German Remedy Stops 30-Year Constipation

"For 30 years I had a bad stomach and constipation. Scouring food from stomach choked me. Bitter taking alkaline tablets I am a new woman. Constipation is the thing of the past."—Alice Burns.

Most remedies reach only lower bowel. That is why you must take them often. But this simple German remedy Adlerika washes out BOTH upper and lower bowel. It brings out all gas and ridiculous poison you would never believe was in your system. Even the PTRIP dose will surprise you. Hopkins Drug Company.

There will be a masquerade party at the Miranda school Friday night, October 28. Prizes offered for best costumes. Come and enjoy the fun and frolic. Admission free to all. 11

YOUTH SLAIN DURING PARTY

Bright Bea, 14-year-old son of John Bea, prominent farmer of the Cynthiana section, Harrison county, was lodged in jail at Lawrenceburg Thursday on a charge of manslaughter growing out of the fatal wounding of Charles Kays, a boy neighbor young. The shooting occurred at a party in the Mt. Pleasant neighborhood at midnight Wednesday. According to witnesses, Kays quarreled with some girls, Bea being one of them. Later Kays is said to have hit young Bea on the head with brass knuckles. Bea was knocked to the floor and it was while his assailant was over him that he managed to draw a pistol and shoot Kays in the abdomen.

Inspector Praises Cut In Expenses Of State

Expenses of the various state departments, boards and bureaus have reached their lowest level in many months, according to a report made last week by Nat B. Sewell, state inspector and examiner for Governor Ruby Laffoon.

"Actual economies prevailed in economy within the last nine months as far as my state boards and bureaus are being made good to a much greater extent than seemed possible at the beginning of the administration," the report stated. "Investigations made and being made in my department in all divisions of the state government strongly confirm this statement."

Republicans Seek To Revive Districting Act

Bill is being prepared at the instance of Republican leaders to be introduced in the legislature next year to give the 1932 congressional redistricting act the death blow at the next election.

The law has been held unconstitutional by both state and federal courts but a division of the supreme court of appeals last week in two opinions has apparently changed the situation and it is likely that an effort upon to unbind the new districts.

It is understood that Lieut. Gov. O'Rear is preparing the fault. Although the bill is being prepared, it not disclosed, it is understood to be the bill which Gov. Laffoon referred to compel Miss Sarah B. Mahan, secretary of state, to recognize as candidates certain Republican candidates who would have been ignored on account of petitions or primaries had been held by districts.

Use Of Road Warrants Termed Unnecessary

In a formal statement issued at his office Friday, Chairman Ben Johnson, of the state highway commission, said payment of state highway department bills by means of road warrants is unnecessary. Chairman Johnson's statement follows:

"Mr. Ben Johnson, chairman of the state highway commission says that it has come to his attention that Elam Huddleston, state treasurer, is issuing warrants in payment of obligations incurred by the highway department, which action is unnecessary as that department has cash on hand sufficient to meet these obligations.

"Mr. Johnson has completed arrangements with the Citizens Union National Bank of Frankfort for the cashing of these warrants at par immediately. It will not be necessary for the holders of these warrants to sell any road warrants for less than par."

Two Muhlenburg County Officials Are Arrested

W. O. Smith, County Attorney of Muhlenburg county, and Ernest Smith, son, Clifford Smith, county patrolman in Muhlenburg county, and Robert L. Miller, Central City, were arrested on federal warrants at Central City late Friday and taken to Owensboro where they were arraigned before United States Commissioner R. H. Black.

County Attorney Smith is charged with aiding, abetting and assisting in an attempt to defeat the ends of a trial warrant, to escape. He entered a plea of not guilty and was placed under $1,000 bond. Patrolman Smith is charged with receiving and accepting money to conceal a felony, and with having knowledge of a felony and failing to report it to a federal officer. He failed to make bond and was sent to jail. Miller was arrested for aiding the county patrolman to escape.

Truck Restraining Order Is Held Void

Ben Johnson, chairman of the Highway Commission, has advised State highway patrolmen and traffic officers that they have no authority to enforce the length provisions of the State truck law as to all operators.

Johnson said the "injunction or restraining order issued upon the motion of the Ashland Transfer Company, Artha Lyle Brewer Independent, and others, is no longer in force."

Consequently the officers have no authority to make arrests under Chapter 96 of the act of 1932, which is commonly known as the truck law, he added. He said the authority to make arrests just as though those suits had never been instituted.

"This question has been referred to the Attorney General for an opinion, and that opinion is in full accordance with the views hereinbefore expressed. No doubt truck operators think that the restraining order formerly issued by the court is still in force, but it has been made clear to them, as is evidenced by the opinion just referred to.

The opinion was given Johnson by Assistant Attorney General Gardner Rice.

CHRYSLER PLANS NEW SIX

Walter P. Chrysler announced last week that Chrysler motor cars would to produce a new six-cylinder Plymouth automobile which will carry the lowest price tag by far ever placed on any Chrysler motor product. Production will be started shortly, he said, and the price will be well under $625, retail cost of the present four-cylinder model, which will be discontinued. Discontinuance of the four-cylinder model leaves but one maker, Ford, now producing such models. His announcement was expected by automobile men who said another "war" for sales among the lowest price automobile makers.

Harlequin Cabbage Bug Invades Nicholas County

Many farmers in this section have experienced the invading of the Harlequin cabbage bug in their gardens this year and have called on our County Agent to know what this insect was and how to control it. This quasy colored insect was very noticeable this year due to the presence in large numbers and the ravages amount of damage done to kale, cabbage, turnips and radishes.

According to the United States Department of Agriculture this insect is a native of the South and spread as far North as Maryland, Virginia West Virginia and Southern Ohio under the mild weather conditions of last winter. With normal weather and winter the department feels that it will be driven back to its original territory and that it will not be noticable in this section next year. This is the first time it is decided or more that the Harlequin bug has made a serious outbreak in this section.

Gen. Glassford Quits As Washington Police Chief

Pelham D. Glassford, superintendent of Washington police, who has at odds with Administration policies, resigned Friday. He said he expect the bonus army has prevented his being appointed Governor of Columbia commissioner.

Glassford, a retired brigadier general, complained especially by his superiors that he had said troops were unnecessarily called to disperse bonus marchers, with the result that there were clashes between veterans and police.

Glassford's resignation came in face of official opposition to changes in rules governing the Washington Police Department.

Criticized because of the manner in which he handled the bonus army Glassford replied by declaring that he was "sorry I didn't have a lot more of control of the police. He contended that the killing of two men and three the veterans from Government property, on July 28, was "regrettable and bayonet was unnecessary."

The resignation was accompanied a statement by Attorney General Mitchell which said the Secretary was probably brought to Washington the largest aggregation of criminals ever assembled in the U. S. at any one time.

There was less crime during June and July, when the veterans were assembled in Washington, than in August, after they were driven away, explained Glassford.

Popularity Contests For Girls At U. Of Ky. Banned

Popularity contests for beauty girls are definitely legal and indeed the members of the faculty at the University of Kentucky are coming into the limelight. As a feature of this year's year book The Kentucky Kernel, a popularity contest for faculty has been arranged and the ten professors receiving the most student votes will have their pictures featured in the book.

The most complete collection of Kentucky's new material collected in any museum in the world is now housed in the library of the College of Mineral and Topographical Survey at the University of Kentucky. Generous donations from the owners of Kentucky caverns have resulted in the collection of specimens of stalactites, stalagmites and other cave phenomena from the Mammoth Cave and other national parks and deposits are Mammoth Cave Crystal Cave, Carter Caves, Cave Cumberland Cave, Cave Cave Cave
