious disease. Any community—however rich and proud—is likely to have disease brought to it by a filthy vagrant, bond, but no community should be excused if through pride or contrariness it aided in its spread.

The Louisville papers in commenting on the possibilities of the Governor's race leave the Hon. Wm. Addams out of their calculations. It's mighty hard for old political dopsters to consider any man for office who has not been feeding at the crib for a half life time. Mr. Addams has been a successful business man and the people have long been claiming that such an one was needed for the Governor's place, and we appeal to them to consider the matter now while they have opportunity.

The shipping of Jim Jeffries by Jack Johnson affirms the claim that an old man stands a poor chance in a fight with a young one. This talk about an old man coming back into form might be applied to Kentucky politics just at this time, and if one of our old time friends will take our advice he will refuse to put on the gloves at the request of fellows who have been "knocked out."

Chief Justice Fuller of the Supreme Court died Monday of heart trouble. He was 56 years old, a Democrat and was appointed by President Cleveland twenty years ago. President Taft will appoint a Republican as his successor and the Court is now almost solidly Republican.

All opposition having been withdrawn it is a sure thing that Congressman Bennett will be nominated by the Republican Convention which meets at Maysville on the 20th inst.

Fourth Celebration

It Rained—But Day's Program was Carried Out In the Afternoon.

Base Ball Game Called Off Grounds too Wet.

The arrangements for celebrating the 4th of July under the Commercial Club were complete, but the rain came near spoiling it. However we had quite a day of it after all. The attendance was light in the forenoon but the streets were filled 10 one o'clock notwithstanding the continued rainfall. The Paris Elks Band and the Morning Glory Band kept things alive, and every body seemed to be moderately happy under adverse circumstances.

After the oratorical services in the Court House yard in which Hon. G. F. Wycoff, Miss Mae Wells, Arthur Ogden and G. E. Keller took part, the decorated parade took place and held the attention of the crowd for an hour or so. In the parade were some most creditable representations, and this was but a fraction of what would have been but for the unfavorable weather. As it was the floats and displays in the Carlisle Milling Company, the Turesman Pharmacy, Jno. M. Mathias Insurance Agency, The City Store, The Blue Grass Produce Company, The J. H. Templeman Piano Company, L. S. Barlow Paper Hanger, James Archdeacon & Sons, Carriage Makers, The Eight Tailors Society, Lawrence Bro's Grocery, Jno. G. Powell, grocer, Taylor & Howe, Furniture Co., The Mercury, and others were creditable efforts. At right the fireworks set off by the Commercial Club closed quite a strenuous and damp day, and left us with a spirit of determination to try it again.

We feel it but due the young gentlemen composing the Morningglory Band to say appreciatively their cordial help us, and we trust they may continue to do so. The time they have been organized they do remarkably well, and we wish them continued success.

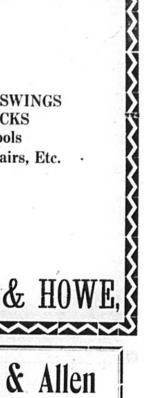
JOHNSON WINS IN THE BIG BATTLE

JEFFRIES KNOCKED OUT AFTER FIFTEEN ROUNDS OF HARD FIGHTING.

VICTOR SHOWS HIS SUPERIORITY

Former Champion of the World Fails in Effort to Come Back—War As Severe As A Baby in the Hands of the Burly Negro.



JACK JOHNSON.

Reno, Nev., July 4.—It is no longer true that Jeffries boast that he has never been knocked down by a blow from a glove. He was down in the floor three times in the fifteen round of the fight, and each time a huge negro with a face like an ape and broad-spreaded golden teeth stood over him and grinned.

For several rounds it had been evident that Jeffries' chances of winning had faded. He came from his corner, and within a few seconds was in a clinch and being cuffed by Johnson in the way he had been cuffed for at least eight rounds. Breaking away from a hopeless clinch, about to receive Jeff with a left to the chin.

