THURSDAY, FEBRUARY 14, 1878

Hon. Thomas F. Margo for Criminal Judge.

The action of the Democracy of last Monday was in every sense complimentary to Judge Hargis, and especially so since some of the chief actors were those who have been his former opponents. From his unwavering sentiments, integrity, ability and close attention to business, Judge Hargis has won the esteem and approbation of the solid Democratic phalanx of Nicholas County. It is a merited praise and a compliment that will be highly appreciated. We doubt not that such public sentiment may be found in similar expressions from the other counties. The action above referred to was wholly unknown to Mr. Hargis, but we hope he will see the propriety of gratifying the wishes of his constituents and will consent to run.

GEORGE P. GOSNEY, the inventor of the Gordon printing press, died at his farm, near Scofield, Va., the other day.

THE trial of Randle, the St. Elmo murderer, progressing at Lynchburg, Henry county, is strong case or losing case against him.

JESSE UNDERWOOD has arrived at Owingsville, where he will be tried for the murder of George Ivanhoe four years ago.

HON. CHARLES M CONRAD is progressing nicely in the recovery from his recent illness. He is a member of the Senate from Louisiana, and Secretary of War under Fillmore, died in New Orleans Monday, aged seventy-three.

SPEAKER of Judge Hargis and the Criminal Judgeship, the Flemingsburg Democrat is the latest to hop on and pound double the most talented lawyer in this part of the State, and while the Democrat is not a lawyer, it is a leading member in his appointment the Democrat makes a gallant effort to get elected. Give it to him if he wants it.

THE bill establishing a whipping post passed the Kentucky House on Wednesday by a vote of sixty-three to twenty-one. The advocates of this bill think it is necessary for the suppression of petit larceny. It provides that the offense of stealing money, chattels or goods less than one dollar in value, shall be punished with whipping, and exercising thirty-nine, and not exceeding forty-nine, lashes, at the discretion of the Court. Women will not reap the benefit of the bill.

THE life-saving service of the coast—"A will probably be inquired into by the present session of Congress, on account of the inefficiency displayed at the loss of the Huron, and many disasters on the Jersey coast, and on the Carolina coast. There were about 300 lives lost on those two wrecks, very many of which might have been saved if the service had been well organized and properly supported to be. The head of the service, a man who does not know a life boat from a hen coop, and who does not believe his subordinates were in fault in any matter, said "they did all they could; and were they the best men for the duty, and were those men in the stations in good order? It is known such was not the case when the Huron was lost.

It is a curious fact that the first great fight against prohibition in this country, whose fundamental principle is that crime and misery are promoted by intemperance, should be at the Capital. Since 1874 Washington has been totally without power to select either a legislature or any officer from 1871 to 1874, with officers and Legislature elected, a debt of six millions was incurred. From 1874 to 1878 with practically no supervision of the people, at least $7,000,000 more was added to the debt, and "frauds" to the amount of other millions, the direct result of the late "Ring" rule, are known and held against the city. In fact, the last seven years have seen this city reduced in a condition in which its bonds, if it were not for the fact that the general government is expected to assume the debt, would be worth the paper on which they are printed.

The following is a dispatch from Carlisle to the Reporter:

To-day was County Court day, and twenty-four candidates for County Assessor, with the candidates for several other offices, were freely among the people electioneering on the streets by candidates. Many were announced through their county paper or cards by cards.

The Mercury is now prepared to insert announcements for county offices. Such a card will be read by every voter in the county. Those one of the shrewdest of financiers, who have ambition for office must not be afraid of a few dollars judiciously expended. An announcement in the called to order.

Rain Col. Davies report, and you will be happy—of course Stoneberg—that some of those objectors are intended for you. Each county in the State is a precinct.

The Governor will order an election to fill the vacancy caused by the resignation of Hon. W. J. Sutch. In the event of this fact the Chairmen of the Democratic Executive Committees of several counties requesting the appointment should hold meetings at the earliest possible time, for the purpose of designating the time for the District and County Conventions. As the last fall's nomination was held in Carlisle, we readily yield, and nominate Maysville. Prompt action will secure the services of a pure and efficient man—such a nominee as is needed to carry a large Democratic majority.

R. G. A.

Two years since an act of the Legislature was passed creating the office of Criminal Judge for this district which was urged by a large number of the best men of the district, among whom were many lawyers and county officers. The people of the district are satisfied that the office was absolutely demanded. Some, many cases that had been continued from year to year for want of time, have been disposed of. We are now beginning to reap the benefits, and yet we are in need of more help. We are constantly looking to the repeal of the act. The thing of doing things merely to make them in children's play. The people of the district do not want the act repealed, and, if necessary, a petition bearing the names of hundreds of the best men of not only this, but of the other counties, could be secured requesting against the repeal of said act. We trust that our Legislature will weigh well the views of our people before taking any action in the matter.

WHEREAS, At a meeting of the Democratic party of Nicholas County, held at the Court house in Carlisle, on Monday, February 11, 1878, upon the selection of a candidate for the office of Criminal Judge, made vacant by the resignation of Judge W. J. Sande. The meeting was called to order by L. M. Conway, Chairman of the Executive Committee of the Democratic party.

On motion John B. Durham was elected chairman, and L. M. Campbell was chosen secretary. The chairman stated the object of the meeting.

The following resolutions was introduced by Judge A. Campbell and unanimously adopted, to wit:

WHEREAS, The office of Criminal Judge for the district of Nicholas has become vacant by the resignation of Judge W. J. Sande, and

WHEREAS, we recognize in our constituency, Judge J. F. Hargis one eminently qualified to fill said office of Criminal Judge; therefore be it

Resolved, by the Democracy of Nicholas county, in mass meeting assembled, that we cordially recommend Judge Hargis to the voters of this district as one pre eminently qualified to fill said office of Criminal Judge, and will cheerfully acquiesce in the action of the Democratic Convention that will shortly assemble to nominate a candidate to fill said office of Criminal Judge.

The Life and Work of the Late Pontiff.

After a long illness, alternated by many partial recoveries and many relapses, after his physicians had for years approaching death had been almost momentarily expected, Pope Pius IX. has passed away. The sensation in Europe, His Holiness the Pope is at last gone to rest. Full of years and of honors, full of labors, and decked with hardened earthly career of the Pontiff, who has been a conspicuous figure in the world for nearly a third of a century, who has been for a longer time as this, when the excitement over his death has passed, will still deserve to make about the loftiest throne, that of the Vicar of Christ on earth.

The Courts of New Orleans have passed Saturday, out of respect to the memory of the late Pope.
