PATRIOTISM

Breathing there a man, with soul so dead
Who never to himself hath said,
This is my own, my native land!
Whose heart hath ne'er within him burned,
As home his footsteps he hath turned,
From wandering on a foreign strand!
If such there breathe, go, mark him well
For him no minstrel raptures swell,
High though his titles, proud his name,
Boundless his wealth as wish can claim,
Despite those titles, power, and pelf,
The wretch concentered all in self,
Living, shall forfeit fair renown,
And, doubly dying, shall go down
To the vile dust, from whence he sprung
Unwept, unhonored, and unsung.

BIG SOLID CORN

The largest and most solid corn crop in Nicholas county is being planted this year. Nine hundred and twenty-five acres are in corn, the greater portion being planted in 4-foot rows, allowing a good deal of room for cultivation. There are five of the 100 acre fields in corn, and the total acreage is about 1,000 acres.

Some three estimates of corn yield are in the neighborhood of 40 bushels per acre, and the total yield will be in the neighborhood of 40,000 bushels. It was a clean crop. It was planted in good ground, and it was cultivated to a finish.

Nine hundred and twenty-five acres represent the government acreage. Several from large farms have planted from 100 to 200 acres, and the total acreage will be much greater than the government acreage. The total expenditure for 1922 was $1,000,000 for the county, and the total expenditure for 1923 should be much greater. The government acreage represents a total expenditure for 1922 of $700,000 for the county, and the total expenditure for 1923 with what the Nicholas county farmers will spend in 1923, $1,000,000, and could not be a dollar more than that, and it may have been far short of that, but it could not be much more than that.

Now let us see just how this big crop will be marketed.

In July, in 1922, the Treasury estimated its receipts for the fiscal year of 1923 at $4,000,000 for 1923, it revised its estimate of receipts for the fiscal year of 1923 to $3,000,000, and the actual receipts for the fiscal year of 1923 are now estimated at $2,500,000, and they are probably estimated
