The Wheels In The Court House

The collection of machinery gracing the Court House tower, and which bears, for some unknown reason, the appellation of "town clock," still disperses its daily dose of misinformation. Why not abolish the contrivance if it cannot be made to keep accurate and dependable time, and erect a sundial on the Court House square? A sundial would remove the virtue of silence, at least.

The City School Board will meet next Thursday for the purpose of electing teachers for the ensuing year. Ten teachers will be elected. The names of the applicants for the places have not been given out. A successor to T. B. Berry, whose term of office has expired, will be chosen at this meeting.

Straight at It

There is no use of our "beating around the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world-wide reputation and people everywhere speak of it in the highest terms of praise. It is for sale by All Dealers. Adv.

President Wilson will not interfere with prevailing legislation in California by which Japanese who have not declared their intention of becoming naturalized as American citizens are prohibited from owning land as property. But he will use his influence to conserve treaty obligations.

Look to Your Plumbing

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by All Dealers. Adv.

POLITICS and POLITICIANS

By HARRISON S. NICHOLAS

A column of political gossip of local interest, written especially for the Mercury

W. L. Bramblett is in Washington in the interest of his candidacy for United States Marshal for the Covington District.

In this issue of the MERCURY Mr. Duncan Hildreth, Sheriff of Robertson county, announces as a candidate for the office of State Senator to succeed Dr. C. W. Mathews, present incumbent in the Robertson-Harrison-Nicholas Senatorial District. A petition in the interest of Mr. Hildreth's candidacy was circulated several weeks ago, and signed by numbers of prominent Democrats in three counties. Mr. Hildreth has filled several offices in his native county, having served as Assessor, Deputy Sheriff and Sheriff, and has always proven himself a most popular and capable official, and in the event of his election he would prove a good and efficient representative of the people.

Mr. Jesse Linville has announced as a candidate for the Democratic nomination for County Assessor. His card will be found in the columns of the MERCURY. Mr. Linville comes from a Democratic family and is the first of them to seek office. He is the only candidate for a county office lacking from the 1st Magisterial District. He is a successful farmer and a varicial citizen. Nothing he has ever asked worked and voted for the Democratic ticket, he has never sought office before.

Miss Lida G. Gardner left Monday afternoon for Richmond Va., to attend the meeting of the Conference For Education In the South. She was appointed as a delegate to represent Kentucky by Governor J. B. McCreary. This is a worthy recognition of the work of our efficient County School Superintendent. By her diligent work she has won a state-wide reputation in educational work.

Justice Frank Brayfield, of Magisterial District No. 1, has refused to be a candidate for renomination. He has made a good record as an official and his friends would be pleased to see him fill the office for another term, but his health is such that he feels he will be doing himself and family an injustice to become a candidate.

Mr. Frank Lowe, of near Millersburg, Mr. Jack King, of Oakland, and Mr. Windsor Gaunce, of Saltsell, have been urged to make the race, and either one would make a good official.

Judge W. T. Kenton, of Mt. Olivet, was in Carlisle courtday, and was mixing with the Democrats of the county. The Judge is a prospective candidate for the Democratic nomination for Senator in the Robertson-Harrison-Nicholas district, and is backing over the field before entering the race.

Judge Kenton has been prominent in politics of Robertson county for several years, and although young in years, has achieved many political honors. He has represented the Robertson-Nicholas legislative district in the House of Representatives, and has served two terms as judge of the Robertson county court. He has strong political backing.

A rumor to the effect that Mr. L. S. Hughes, a prominent young attorney of the Carlisle bar, and Deputy Circuit Clerk, would be a candidate for Deputy Collector of Internal Revenue, in the Seventh District, has been given wide circulation throughout Central Kentucky. Mr. Hughes states that he is not a candidate, and will not be a candidate.

The Lexington Rolling Mills Company has sent out bulletins to the farmers of Fayette and neighboring counties, calling attention to the best methods of cultivating the wheat crop at this time of year, in an effort to increase the production of wheat in this vicinity.

County School News

Last Thursday W. S. Gaunce, the County Superintendent, completed a canvass of the County Board of Education met with the people of Graytor School district to look into the matter of erecting the school house from where it is now, to S. of the public road, to some place on a public road to comply with the law. From 50 to 75 were present. Out of those present and those of the district, none were for leaving it near where the present site is and the rest of the district were for moving it on the road.

We were delighted to hear the farmers in the country speak of the school situation in Nicholas. Three only said that they were perfectly willing to pay their schools tax because the school houses were in bad repair