The big man shot forward on his haunches, the lower rope bending beneath his great weight as he leaned upon it. He pulled himself together and slowly stood up. He was a mark for the darky's blows, another swift left sending him away through the ropes. This time he was in reality stunned not, but he gained his feet almost simultaneously with the expiration of the tenth second, and in the turmoil he was allowed to continue.

Jeffries rocked heavy-legged toward the opposite side of the platform. Johnson, watchful and confident, hopped after him, and as Jeffries squared around, with his back touching the ropes, a double-handed punch, right and left, caught the huge white man around the ear and side of the face.

Again Jeffries sprawled his length upon the floor. As he tried to gather his limbs beneath him his actions were those of a drunken man, and Sam Berger, seeing that poor Jim was blind, hopped over the ropes into the floor, and with a wave of his arm signaled his fighter to the principal Referee Tex Rickard then pointed to Johnson. At this time only eight seconds had elapsed, but Johnson will receive the credit of a knockout.

Jeffries never had a chance. Johnson proved his master even in the kitchen. Jeffries was as helpless as a baby in Johnson's hands when fighting at close quarters. He was clinched, and Johnson swung around and around, with Jeffries's feet flying, as if there were many, and seemed willing to keep on swinging. Jeff finally rolled so much work, and Jack contented himself with shaking his prey left and tossing it away around Jeff's head and shoulders.

After a few rounds of this kind of rough Johnson began to use his sharp right uppercut at close quarters. He made use of his left while Jeff was the mere clinching together, and he punished Jeffries severely. It was in the sixth round that Johnson first began to employ the short left hook on upper cut principle. While several times from side to side in the clinches, and a few seconds completely entangled with Jeff, he suddenly freed his left and jerked it into Jeff's face with force enough to partly chuck his right eye. A few seconds later the negro vanished his right free and uppercut Jeff on the mouth. Blood followed the punch. After that Johnson's left was busy and his right was coming in. Jeff was resting his chin on Johnson's shoulder to be out of the way of those disconcerting little punches, but there was no avoiding them.

Things looked pretty blue for Jeff in the end of the seventh round, and in the ninth they looked worse still. It was this going into clinches that Jeff had the best success in escaping Johnson's body.

In the ninth round Johnson fatigued rapidly, and, before Jeff could duck, sent a savage right into Jeff's jaw. Jeff shook his head as though stung to some extent and went into a clinch.

From the way Jeff posed after each knockdown it was clearly the fear that he was bent upon offsetting all of Johnson's leads with one napping smash in the ribs. He reached the end of the fifteenth round as fast as odd times, but never solidly. As a rule Johnson was able to block it with his forearm or able to hitch back from the right, and Jeffries's blow fell on Jeff's judgment of distance was gone.

The other rounds were but a repetition of the forgoing until the 15th, when Johnson knocked Jeffries down three times and only the the quick action of Jeffries' seconds in throwing up the sponge prevented a decision of a "knock out."

Heavy Rain Storms

On Monday morning last a heavy rain storm visited Winchester and vicinity and caused damage amounting to many thousands of dollars. In Winchester the sewers were unable to carry off the water and many cellars and stores were flooded. The L. & N. tracks south of Winchester and Paris were washed out in several places and trains delayed for hours.

The Winchester Democrat in giving long account of damages says: "The damage to the streets of the city is immense. In many places the material is washed out to the foundation, and in some places the bed of the street is completely washed away.

While thousands of dollars of damage was done in the city, the great damage was in the country. Hill land in many places was washed away to hard ground below where the plow had run. Fencing, waterpipes and crops were washed away. Roads and turnpikes were almost ruined in places and the damage done was almost incalculable."

During the last week heavy rains have visited various sections of this county and caused great loss to land and crops. The most destruction was done on Cassidey Creek, about Upper Licks, not on Hinkston.

Damage amounting to thousands of dollars was caused throughout Montgomery county by the heaviest rain in the memory of the oldest inhabitant at the past week, but we are glad to say she is improving.
