local guard company and the member bringing in the most recruits will be awarded a prize, Capt. W. R. Buntin Jr., has announced.

STATE DEAFT BOARDS BEING REORGANIZED

Kentucky's director of selective service during World War II, Col. Solon F. Russell, said today draft boards are being reorganized "as a matter of preparedness."

Col. Russell said the reorganization is on a national basis, but officials in Washington denied any knowledge of such a move. Authorities there said congressional action would be necessary before such a project.

CHS THESPIANS PLAN TO PRESENT COMEDY

"Pygmalion", a three-act comedy will be presented April 2 by members of the Carlisle High school Thespian club.

The cast of characters includes the following:

Nell Wilson, Everette Vice, Betty Campbell, Edgar Allison, Ruthe Bullard, Dorotha Dixon, Pat Allison, Sue Crouch, Geraldine Dotson, Henry Peters, R. S. Cavanaugh, and Betty Tolliver.

Tickets will be placed on sale at Tuesday, March 19.

QUIZ KIDS TO FACE TEST AT ROTARY PROGRAM

The Quiz Kids may find the tough stuff at tonight's Rotary Club meeting.

"Prof." J. E. Bradshaw is in charge of the program and will conduct the examinations. Serving as students of both Nicholas County High school and Carlisle High school will be the participants.

The contestants are:

Betty Blake and Bobby Pitman, Carlisle High school; Jerry Miller and Ralph Hovermale, NCHS.

Charles M. Cox "outlined the rules and instructions which are connected with the legal profession for Rotarians at the Club's meeting last week.

PROPERTY ASSESSED AT OVER 10 MILLION

Nicholas county property is now assessed at $10,111,681 following a 14-day session of the Board of Supervisors which adjourned Friday.

The current assessment represents a net increase of $49,745 in property of the county and a net decrease of $1,600.

The evaluation of the county's property in 1947 was $9,661,235. Ten years ago the property was assessed at $6,306,733.

The board of supervisors was composed of the following: Hardy Myers, chairman, W. T. Gaunce, Claude Linville, Harold Mitchell and D. H. Hamilton.

TWO-YEAR RECORD MADE

Evans (Mass) Berry, 66, resident of Moorefield, received an attendance certificate last Sunday in recognition of his interest in the Sunday School class at the Moorefield Christian Church. Mr. Berry attended Sunday School for two years, a total of 104 Sundays, without missing a single session.

SETS NEW NAVY JET SPEED RECORD

AFTER SETTING A NEW SPEED RECORD in a flight from Seattle to Los Alamitos, Calif., Lt. Commander Turner Caldwell, U.S.N., waves from the cockpit of his new Navy F2-2 jet fighter plane. The 31-year-old World War II hero made the 1,050-mile trip in an hour, 58 minutes and seven seconds. He broke an Army P-80 record by 16 minutes. (International Soundphoto)

UTOPIA CLUB MEETS TODAY

The Nicholas County Utopia Club will meet at 7:30 p. m. today in the county extension office. The subject for the program will be "Home Beautification" and the program leaders will be Miss Marie Shrout and Henry Clay Caswell. At a recent meeting of the club directors, the programs for the remainder of the year were planned. This item will be presented to the club and Carl Jones, field agent in club work, will be present to discuss State Utopia Activities.

ARCHDEACON AVENUE HOUSE HIT BY FIRE

A Friday morning fire at the residence of Mrs. Frank Lynum on Archdeacon avenue, resulted in the loss of all the clothing and furniture on the second floor of the dwelling.

The blaze, which was not discovered by Mrs. Lynum until she heard something fall, also gutted the second floor interior.

The loss was partially covered by insurance.

A second alarm Monday morning sent the Carlisle fire department to the home of Sherman Hillar on North Broadway where a small blaze resulted in fire believed to have originated near the flue.

In Bracken county, 41,915 feet of diversion ditches and 43,662 feet of terraces were completed during the past year.

Thousands Trained In 4-H Club Work

President Truman's proclamation naming March 1-7 as National 4-H Club Week brought a statement from the Carlisle of Agriculture and Home Economics of Lexington that around 400,000 Kentuckians have benefited by 4-H club training in the past 25 years.

