

ELECTRIC ILLUMINATION

The advantages of electric illumination are many and well known. It is clean, safe, and gives a soft, steady light. It is also the most economical method of lighting a building. The following are some of the reasons why electric light is the best for general illumination in a building.

1. It is clean and safe. It does not produce heat, and it does not give off any smoke or odor. It is also fireproof. 2. It is economical. It costs less to operate than any other method of lighting. 3. It is convenient. It can be turned on and off at will. 4. It is durable. It lasts for a long time. 5. It is beautiful. It gives a soft, steady light that is pleasant to the eye.

With the above advantages, it is not surprising that electric light is becoming more and more popular. It is the best method of lighting a building for general illumination. It is clean, safe, economical, convenient, and beautiful. It is the best method of lighting a building for general illumination.

CARLISLE MERCURY

VOL. XII. CARLISLE, KY., THURSDAY, JUNE 10, 1870. NO. 25.

Closing Out at Cost.

My health not permitting me to continue in the dry goods business longer, I have determined, therefore, to offer to the trade, from this date, AT COST for the cash, my entire stock of Dry Goods, Clothing, Boots and Shoes, Hats and Caps, and Gents' Furnishing Goods, consisting in part as follows: Domestic of all sorts, Bunting, all Fancy Dress, Cashmere, Zephyrs, Linens, Fancy Press Goods, Cashmere Shawls, lawns, Brilliant, large stock of White Goods, Zeigler's celebrated make of Shoes—in fact everything ordinarily found in a dry goods store—cheaper than ever before offered in this market.

Should any person desire to follow the business, I will close out the entire stock on reasonable terms. I occupy the oldest and one of the best stands in Carlisle. I have a trade that will justify any one in continuing the business.

Come one and all, and get great bargains, for I am determined to close out.

Respectfully,
JAMES B. CAMPBELL.
