OPENING SALE AT LEXINGTON AVERAGES $56.60

The Lexington tobacco market opened Tuesday, 256,000 pounds of tobacco sold at an average of $56.60 a hundred pounds.

The market ranged from 16 cents to $1 a pound. Crossy grades were at least $10 a hundred better than last year and other grades as strong.

Only two sets of buyers were on the floor, one representing American and the consensus of opinion among tobacco men that for this reason Tuesday's range of prices is no criterion of what the market will be with a full complement there. There seems to be little doubt that tobacco will sell much higher than last year's initial sale, because of the shortage.

Last year the Lexington opening sale averaged $42.18.