There now are 73,000 boys and girls in the state in 4-H clubs. They are learning how to do farming, dairying, growing tobacco and other crops, saving the soil and making it more productive. Girls are taught how to be good housekeepers and homemakers. This includes food preparation, canning, baking, sewing, home furnishings, care of the home, health and grooming.

Many 4-H club members go to college. More than half of the students in the College of Agriculture and Home Economics and one-fifth of the entire enrollment of the University are former club members.

The President's proclamation:

"You are to be congratulated on the theme chosen for this year's annual 4-H Club Week, March 1 to 7. "Creating better homes today for a more responsible citizenship tomorrow." It is a noble one that is deep-rooted in the American way of life.

In the family circle we learn by daily experience that liberty carries with it some essential obligations that each of us must respect if we are to insure harmony in our family living. In a highly scientific age like ours, this concept is one that should extend beyond the family into the larger community and the human society of which all of us are a part. I hope you will succeed in your goal of reaching every rural boy and girl with your message.

SCOUTS ELECT OFFICERS

Officers of Troop 15, Boy Scouts of America, elected the following officers at their meeting Monday night at the Scout cabin:

Jimmy Hardin, Brooke Fitzpatrick, Jerome Kelly and Kenneth Harper, patrol leaders; Ralph Kash, Jimmy Shepherd, Harold Bussell and Dorsey Watkins, assistant patrol leaders and Frank Cavanaugh, scribe.

The Scoutmasters are Ralph Shearer, Everett Smith and Boyd Hamilton.

Carlisle Girl Scouts Intermediate Patrol

Jewel Farris, Patty Taul, and Peggy Maffett gave talks Thursday night on "Scouting". Due to the illness of Miss Mary Margaret Hutchings, our Scout Leader, Roberta Farris and Betty Sexton were in charge of the meeting. The Girl Scouts attended services at the Christian Church Sunday morning.—Janette Hughes, Scribe.

Records show that Herbert McCuhn of Adair county in one month made a net profit of $33 on his flock of 105 New Hampshire hens.

Public Sale
OF
Desirable Home
Saturday, March 13th, at 1:30 P. M.
As agents for John Myers, we will offer for sale on the premises his home located at 316 East Main street, Carlisle. This is an opportunity to buy a good home well located.

Truman Outlines Plan To Stem Aggression

WASHINGTON, March 17 (By Radio)—In an effort to stem the aggression of Russia, the United Union which has been increasing since the cessation of hostilities in Europe and the Pacific and reached a new high with the recent turn of events in Czechoslovakia, President Truman today outlined a three-point plan as a joint session of the American Congress.

Although at the outset of his address the President cited evidence in his remarks concerning the Soviet Union, he dropped all inference as his talk progressed and turned the Soviet Union as the main obstacle in all issues relating to world peace.

The President asked Congress for greater speed in getting the Marshall Plan for European recovery under way. He asked for a universal military training program and urged that it be reinstated to take care of any emergency situation.

Voluntary enlistments, President Truman said, are being made in numbers large enough to create a reserve force safety as far as the present national needs are concerned.

Congressional observers said that his address was well received by Republican leaders in the home front are that the President gained a little dignity in support of the proposal outlined by Secretary Marshall.

The European situation which has been precipitated by a crisis for months has recently been aggravated by the Soviet Union coup in Czechoslavakia.

THREE FOALS ARRIVE AT FOREST RETREAT

The arrival of three thoroughbred foals this week at Forest Retreat has been announced by Charles Alsop, manager of the farm owned by Dr. and Mrs. Ernie Asbury of Nicholas county and Cincinnati.

The foals of the colts arrived at 1 a. m. Friday. It's dam, After Dark, which was purchased by Dr. Asbury from George W. Jones, Versailles, Ky., was in foal to Apache. Plans now are being made to breed Mrs. Jones' Alsop said.

Also on Tuesday announced the arrival at two more colts. One was foaled by Dancerface, son of Sir Gallahad III, and was sired by Mahmoud. The other was foaled by Miss Primrose and sired by Pharamond II.

