AUGUST ELECTION--ATTENTION DEMOCRATS.

It is of great importance to the Democratic party of Kentucky that a full vote be polled at the approaching State election on the 4th prox. for the Democracy in August. Our quota of representation in Congress for the next two years will be regulated by our August vote--one vote for each man polled. It will also be taken as the question of calling a Constitutional Convention, which, in order to carry, must have a majority of all voting in the State at the election, and, if called, must be held this year, and if carried, another to be taken to elect delegates. All who do not vote for it are counted against it. The present Constitution is the work of able, and defective in many respects, and the changes and experience of time suggest many improvements which would be beneficial to the people.

Vote the straight Democratic ticket if you are opposed to soldiers at the polls.

CONGRESSIONAL.

LOGAN McREE has sold the Danville Tribune to Rev. JOHN W. ZEIGLER, editor of the Christian Advocate, of Cincinnati, for $6,000. Mr. McREE retires from journalism on account of ill health.

VOTE "yes" on Article 42. Four years ago the question of calling a Constitutional Convention was voted down by reason of the small vote polled. It will be this time unless the people turn out and vote. Many reasons and many amendments can be accomplished by a new Constitution.

THE population of Memphis has been so reduced by the departure of citizens that the yellow fever will have but little material to feed upon. DR. BEHAN, of Chicago, who is there, says the disease yields quite readily to treatment, and the deaths do not average over twenty per cent. Last year the mortality was 66½ per cent.

NOTICE: could be more ridiculous than the spectacle of New Yorkers actually threatening to exclude the Democracy? Whatever may be the Hebrew's faults, it surely 'elong better on the side of the puppy-dogs by strings and whose "young men's" affect the manners of Englishmen. Is not the one to sit in judgment on any part of the human family?

IT is our opinion that General GRANT will be nominated for a third Presidential term by the National Convention of the Republican party in June, 1880. When he waits into the White House in twelve months more of the second term of the Democracy will be grass were Republicans, and when he went out of it in '77 the Democracy had an actively majority in the House and could see into an early majority in the Senate. The resolutions of his Administration had produced that unlikely result.

IT you are opposed to the plan recommended by the Republican party of appointing thieves, pimps and bummers as managers and supervisors of elections, men appointed from the Republican party for the purpose of corrupting instead of preventing the ballot-box, just vote on the Monday next for the nominees of the Democratic party. The people of Kentucky should remember that if they do not determine this infamous enactment upon free elections, these emissaries of a corrupt Administration will, if it is every voting place in the great battle of 1880.

A REVIEW an organ in Philadelphia recently complained because the Legislature of Pennsylvania left nearly all the charitable institutions of the State without a cent of money for the current year. The Inquirer, the leading Republican newspaper of the city, replied that the Democratic wards of the city, while Republicans would be left favored with their presence at all.

It turns out that they were removed from wards in which they lived immediately after the election, and Congressional districts in which they had no residence.

It was not for the purpose of securing an honest election. No fair-minded man believes the Democracy will betray the ballot. It was for any such purpose. It was simply to carry the city for the Republicans. Instead of being for the protection of the ballot-box, their employment was for its corruption.

Items to foster this plan of holding elections upon the Congressional district President HAYES vetoed an Appropriation Bill passed by Congress.

How do the fair-minded, independent Republicans like such a form of Government as this, any way? Is it still government to have elections controlled after this manner?

Democrats of Nicholas, you will have an opportunity on next Monday to raise your voice against the iniquity. If you do not, next year our hatred for party has made stalwart at every voting place in Kentucky.

MASON COUNTY POLITICS.

Mason County is just now in the throes of another campaign. J. B. KEHOE, brother of the editor of this paper, is the unanimous nominee of the Democratic party for the Legislature, and W. W. BALL for County Clerk. They are both members of a benevolent order known as the Independent Order of Work-ing Men, having the honor of being classed as President of the State. At the time of the nomination of these men on which to oppose them, the Eagle, with its customary intelligence, makes the following false statements about the order, of which we object to:

"The order was originally organized as a workingmen's order; it is now a combination of workingmen and capitalists."
