THE COUNTRY NEWSPAPER

(Christian Science Monitor)

Turning from city newspapers to small town press exchanges that come to the editor's desk is like stepping from the alums, fuft of vice, into an old-fashioned garden aglet with lavender and thyme and life jamt of perennial flowers. The pages of big dailies are so full of murder, thievery, immorality and selfishness that the better news is obscured by these glaring shutterings of the Decalogue. One puts the papers aside with the feeling of depression and heartsoire that the world is so full of terrible and unhappy things.

Then picking up the papers that record the happenings of the little towns around us, one gains renewed faith in life. Here are set forth deeds which uplift a community—the activities of the business men, the church items, the happy social gatherings of the people, the marriages, births and deaths, farmers items, and all the thousand and one daily occurrences that make up the simple annals of the great common people, who are really the foundation of this broad country of ours.

Sometimes people speak of the country newspaper, but it is one of the most potent and uplifting factors in our national existence.

Scientists say the Mississippi river was originally a tributary to a large river which ran through what is now Minnesota about 18,000 years ago.

CITY SCHOOL NEWS

Agriculture

The regular monthly F. F. A. meeting was held March 6, in the Agriculture room in the city school. One of the problems discussed was the father and son banquet which is an annual event of the F. F. A. Last year many attended and a good attendance is hoped for this year. Various committees were appointed by the president for the program, food and entertainment.

Another thing that was worked out at the meeting was a score card determining the winner of the Farm Club award of the 1933-34 year. The points will be determined by the labor income of the 1933 projects and of the man labor hours of the proposed project and of the other farm practice projects.

One farmer was selected from each of the farm enterprises to be an honorary member of the local F. F. A. The member will be given membership at the father and son banquet.

This month a large number of the boys are starting to write an essay contest which is sponsored by the State F. F. A. The subject for this essay is "The Opportunities and Responsibilities of Developing Rural Life Through F. F. A." There is a $50 prize for the state winner.

Sports

The Carlisle High School Musketeers, who were runners up in the district tournament, went down to Maysville in the regional tournament at Maysville Thursday night. The Carlisle boys were slow in getting started and were trailing 9 to 2 at the half. In the second half they came back strong and outplayed the Bull Dogs. Although outplayed the Bull Dogs had too great a lead to be overtaken by the fighting Maroon sixters and they emerged the victors of a hard fight, 18 to 17.

This much can not be said of the fight shown by the green jersey boys as they fought a losing battle. It is our belief that they are the hardest fighting team ever developed by Coach Shearer and they should be appreciated by the people of Carlisle for their fine efforts.

The class tournament among the upper six grades will be held this week in the high school gym. Nearly all of the teams are entered in the tournament and several good games are in prospect.

Band

Professor Delcamp, accompanied by three other members of the Transylvania College band, came to the high school Tuesday afternoon. He gave a test, assisted by the three boys on the following points: pitch, rhythm tone quality and general musicianship. Then promptly after the test, all the members of the band came to the chapel where a rehearsal was conducted by Jack Bright, the assistant conductor and the leading cornet player of the college band. Professor Delcamp invited us to come to his twilight concerts during the month of May. We may be fortunate enough to get his band to come to the school and play.

Mr. G. A. Duncan conducted a band rehearsal Tuesday afternoon. It was in preparation for the concert of Professor Delcamp.

Friday afternoon Mr. Duncan conducted a violin rehearsal.

Glee Club Notes

Members of the Glee Club formed a club musical society Friday after the P. T. A. meeting held in the high school auditorium. Mrs. Duncan The girls acted as hostesses. Refreshments were served by Misses Dorothy Curry, Lucile Hamilton, Helen Hudson, Helen Hostetter and Mary Sue Hostetter.

Doubles tournament was won by the special cast. The cast will be sent to Lexington to represent Nicholas County in the state tournament.

Girls Tournament

The first five should the school tournament. The girls tournament was won by the second team. The girls will go to Lexington to represent Nicholas County in the state tournament.

Farley Urges Pay Cut For Rural Mail Men

Slashes in the salaries of rural mail carriers which he estimated would save more than $17,000,000 a year were recommended to the House Post-Office Committee by Postmaster General Farley.

Pointing out reduced appropriations compelled savings, such as the day-a-month furlough recently ordered for all employes, Farley asked permission to pare down the pay of the approximately 30,000 rural carriers in preference to pressing the program of consolidating routes and thereby having to drop some 9,000 carriers.

The Postmaster General said the salaries of rural carriers were excessive compared with other postal employes.

Seiler Appointed State NRA Compliance Officer

Methods of handling complaints of NRA codes will be facilitated in Kentucky as soon as a new set-up is perfected, according to Judge J. R. Layman, State Director of the National Recovery Administration, who has announced the appointment of Edward E. Seiler as state Compliance Officer.

Mr. Seiler, who has been State Development Director, will supervise all industrial adjustment matters and the code authorities that have been established within industry.

Mr. Seiler, supervision, a definite program of instruction and education of those subject to code regulations will be carried out to acquaint members of the industries, employed under codes, with their responsibilities.

Judge Layman, in appointing Mr. Seiler as the chief compliance officer of the state, "found the qualifications and experience of Mr. Seiler, who has long been associated with labor welfare movements in the state as a representative of the International Association of Machinists, he was appointed State Labor Director in 1928 Under his direction the scope of the Labor Department was expanded and its facilities enlarged until the Department ranked second in prominence. He is a graduate of the Jefferson School of Law and has taken speech work in economics and sociology at the University of Louisville. He was appointed State Director of the National Recovery Administration in Kentucky in 1933, at the inception of the Service, and organized a state-wide service that has been an important factor in the application of the Recovery program in Kentucky.

In recognition of his work in Kentucky, Mr. Seiler has been elected vice-president of the Association of Government Officials in Industry. He is also a member of the American Legion and assistant division adjutant of the Thirty-eighth division, Kentucky National Guard.

THE FARMER FEEDS 'EM ALL

The politician talks and tales
The actor plays his part.
The editor delivers an parade,
The goldsmith plies his art.
The soldier fights and dies
Over the terrestrial ball,
The sailor navigates the ship,
But the farmer feeds them all

The preacher stands his pulpit desk
Makes a road their heavenly tape,
The lawyer pleads and he pleads
To let the culprit shake,
The doctor dispenses in silks
Goes forth to take or sell,
But the farmer feeds them all
But the farmer feeds them all

The wholesaler sells his chain stores
The chain stores his wares,
The retailer sells the wares
Sold by the wholesaler
Who sells the wares
Made by the farmer
Who feeds them all