Rotarians To View Picture Of Ireland

Sure and 'tis a folse day for the Irish. And begorra Rotarians will have the privilege tonight of viewing a movie picture taken on the Emerald Isle in connection with the organization's annual St. Patrick's day.

Although Wednesday was the day of formal celebration conducted by Rotarians with Irish on their regular program, Rotarians will be in charge of R. E. Davis.

Mr. Davis will show two of them students of Nicholas Memorial hospital and the remaining two students at Carlisle High school. Rotarians will be entertained at a Rotary meeting last Thursday night and the results of their examination will be brought forth some constructive thought, chairman said.

(See editorial on Page 2.)

Participants in the program were Betty Blake, Marjory Miller, Ralph Hovermale and William Edward Sexton.

SENATE PASSES BLAKE'S MOVIE CENSORSHIP BILL

By vote of 17-11, the State Senate Tuesday passed bills to create a division of movie censorship and to censor films in Kentucky.

The two bills, introduced by Senator H. Stanley Blake, Carlisle, now go to the House. The censorship division would be in the State Department of Business Regulation. A director would head the division.

G. O. P. MASS MEETING PLANNED FOR SATURDAY

Republicans of Nicholas county will hold a mass meeting at 1:30 p. m. Saturday, March 20, in the courthouse for the purpose of electing precinct committeemen for each of the county's 18 precincts, George D. Bell, chairman, said Mrs. Mayme Gore, chairwoman, announced today that the movement which will be found on the back page.

MACHINES ARRIVE

The arrival of 10 power sewing machines, a part of the 18 which will make up the initial unit of the short division of the L. Giffin Manufacturing company was noted here Wednesday.

MARRIAGE LICENSE

Miss Mary Ann Bloomington, Ill., and Betty Hudnall, Barterville.

Succeeding Fives Likely To Find Musketeer Record Hard To Top

Despite the fact that they lost in the semi-finals of the 10th Regional Basketball Tournament at Paris last week, members of the Carlisle High School basketball team complied an envious record during the 1941-48 season which succeeding teams will find difficult to match, statistics compiled by Coach Tebay Rose show.

Including their participation in both the district and regional tournaments, the Carlisle cagers amassed a total of 1,119 points an even 100 points more than the 1,017 scored against them by all opponents.

With completion of tournament competition six members of the squad have wound the district and Wide Wide the last time. All are graduating Seniors. The individual scoring records of these six for the past two seasons follow with the 1946-47 season listed first, the 1947-48 season next and the total scoring list:

Emery Clark—247, 362, 629; Hugh Woodall—84, 200, 284; Bobby Pitman—12, 94, 106; Gaylord Caswell—0, 84, 84; J. Paul Jones—0, 5, 5; Johnny Roy Flora—0, 3, 3.

Coach Rose said that only the first two were regular members of the varsity squad in 1946-47. Pitman remained a reserve members of the varsity only for the season just ended.

Best all-around defensive player of the Musketeer team was Bobby Pitman, Coach Rose said.

Recruiting Station Expansion Planned

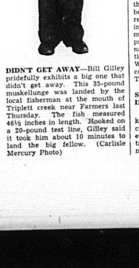
A main examining station for the Lexington area will be opened soon at the Lexington Army and Air Force recruiting headquarters on Barr street, it was announced Tuesday following an inspection of the quarters by four Army officials.

Under the new set-up, which probably will be inaugurated early next week, Army and Air Force recruits from the 26 counties comprising the Lexington area will be given mental and physical examinations, will be sworn in and shipped out from Lexington. Formerly, they have been sent to Fort Knox for examination and assignment.

The area substations at Danville, Mt. Sterling, and Frankfort will send their recruits to Lexington instead of to Fort Knox. The local station averages approximately six enlistments a day.

Full details for expansion of quarters and for the new processing and transporting enlistees have not been worked out yet, Army personnel said.

The four officers who inspected the recruiting station were Col. Russell E. Patterson, adjutant general, Second Army, Fort Meade, Md.; Col. Nicholas D. Woodward, Chief, military personnel division, Fort Meade, Md.; Lt. Col. Murray Frazer and Maj. John R. McMasters, commander and adjutant, respectively, of the Louisville recruiting district.



