Seasons Greetings 1932

The Spirit of Christmas

Has lived for nineteen hundred and thirty-two years. It will continue to live and spread happiness and cheer so long as our faith is based upon its original conception.

This December some of us may be a little down-hearted but remember, the Spirit of Christmas was born in a manger and has outlived many depressions before this one, from which we are recovering — and will outlive those to come. So let us return to the fundamental faiths, simple pleasures and genuine happiness while waiting for Santa Claus.

We sincerely wish you and yours a "Merry Christmas and a Happy New Year" full of rich rewards.

IT'S A TAME JOB

Presiding over the senate proved no tame Thursday for Senator Barkley of Kentucky, after his experiences as temporary chairman of the Democratic national convention, that he broke senate precedent by working on the convention floor.

It was the first time Barkley has presided since the explosive national convention when he had his hands full obtaining order. When he took the chair Thursday, Senator Glass, of Virginia, New York Democrat, was in the midst of a long speech on Philippine independence, and the chamber was almost empty.

Barkley twiddled his fingers for a while and then, apparently tiring at the inaction, rolled for his mail. An aroma was brought, and he began sorting it out in great style, opening applications for jobs on one side and general correspondence on the other.

When he finished that, the senator took out his pen and begin to write. Senate attaches said it was the first time in their memory that a presiding officer has utilized his time in that way.

Kentucky War Veterans Got $20,882,176 Last Year

Federal expenditures for Kentucky war veterans during the last fiscal year amounted to $20,882,176.

In only eleven other States were such Federal expenditures larger than in Kentucky, although there are sixteen States which outrank Kentucky in population.

Nearly three-fourths of the total were for World War vets.

These facts are disclosed in a tabulation inserted last week in the Congressional Record, showing the total tribution of expenditures by the Veterans' Administration in the various States during the fiscal year 1932, there showing the number of beneficiaries as of June 30, 1932.

"Administration" expenses of the Veteran' Administration, which includes all expenditures incident to maintenance and operation of all field offices, including traveling expenses, etc., amounted to $1,878,111, while pensions, compensation, allowances and services in that State cost an additional $19,004,065. The remaining expenditures, amounting approximately to $19,000,000, were directly to the veterans.

Kentucky has 17,968 persons on the Federal pension rolls as a result of claims growing out of wars preceded the 1917-18 conflict. They received $5,945,343 during the last fiscal year.

Beneficiaries are the Kentucky figures of World War veterans, for instance, 18,624 Kentucky veterans received disability allowances or more than in any of the other States except Ohio, which reported 19,000 vets. To the total Federal payments for "disability allowances" to Kentucky veterans last year, $3,287,195. In addition to the three States cited, there were a number of States in which veterans was lower, but the total amount of payments greater, in California, New York, Illinois and Mississippi.

Only one veteran outranked Kentucky in the number of World War beneficiaries receiving "compensation." There were 10,724 Kentucky veterans on the "compensation" rolls and they received a total last year of $1,768,287. Ohio, Texas, Illinois, Pennsylvania and Texas, in addition to which Mississippi exceeded Kentucky in number of such expenditures, but had a smaller number on the rolls than Kentucky.

Kentucky ranked fourteenth among the States in the number of veterans receiving emergency officers' retirement pay, and fifteenth in the expenditures under this item. There were 136 Kentuckians receiving this pension, at a Federal pension, and the total amount paid to them during the last fiscal year was $108,000.

There were 2,969 Kentuckians who received "disability compensation" last year and the aggregate paid them was $606,000. Kentucky has 1,000 retired military or naval term insurance, which cost the Government last year $2,609,212. Other Federal expenditures in Kentucky included the tabulation include $22,302 in adjusted service and dependency bonds, and $1,000 in emergency officer certificates matured in death. Kentucky ranked 14th in the number of such bonds, and 15th in the number of its war veterans in hospitals, with a total of 636.

GREENUP'S SCHOOLS

(Courier-Journal)

The Greenup Fiscal Court reports that the County Superintendent was to be sent to Frankfort to inquire into why it would be hard to hold just a few months school term this year. The school will be closed in most of the rural districts.

The school term of twenty-six months would mean three months and ten days of actual school work. Greenup County's school fund was $300 short of $200 enough to pay the teachers for a school term. The State Department of Education reported for the fiscal year last year State revenues, amounting to approximately $13 a pupil for the 4,300 pupils in the rural common schools; $34 apiece for the 3,622 in one city, and four graded districts. Once they all combined the provision for a pupil would have been $24 for each pupil.

That, however, pre-supposes the collection of the same plants and does not take into consideration the conversion of two-thirds of the overall revenue for provision for instruction. Merger of the six local systems would result in consolidation of plants dispensing with unnecessary high salaries and reducing other administrative expenses which would make the amount available for the education of each pupil practically what it costs to educate each one in the city and graded districts now with the prospect of better schools and better paid teachers.

EX-PRESIDENTS' JOBS

(Elizabethtown News)

It is natural that many are speculating on what President Hoover will do when the Presidency ends next March. Without venturing a guess on the subject, it may be interesting to know what a few other ex-Presidents did after leaving the White House.

Washington returned to his large Virginia plantation. Adams served as a member of a Massachusetts constitutional convention. Jefferson was Rector of Jefferson founded the University of Virginia and designed some of its buildings.

John Quincy Adams served as a member of the Massachusetts legislature. John Tyler espoused the Confederate cause and was a member of the provisional Congress of the Confederate States. Andrew Johnson became a United States Senator from Tennessee.

Grant became a partner in a banking and brokerage firm which failed, but he left his family in comfortable circumstances through the writing of his memoirs, completed only four days before his death from cancer.

