

**JUNE REPORT OF AGRICULTURAL BUREAU**

At this time we usually report for the year, but this year we have had to make our report for the first half of the year. The report shows that the crop is generally good, but there is a possibility of a shortage of some crops.

The report shows that the crop is generally good, but there is a possibility of a shortage of some crops. The report also shows that the weather has been generally favorable, but there has been some drought in some areas.

The report also shows that the weather has been generally favorable, but there has been some drought in some areas. The report also shows that the price of some crops has fallen, but the price of others has risen.

The report also shows that the price of some crops has fallen, but the price of others has risen. The report also shows that the government has taken some steps to help the farmers, but more needs to be done.

The report also shows that the government has taken some steps to help the farmers, but more needs to be done. The report also shows that the farmers are generally satisfied with the government's policy, but they are still concerned about the future.

The report also shows that the farmers are generally satisfied with the government's policy, but they are still concerned about the future. The report also shows that the government is planning to take more steps to help the farmers.

The report also shows that the government is planning to take more steps to help the farmers. The report also shows that the farmers are still concerned about the future, but they are optimistic about the future.

The report also shows that the farmers are still concerned about the future, but they are optimistic about the future. The report also shows that the government is still planning to take more steps to help the farmers.