DIDN'T GET AWAY—Bill Gilley, pridefully exhibits a big one that didn't get away. This 35-pound muskellunge was landed by the local fisherman at the mouth of Triplett creek near Farmers last Thursday. The fish measured 46½ inches in length. Hooked on a 20-pound test line, Gilley said it took him about 10 minutes to land the big fellow. (Carlisle Mercury Photo)

Proclamation

Whereas, Friday 26, 1948, is Good Friday, and religious observances over the world will commemorate the suffering and passion of Our Lord, Jesus Christ, and

Whereas, the attendance of the world today calls for a solemn and sacred contemplation of the future of mankind and of the world, it is therefore resolved:

That I, W. C. Talbert, Mayor of the City of Carlisle, Kentucky, in behalf of the committee of tobacco growers throughout the county,

At a recent meeting of the tobacco committee, Russell Hinfield agent in tobacco from the Kentucky Experiment Station said, "Growers who used Blue-stone lime greatly prevented the development of wildfire last year.

Wildfire and rust caused extensive damage in Nicholas county and throughout this area last year. The disease caused complete plant bed failure in many cases and otherwise defective setting of tobacco and caused much inconvenience and increased expense on the part of local growers. It is important to control these diseases and in addition to the damage in plant beds, wildfire and rust germs are set in the field which may cause a tremendous loss in the future.

Blue-stone lime is inexpensive. Fifty pounds of Blue-stone is the right amount to use on 150 sq. yards of standard plant bed 12 feet wide. The formula for blue-stone lime is three pounds of blue-stone, four pounds of fresh hydrated lime and 50 gallons of water.

How To Prepare Blue-stone Lime

Fill a clean 50-gallon barrel or oil drum three-fourths full of water strained through a cloth.

Put in one container thoroughly mix four pounds of commercial hydrated lime in three or four gallons of strained water. Hydrated lime is the powdered lime in paper sacks commonly used by lumber dealers. Caution: Use fresh hydrated lime. Old lime changes chemically, cakes, and does not make a good mixture. Do not use ground limestone.

In a separate container, preferably a wooden bucket or crock, dissolve three pounds of powdered blue-stone in about four gallons of water. If powdered blue-stone, which dissolves readily, is not available, heat the crystals into a fine powder, place them in a cotton sack, and suspend just below the surface of the water until dissolved. Use powdered or fine ground blue-stone for you.

Pour the lime paste into the barrel of water and stir vigorously. While stirring, add the blue-stone solution slowly.

5 Add enough water to make 50 gallons.

6. Stir the mixture each time before using and keep it filled. Caution: the water, barrel and other containers should be free from bits of material which will clog the nozzle of the sprayer. The nozzle should be easily removable for cleaning.

The first application of blue-stone lime should be made any time after the beds have been seeded until the plants come up. Second treatment should be given in approximately 10 days or before the plants are the size of a dime. This treatment is mainly a soil treatment because "the germs" that causes the disease lives in the soil.

How To Make Application

Blue-stone lime is very easy to apply by using a sprinkling can in which the nozzle opening of the can are enlarged with a nail. The nail is made easier by taking backwards down the middle of the bed and swinging the sprayer from side to side so as to cover the full width of the plant bed. This method eliminates a very laborious job of trying to reach the beds from along the sides.

Plant beds should be so located that they are in the open, preferably where they get the first morning sun. Drainage furrows should be prepared to prevent surface drainage from flowing over the treated beds and thus, infecting the beds with wildfire even though treated with blue-stone lime.

The blue-stone lime treatment has been found to give complete control of wildfire and rust in tobacco plant beds when properly used. The chief effect of the treatment is a preventative rather than a cure. Many Nicholas tobacco growers have been using this treatment regularly for several years. Frank Ballard, C. T. Whaley and S. R. Burlow reported that two applications of blue-stone controlled wildfire.

Blue mold is another disease of tobacco plant beds, however, it is not controlled by blue-stone lime. Blue mold may be controlled by using either Fermate or Dithane. Both of these materials will be on the market this year. The two materials available to control blue mold do not control wildfire. The tobacco committee recommends that each tobacco grower secure a package or two of Fermate or Dithane to control blue mold in the event that this disease develops. If blue mold does not appear the materials may be stored in a dry place for future years.

