HOUSE OF HAPPINESS

Take what God gives, O heart of mine,
And build your House of Happiness
Purchance some have been given less.
But many have been given less.
The treasure hide at your feet,
Whose value you but faintly guess,
Another Sunday, looking on,
Would barter heaven to possess.

Have you found work that you can do?
Is there a heart that loves you truly?
Is there a spot somewhere called home
Where, spent and worn, your soul may rest?
A book? A tree? A friend that's true?
A day that lows your land's earnest
A stave of health to meet life's needs?
Be sure to hear Congressman Upshaw Tuesday night at the Methodist church on the subject of "Faithful Through to Victory." This is a worth while and entertaining address. Many people out in the country should hear this message. The churches in this locality are cooperating in this meeting. Let us give Mr. Upshaw an audience worthy of the cause and man.

LAND AREA FOR FOOD

It takes more than 2 acres of crops to produce food for an American, but it takes only 1-acre for a German, 1-acre-and-a-half for a Chinese, and only one-fourth an acre of land, to feed a Japanese, according to Dr. O. E. Baker, economist of the United States Department of Agriculture. Doctor Baker points out that these differences in the amount of crops needed to feed one person are due primarily to differences in diet. Meat, however, takes as much land is necessary to produce food for a Chinese as for a Japanese, because crop yields are much higher in Japan.

BUSINESS CONDITIONS BETTER

At Ashland business conditions are improving, and the unemployment situation is changing for the better. Two hundred men have been put to work this week, one hundred each by the Ashland Rolling Mills and the Ashland Coke Company. The officials say that others will be gradually put on the payroll and that in two months all the old employees will be back at work.