The two ex-Presidents whose lives after closing the highest office attained the most striking contrast were Taft and Monroe. Taft served practically ten years as Chief Justice, an office almost equal in dignity to the Presidency itself, while Monroe, who was a poor man, was content to serve for several years in the humble capacity of justice of the peace in Westmoreland County, Virginia.

Before his recent death, "Puddy," the flea which first saw the light of day on an Irish well linnet, had a world's record of 52,850 successive performances at the flea circus on Coney Island, New York. His specialty was waving the Irish flag.

LYRIC THEATRE

The rural schools of the county will close for the Christmas holidays Friday afternoon and will reopen on Monday, January 2.

Miss J. L. Martin, native of this county, has been appointed as state inspector of beauty parlors under the new law passed by the last legislature.

Yesterday, December 21, marked the official beginning of winter and was the shortest day of the year. The term of winter ends on March 21 when spring begins.

The large number of advertisements in this issue crowded out our serial story. Turn the Calendar back a week and publication will be resumed in next week's issue.

The Blue Grass Producer Company quoted the following prices on dressed dry: Turkeys, 8 to 10 cents; good fat chickens, 8 cents; old roosters, 5 cents; ducks, 28 cents.

The annual election of officers of Dougherty Lodge No. 61 F. & A. M. will be held next Tuesday, December 27, beginning at 9 o'clock. At the noon hour a dinner will be served as is the annual custom of the lodge.

The banks will be closed next Monday, December 26. The postoffice will also be closed and there will be no mail delivery, all employes being given a holiday on account of the fact that Christmas falls on Sunday.

The Carlisle city schools will close for the Christmas holidays Friday afternoon and school will reopen on January 3. A program will be given in the school auditorium Friday afternoon by the pupils of the various grades.

Because of the inclement weather only a small audience witnessed the "Christmas Gift," given by the Glee Club of the Carlisle high school in the auditorium Friday night. The performance was repeated Tuesday afternoon.

The most severe winter weather in several years struck this section last week, lasting from December 16 until Tuesday, when it became warmer. On hot Friday and Saturday the thermometer reached zero in several sections of the state and in this county it was only two degrees above the weather was the coldest since 1929.

Ben Hardwick, of the Moorefield section, suffered a fracture of his leg above the ankle Monday morning when he fell from a wagon loaded with tobacco near his home. He was brought to the Mercury office where Dr. Ewing was put in a cast by Dr. B. F. Reynolds, and he is resting comfortably.

Master Commodore Emmett M. Dickson sold at public auction at the court house door on Monday morning the "Smokehouse" pool room on Main street in Paris in order to satisfy a judgment of $1,798.29 in favor of William Barton, of Carlisle, former owner of the pool room, against William and Kimes and others. The pool room was purchased by Theodore Butler, of Paris, for $450.

Ennis Ockerman, son of Mr. and Mrs. Emil Ockerman, of the Upper Jackstown road, hit upon a novel method of exterminating some of the many crows which have infested the Ockerman farm this fall and winter. Observing a large number of crows circling the carcass of a dead sheep on the farm, Ennis Saturday set a steel trap near the dead sheep and with the single trap caught a total of 10 crows between Saturday afternoon and noon Sunday.

Winfry Morgan, who is employed on road construction work on the Carlisle and Flemingsburg road, was arrested by Sheriff D. M. Curry Monday night at the residence of Christine Bourbon on the Myers road, near Carlisle, after he is alleged to have pulled a knife and created a disturbance. Before Judge Paul D. Turnall Tuesday morning Morgan was held to the grand jury under bond of $250 on a charge of carrying concealed a deadly weapon.

Because of the prevalence of influenza in the East Union consolidated school, the school was closed Tuesday. Only 45 of the approximately 150 students of the school were present for classes Tuesday, and on Monday the number was smaller. This is the only school in the county closed on account of the prevalence of the disease, but attendance in all of the schools has been reduced.

Those receiving Holy Communion during the midnight mass must begin fasting from 9:30 p. m. the night before.

Since many friends will be visiting and celebrating three masses on Christmas day it therefore that every good Catholic should attend three masses. Accordingly I expect all my parishioners to attend the three masses on Christmas day.

We feel of former members of this little parish of Carlisle now residing in places close to city to remember in some little way your old home parish church during this Yule season. We need your help from the outside I fear that the time is not far off when the burden of our church will be closed. In all probability, this will be the last midnight mass service to be celebrated here. We need your help. Will you loyally to your home parish prompt you to remember?

WILSON

Mrs. Deborah Wilson, 85 years old, widow of the late George H. Wilson, died at her home in the East Union section Monday with the infirmities of age. Mrs. Wilson was a life-long resident of that section and had many friends. She is survived by her son, John Wilson, and a daughter, Mrs. Thompson, both of the county. Several grandchildren also survive. Funeral services were held at the Christian church Wednesday afternoon, conducted by the pastor, Rev. S. H. Cumbers, and burial followed in the Carlisle cemetery.

CHRISTMAS "DONTS"

The National Safety Council sends its annual Christmas greetings to the public in the form of a few "donts" for children and adults. They are:

Donts For Children

Don't play in the street with your new toys.

Don't try out your new skates unless you know the ice is safe.

Don't keep your playthings on the floor or someone to trip over.

Don't shoot arrows, darts or air rifles at another person.

Don't fetch your ball and bat to automobile.

Donts For Parents

Don't use lighted candles on the tree.

Don't place lighted candles in the window unless you are certain there is no danger of the curtains catching fire.

Don't use flammable decorations for the tree.

Don't stand on boxes and chairs to decorate the tree; use a sturdy stepladder instead.

Don't give unsafe toys to children.

Don't keep the tree in the house after it has dried out.

And for both children and parents—don't let an accident spoil this happy, festive occasion.

An English girl of 14 has been found to possess three kidneys.
