UPPER LICK

While visiting here, Mr. Clyde Wentz, of Parnassus, Pa., wrote this to have printed in this paper as follows:

"While making a trip through Kentucky in the spring of 1920, I had the pleasure of meeting a few days with Mr. J. T. Teal, of Upper Lick. Today, after an interval of three years, we meet again. I find he has made improvements that are taking place along the Upper Lick pike. The new store of Omer Jolly and Brother is up-to-date in every way and carries a full line of merchandise. Omer Jolly is the new blacksmith since Omer Jolly and father to quite a convenience to the farmers of vicinity. The new stone bridge erected by Mr. A. Chrisman and Mr. Philip Clark is a very very substantial and highly commendable piece of work. The result should be given the stone engineer, Mr. Paul Darnell, for designing such an artistic piece of work. With part of the machinery for the new roller mill at Upper Lick, Mr. P. B. Clark on the ground, and more expected daily, residents of this vicinity can hoist a toast to a Spring Tonic.

Mr. Homer Teal and family, Ben Sweet and family, Charlie Burke and family and Mr. Clyde Wentz visited Mr. and Mrs. Ed Sweet Sunday.

SWIFT'S PRODUCE REVIEW

Deliveries of cream to creameries during the week were larger and as the supply of cream is now fairly large we will increase ripening. We have little surplus all the week on all markets, resulting in lower quotations.

The general average quality of butter at this time than for several months past. Creamery operators are taking a real interest in the subject of producing better butter.

Receipts of eggs last week were smaller than usual at this time of the year. Due to light stocks and continued good demand, prices on eggs have ruled quite high.

The live poultry market for New York closed the week with a better tone and a more hopeful outlook for this week on live fowl.

Receipts of dressed poultry were generally lighter, permitting a greater use of storage stocks.

A considerable portion of the turkey stock will necessarily have to be held before much improvement can be expected in the poultry situation.

MIRANDA

Much rainfall in this section of the county will probably check the forwarding of their plowing for corn crops.

The Campbell and Shannon auction of merchandise closed Saturday night with a good attendance.

Mr. and Mrs. Henry Stoney were entertained on last Saturday night, their guests were Mr. Thompson, Miss Susan Porter, of Lexington, Sunday afternoon.

Jim Clary and daughter, Orline, drove to Mt. Carmel, Fleming county, Sunday afternoon to attend the burial of his uncle, Mr. Porter, on Monday.

Arthur Vice had a 50 foot new big tobacco canvas taken off the tobacco barn last week by the wind. The wind must have exceeded 70 per hour.

Mrs. Myrtle Berry, of Mt. Sterling, and Mrs. Tom Vice from Washington, spent Thursday.

O. C. Clay and wife spent Sunday with Mr. Wilson near Moorefield.

Orline Clay is on the sick list this week.

Mrs. Walter Hazelrigg has been suffering from a severe case of hyperemia.

Our Sunday school is progressing finely, with 52 in attendance last Sunday. We hope to double that number next Sunday. Especially do we want all the teachers and officers. Mr. Gadis will preach for us if nothing happens.

THE BEST FERTILIZER

The name (ARMOUR) on a bag of TOBACCO means you nothing—but it is your protection and assurance that you are getting the best. Ask your tobacco man what you should use Armour's fertilizers.

Armour's tobacco fertilizers are supreme, scientifically prepared by chemists.

Composed of the very best grade of packing house by-products available, such as dried blood, tankage and finely ground bone, reinforced with Acid Phosphate and Potash Salts, and quick acting mineral ammoniates.

Ammonia, derived in a large extent from animal and vegetable matter, is slow acting, dried blood, bone and tankage. Nature's natural sources.

Potash, Nitrate of Soda, Armour's fertilizers are always phosphorically cured and reground before entering final mixture.

Potash from Sulphate, a combination of Potash and Magnesia, gives Tobacco Stems which by actual field tests are equal to Potash.

ARMOUR'S BIG CROP TOBACCO FERTILIZER GROWER will nourish the growing plant from the seed bed on through to maturity producing the highest quality leaf to be had in tobacco.

2. Through the use of all natural plant food materials such as Animal Tankage, Dried Blood, Tobacco Stems, Potash and Bone Meal fair value is always received.

3. Mechanical condition of Armour's Fertilizers is all that the most exacting planter could desire. Being ground to a fine mesh they work well.

4. It is put up in durable, well made bags, which can be used for many individual requirements.

5. We always have a fresh stock of Armour's fertilizers on hand and can furnish your requirements if you are undecided about the use of fertilizer we will be glad to call on you or write.

LISTING THE ARTS OF KENTUCKY

Listing the art objects possessed in Kentucky is a work that is expected by Miss H. V. McChesney, of Frankfort. A great many paintings by old masters will be received and other products of artists in various lines will be included in the work projected. Miss McChesney is regrettable that some of Kentucky's works of art will never reach their need. The windmills of Holland are famed for their beauty.

The pottery of the Aztecs has its place in the museums. The blankets of the Navajos are being sought for the adornation of the elite East. Will old authority ever see a painting of a great big hot brown Kentucky mule, or a Kentucky hound dog, or its clearer image? Caught in the last mood and in the perfect atmosphere of Kentucky, it would be Kentucky art most unique.

Figures for Home Builder.

Unless very much interested in figures, the home builder does not know how each dollar is spent that he puts into the construction of his home. He knows in a general way that there are many general groups, but so he looks at the finished dwelling he is more or less guessing as to the cost of "mortar" or carpenter work or plastering etc. Using the letter for illustration, the material costs. It is estimated that 36.1 cents go for materials, 22.1 cents for carpenter, 8.7 cents for roofing, 6.5 cents for electrical work, 5.2 cents for lumber, 5.5 cents for sheet metal work, 2.4 cents for roofing and 1.2 cents for hardware.
