RAINBOW IN A BIRCH

No leaflet sight
Could ever be
Than a rainbow in
A white birch tree,
Just a painted
Fringe of red
From a rainbow's
Down-curved bend,
In a birch's
Trembling, silky,
Leaves and boughs—
A fragmentary
Bright rainbow
One might search
The world over
For a birch
With a rainbow
Tangled in it,
And the sun and mist
To spin it—
A bird above,
A cloud beneath it—
One might search,
And not find it.

PRATHER HALL

After the whole creation forsook God Jesus Christ, He chose twelve and his descendants to train them to be His Missionaries to the world. He did not want to play such an humble part in the world's history when it is a fight their way to glory and peculiteness. Just as the Lord is doing today. They were to be a channel of blessing to the nations, but they failed Jesus. All of the "Old Testament" scriptures were written to Christ and about Him; all His promises were to Him; all His blessings were to Him. The nations are as nothing before Christ. Christ is everything to us. Christ is our hope, nothing and nothing and nothing."

After Israel utterly failed Christ, God raised up Paul to be a small remnant to the nations, with the apostle Paul as a pattern. Christ's ministry with an special message to them.

Come at 9 30 and worship with us.

THE SOUTH GETS WHITER

(Progressive Farmer.)

One of the striking facts recently revealed by 1930 census data is the steady increase in the percentage of white population in the South. It is significant that in 1890 in the states of Alabama, Georgia, Mississippi and South Carolina—the main Cotton States—the negroes outnumbered as late as 1900 Negroes constituted more than half the population of South Carolina and Mississippi and more than one-third in Georgia and Alabama and Louisiana. Now only one state, Mississippi, has Negroes in majority (and that by only 2-10 of 1 per cent), and in Georgia, Alabama and Florida the proportion of Negroes has dropped from nearly one-half to about one-third.

Our paper believes in a constantly and steadily increasing number of colored people. We have always advocated "Negro schools" and have fought lynching; we have denounced the exploitation of Negroes on farms or in industries. But the excessive congestion of Negroes in the rural districts resulting in a chronic overproduction of cotton and tobacco has been a bad thing for both races and the Negroes are doing a wonderful thing in taking advantage of many new opportunities now offered them in other sections. The increasing whitening of the South, as revealed by the census, is thus a good thing for both whites and blacks and will make for racial peace.

WORK—LET US HAVE FAITH

(Mt. Sterling, Advocate.)

We must not give up, that is something that America never does. In business in years past there been troublous times before in this country, many of us have gone through them and experienced both the anxiety and the pain. Panic, for instance, in 1893, stark ruin stalked through this land—400 banks failed in a few months. Mills, furnaces and factories were closed, business was bankruptcy was on every hand. America had twice as many unemployed per thousand population as she has today. But all these were put back to work.

In 1907 panic broke loose. The production of pig iron dropped 50 per cent in less than a year. All but the strongest men lost heart. "We are ruined," they declared, "recovery cannot come in our time." Yet in two years prosperity had returned.

In 1921, when many honest and thoughtful people were predicting worse conditions, the country was already beginning to climb to the greatest era of prosperity it had ever experienced.

History tells how America has fought and won nineteen major depressions. Good times always follow hard times, as surely as day follows night. Prosperity always comes back. It is coming back this time, too.

Above all things, let us have faith.
