Icy Fingers Of Winter Continue To Keep Firm Grip Upon County

Winter's icy fingers today continued to keep a firm grip of Nicholas County which, with the rest of the Bluegrass, sought to stand stoutly against the weather by bowing close to the earth and waiting for better days.

A strong blizzard covers the entire county now and although the drifts have been blown as high as possible, the uproads are all but impassable by the heavy snowfall.

Local rural farms report a windswept shortage of coal and food and are hard put to keep up their efforts to obtain a supply of adequate to ward off the chill of the extreme cold weather.

Slight hope for relief has been promised by weather forecasts until the end of the week.

However, schools have not been affected by the cold. Attendance reports indicate that pupils have managed to get to their classes at the regular time with the exception of a few isolated instances.

There fire alarms sent Carlisle's volunteer department on three calls within less than 12 hours, one of which resulted in the property loss of several thousands of dollars.

Locally business has been regulated by the weather although local livestock receipts at the Farmers Stockyards Tuesday were only slightly under the preceding week.

Temperatures ranging from 16 below to two below have been reported in the county during the past week. However, these are slightly acceptant as the lowest for this immediate area.

High Burley Crop Averages $58.57

Nicholas county last year ranked the top price brackets this week—the highest local crop averaging $58.57—despite weather which probably was responsible for the decrease in the volume of sales.

Average high crop prices in the county ranged from $58.57 a hundredweight downward to $54.39 a hundredweight.

Tabulation of high crops in the county with consignors listed first, number of pounds second and average third, included:

E. Ritchie and B. Morrid 4,186, $58.57; Dee Briggs and Park Crump, 768, $58.42; E. Ritchie and A. Kearns 5,278, $57.63; Mrs. W. H. Martin and Bailey Brothers, 5,078, $57.09; Sherman Crump and Stanley Alexander, 2,564, $57.06; J. E. and Curtis Haney, 3,234, $54.39.

Although volumes dropped on the Kentucky markets Tuesday prices were a bit stronger. The markets holding auctions sold 3,266,159 pounds of leaf for $1,544,629.68, an average of $45.62 a hundredweight.

Only three of the markets upon which Nicholas farmers generally market their leaf were operating. No sales were held at either Mt. Sterling or Paris. Lexington was the only market which kept above the state average, the remaining two falling below the average.

Total sales with average of leaf received follow:

Cynthiana, 322,450 pounds, average $45.19; Lexington, 1,641,318 pounds, average $46.92; Maysville, 918,899 pounds, average $45.06.

The block was broken on the Cynthiana market Wednesday and sales will be held at 11:25 of the city's warehouses. Little tobacco was on Lexington floors for sale and bad weather was having its effect on the flow of leaf to warehouses.

County Still Far Below Quota; March Of Dimes Campaign Extended

With collections to date amounting to less than $200, leaving the county approximately $1,800 short of its quota of $2,000, Mrs. M. C. Shearer, chairman of the Nicholas March of Dimes campaign, said the drive would be extended until February 7.

Mrs. Shearer expressed belief that the weather partially was to blame for the small amount collected. She said that the checks which had been distributed to the schools had not been returned and at least three benefit performances were yet to be played which would increase the total collections.

Although no quota was set last year the county contributed $1,400 in the battle against infantile paralysis.

A dance featuring Jack Clark and his orchestra will be given Friday night at the Carlisle Armory under the sponsorship of Nicholas Post 17, American Legion. All proceeds will be contributed to the March of Dimes.

The varsity quintet of Nicholas County High School battles the Faculty five in one of two benefit basketball games which will be played at the county high gym Friday. A preliminary game scheduled for 7 p. m. will pit the junior team against the high school "C" team.

Prizes for featuring faculty competition is scheduled for 8 p. m. Members of the faculty, who plan to participate in the feature event, are Glenn Spradlin, Sam Gardner, James S. Wall, Raymond Wesley and Mrs. Drivers Bill Herrin and John Allen Dixon.

A basketball doubleheader featuring teams composed of representatives of the Methodist, Presbyterian, Baptist and Christian churches will be played at the Carlisle High school gymnasium Friday night.

All money given to the March of Dimes campaign goes to provide care, treatment and equipment for polio victims, and for research for the prevention and cure of infantile paralysis, Mrs. Shearer said.

The additional funds asked for this year are needed to care for the backlog of patients that have accumulated over a period of years that still require treatment and care, Mrs. Shearer added.

Miss Young Recovering

Miss Georganna Young, daughter of Mr. and Mrs. W. Nathan Young, who was overcome by gas fumes at her rooming house in Lexington Saturday night, was reported recovering satisfactorily today.

Miss Young went to her room Saturday night and failed to notice that the gas pressure was fluctuating and became stifled by the fumes before she had time to summon aid.

She was found later in the night by Miss Mary Elizabeth Snelling who called on her. The Lexington fire department was summoned and artificial respiration was given.

Miss Young has been in Lexington for several months where she holds a position in an attorney's office.

The blank space in the Carlisle Mercury last week was caused by the home of Mr. and Mrs. Allen Vinton Hopkins, 1 mile out on the Paris pike, being destroyed by fire. The fire, resulting from an overheated stove pipe, was extinguished with little damage resulting.

Highway Engineer Seeks Federal Aid

Thomas H. Cutler, Chief Highway Engineer, Kentucky Department of Highways, was in Washington today to attend public hearings on proposed legislation providing for continued federal aid funds for state highways.

Cutler, a member of the executive committee of the American Association of State Highway Officials, will represent Kentucky at the hearing scheduled for today (Thursday).

The current $500,000,000 annual federal-aid program under which Kentucky receives $9,000,000 per year, will end this year unless new legislation is enacted by the present congress.

Cutler said two new federal-aid bills have been introduced in the House of Representatives, one of which would continue the annual $500,000,000 appropriation indefinitely and would provide an additional $25,000,000 per year for construction of highways in national forests.

Funds appropriated must be matched equally by the states and are apportioned 45 percent on federal-aid primary highways, 30 percent on federal-aid secondary highways and 25 percent on urban highways.

The other house bill would continue the appropriation for three years. Mr. Cutler said, and a proposed senate bill would provide a $200,000,000 annual appropriation for two years.