42 Will Take Part In Easter Cantata

An Easter Cantata, composed of members of the choirs of four Protestant churches in Carlisle will be presented Easter afternoon at the Carlisle Christian church by the Carlisle Ministerial Association.

The cantata, entitled "He Is Risen" will be under the direction of Carl Thomas A. Sisco, a member of the faculty of Millersburg Military Institute.

The forthcoming cantata is the second which has been presented in Carlisle by the ministerial association. Last year marked the first time such a program had been presented in the city.

Final rehearsals will be completed next week. The first of these rehearsals is scheduled for 7:30 p. m. Tuesday and others are set for Thursday and Friday.

Mrs. Clerry Fightmaster, who was accompanist for the cantata last year, also is accompanist for the forthcoming program.

Red Cross Campaign $531 Short Of Goal

With 75 percent of its workers reporting returns, the Nicholas County Chapter of the American Red Cross is short only $531.22 out of its quota of $1,575 for the Fund Campaign.

The total amount contributed to date is $1,043.78. Of this amount $535.78 has been subscribed by residents of Carlisle and the remaining $508 has been subscribed by residents of communities in the county. Ralph Sherman is in charge of solicitation in Carlisle and William T. Straw is directing the campaign in the county.

Both campaign chairman have expressed confidence that when the remaining 25 percent of the workers report, their subscriptions together with the proceeds of a square dance, which is to be held Saturday night at the National Guard armory, will enable Nicholas county to make its quota.

WORSHIP SERVICE TIME IS CHANGED

Beginning Sunday evening worship services will begin at 7:30 p. m. instead of 7 p. m., the Carlisle Ministerial Association has announced.

A Good Friday service will be held between 2 and 3 p. m. on Friday, March 26 at the Carlisle Baptist church. This service is sponsored by the ministerial association and all places of business are requested to close for the hour of worship. Everyone is urged to share in the service, the ministerial association said.

MASONS TO MEET

Members of Dougherty Lodge No. 69 will meet at 7 p. m. today for work in the Master Masons degree and again at 7 p. m. Friday for work in the interapprentice degree.

Blue-Stone Lime Mixture Advised For Burley Beds

Blue-stone lime mixture is recommended to Nicholas county tobacco growers to control wildfire and rust. This recommendation is given by William Hinfield, agent, in cooperation with the County Tobacco Improvement Committee, which is headed by S. R. Burlow, and a representative committee of tobacco growers throughout the county.

At a recent meeting of the tobacco committee, Russell Hinfield agent in tobacco from the Kentucky Experiment Station said, "Growers who used Blue-stone lime greatly prevented the development of wildfire last year.

Wildfire and rust caused extensive damage in Nikholas county and throughout this area last year. The disease caused complete plant bed failure in many cases and otherwise defective setting of tobacco and caused much inconvenience and increased expense on the part of local growers. It is important to control these diseases and in addition to the damage in plant beds, wildfire and rust germs are set in the field which may cause a tremendous loss in the future.

Blue-stone lime is inexpensive. Fifty pounds of Blue-stone is the right amount to use on 150 sq. yards of standard plant bed 12 feet wide. The formula for blue-stone lime is three pounds of blue-stone, four pounds of fresh hydrated lime and 50 gallons of water.

How To Prepare Blue-stone Lime

Fill a clean 50-gallon barrel or oil drum three-fourths full of water strained through a cloth.

Put in one container thoroughly mix four pounds of commercial hydrated lime in three or four gallons of strained water. Hydrated lime is the powdered lime in paper sacks commonly used by lumber dealers. Caution: Use fresh hydrated lime. Old lime changes chemically, cakes, and does not make a good mixture. Do not use ground limestone.

In a separate container, preferably a wooden bucket or crock, dissolve three pounds of powdered blue-stone in about four gallons of water. If powdered blue-stone, which dissolves readily, is not available, heat the crystals into a fine powder, place them in a cotton sack, and suspend just below the surface of the water until dissolved. Use powdered or fine ground blue-stone for you.

Pour the lime paste into the barrel of water and stir vigorously. While stirring, add the blue-stone solution slowly.

5 Add enough water to make 50 gallons.

6. Stir the mixture each time before using and keep it filled. Caution: the water, barrel and other containers should be free from bits of material which will clog the nozzle of the sprayer. The nozzle should be easily removable for cleaning.

The first application of blue-stone lime should be made any time after the beds have been seeded until the plants come up. Second treatment should be given in approximately 10 days or before the plants are the size of a dime. This treatment is mainly a soil treatment because "the germs" that causes the disease lives in the soil.

How To Make Application

Blue-stone lime is very easy to apply by using a sprinkling can in which the nozzle opening of the can are enlarged with a nail. The nail is made easier by taking backwards down the middle of the bed and swinging the sprayer from side to side so as to cover the full width of the plant bed. Plant beds should be so located that they are in the open, preferably where they get the first morning sun. Drainage furrows should be prepared to prevent surface drainage from flowing over the treated beds and, thus, infecting the beds with wildfire even though treated with blue-stone lime.

The blue-stone lime treatment has been found to give complete control of wildfire and rust in tobacco plant beds when properly used. The chief effect of the treatment is a preventative rather than a cure. Many Nicholas tobacco growers have been using this treatment regularly for several years. Frank Ballard, C. T. Whaley and S. R. Burlow reported that two applications of blue-stone controlled wildfire.

Blue mold is another disease of tobacco plant beds, however, it is not controlled by blue-stone lime. Blue mold may be con-

Livestock Receipts

A total of 266 head of livestock was sold Tuesday at the Farmers Stockyards. Receipts and quotations follow:

Hogs—Receipts, 81; packers, $22; medium, 19.50@21.50; shoats, 19@20; sows and pigs, $2@4.

Sheep and Lambs—Receipts, 15; top ewes and wethers, $18.50; fat sheep, 11; stock sheep, 18.50 @20.

Calves — Receipts, 65; top veals, $29; medium, 23@26; heavy top and large, 27.50.

Fleming Negro Held For Attempted Rape

A Fleming county Negro, listed as a warrant as George Henry Marshall, Sherburn, will face grand jury action at the May term of Nicholas county's circuit court on a charge of attempted rape.

Marshall, whose preliminary trial was held Tuesday before County Judge Walter Shepherd, was been placed under a $2,000 bond.

The Negro's arrest followed his attempted attack upon a 17-year-old white girl Sunday on the outskirts of Henryville. The girl, John Stephens said he was told that the girl and her mother were returning to their home after a picture show when the accused, who was seated in his parked auto, seized the girl.

COUNTY SPELLING BEE TO BE HELD SATURDAY

The annual Spelling Bee of Nicholas county schools will get under way at 1 p. m. Saturday in the circuit court room of the courthouse.

This event is sponsored yearly by the Louisville Courier-Journal.

County champion last year was Barbara Ritchey of the Myers school.

Fiscal Court Asks For Aid On 24 Miles Of Road In County

A total of 24.3 miles of road-way in Nicholas county have been referred by the fiscal court to the State Department of Highways in Frankfort for consideration.

Of this total, the court has requested that the rural highway department of the state take over the maintenance of 10.2 miles of the county's secondary roads. A statewide appropriation of $5,000,000 has been made for this purpose. Nicholas county's share of the appropriation is approximately $27,600.

Construction of highways from the newly created two-cent gasoline tax, makes the county eligible for 15 miles of road construction. Two requests for construction, totaling 14.1 miles have been filed with the highway department. The roads offered for consideration are Highway 57 (continued) from Moorefield to the Bourbon county line and the Barefoot-Crooked Creek road to the Harrison county line.

Total construction mileage of the first road submitted is 7.8 miles. The second road contains a construction mileage of 6.3.

Survey of the first mentioned road was made in 1933 and deeds for rights-of-way along the road have been on record at the county clerk's office since that time.

The requests concerning Nicholas county roads were filed here Friday afternoon by the fiscal court following a conference with C. O. Young, district highway engineer, of the division of rural highways, state highway department.

HOSPITAL MAY CLOSE CHILDREN'S WARD

Julia Marks Sanatorium faces a threat of having to close its children's ward, officials have announced. Edward S. Dabney, chairman of the board of directors, told the Fayette fiscal court such action would be necessary unless available funds prove sufficient for full operation.

Tobacco Average Hits High Peak

The 1947 burley tobacco crop brought the highest general average price on record, the United States Department of Agriculture reported in a recapitulation of figures for the sales season which ended recently.

Gross sales in the eight-state producing belt amounted to 501,500,502 pounds for an average of $48.39 per hundredweight. This was $5.62 higher than the $39.67 average of the previous season. Volume, however, was the smallest since the 1943 crop and approximately 135,000,000 pounds less than that of last season.

The nearest approach to this year's average was the $45.73 established for the 1943 crop, the department said. Several factors were responsible for the high prices paid farmers this season.

Chief of these was the strong demand of domestic cigarette manufacturers.

Second was the increased commodity Credit Corporation advance loan values for flue-cured. The loan values for practically all grades were raised from $1 to $11 over the 1946 crop schedule.

Contributing factors, but of minor importance, were the smaller size of the crop, compared with those of recent years, and the brighter outlook of export possibilities.

Eleven markets in Kentucky and one in Tennessee maintained average prices of $50 for the season, led by Harrodsburg's $51.64.

Twenty-six Kentucky markets handled the bulk of sales, total sales in the state amounting to 231,793,224 pounds at an average of $49.41. This compared to the previous season's 438,481,479 pounds at $39.90.

Seek Derby Lottery To Pay Vets Bonus

Establishment of a Kentucky Derby Sweepstakes Commission to set up a lottery and pay state veterans of World Wars I and II $600 each has been proposed in a bill passed by the House 67-6.

It now goes to the Senate. If adopted there, the lottery question would be submitted to the voters in November, 1949, in the form of a constitutional amendment. Kentucky's charter now prohibits lotteries.

The bill was hurrahed through the House principally by Rep. Paul Jones (D-Covington) and Rep. Maurice Howard (R-Corbin).

The Sweepstakes Commission would consist of five members appointed by the governor. Each would be paid $4,500 a year.

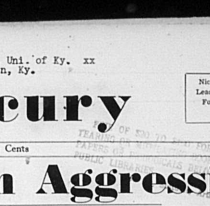
The commission would "sell" tickets on the Derby. The price paid for a ticket would be called technically a "tax" on the right to win a lottery. Tickets could be sold to anyone.

Receipts from the tax on tickets would go into a veterans bonus fund. Payments would start on July 1, 1951, or as soon thereafter as possible.

The bill also provides that if insufficient money is collected through the lotteries, bonuses in installments of $100 may be distributed.

No minimum amount of service in either war is specified to make veterans eligible for bonuses.

House leaders guessed that the Sweepstakes Commission bill would meet obstacles in the Senate.



ON THE DOTTED LINE—Lonnie Giffin, owner of the L. Giffin Manufacturing Company, is shown seated above signing a contract with Frank Ashley, Louisville Courier-Journal and Times staff writer, left to right, are George D. Scott Sr., Frank J. Hardesty, R. T. Fisher, William Harper, Charles M. Cox, officers and directors of the association, and Edward L. Jones. W. C. Talbert, Emery Clark and Elva Kendall, the remaining three directors, were not present. (Carlisle Mercury Photo)

Tractor School To Open Saturday

"Better Care of Our Tractors, Not Repair" is the theme of the 4-H Tractor Maintenance school to be held at 9 a. m. Saturday at the Carlisle armory, it was announced by E. N. Royster, assistant county agent, after a meeting last night with the local tractor dealers and Kenneth Stephenson, 4-H club leader.

The objectives of this tractor school are as follows: 1. to provide authentic information and instruction regarding local tractor maintenance and operation to 4-H members and leaders. 2. To establish a plan for developing leadership in extending such information to other operators of farm tractors. 3. To assist in conserving the usefulness of farm tractors, especially during a period of farm machinery shortage. 4. To lend encouragement in the care and maintenance of all farm machinery during the coming period of greater development of mechanical power.

This school should be considerable help and interest to 4-H boys interested in farm t
