a few rocks and my ground was in good shape.

"June 14th I set my tobacco and I hired three men to help me. It was a long day but we finished by five o'clock in the afternoon.

"June 28th I hired a man to plow my tobacco I followed and uncovered the plants. My tobacco had already started to grow. I hoed my tobacco next day. The next 20 days I could hardly plow my tobacco without breaking some of the leaves. Every one passing the road said that they never saw tobacco start off so nice.

"I topped my tobacco August first. It was over my head. Thanksgiving I helped my dad. I really was proud of my crop. It was such an even piece. Every plant was just about the same size. I don't think I could have had a better stand or a better prospect.

"I worked hard before it was housed. I had to work after it was housed. I worked until it was sickeren and housed. It soon cured. Many I showed it in the Nicholas County 4-H Fair and received third prize. I hated to see it burn. November 24 to put my tobacco down. I started Tuesday, Wednesday, and Thursday was Thanksgiving. I helped on Thursday, Friday, and we finished on Saturday. This is the best tobacco I have ever grown. I really have enjoyed raising this crop and hope to get a good price."

Fomer Coal Miner Says Retonga Best

Suffered Distress from Sour Stomach, Toxic Waste, Poor Appetite. "Within one Week After Taking Retonga I Found Relief," says Lee Jones.

"During the past 20 years I have used a lot of different medicines, but Retonga has proved to be the best for me by far," glad to state Mr. Lee Jones, respected citizen and home-owner of 225 Lafayette St., Beaver Dam, Ky. A member of the Methodist Church, and coal miner for 30 years, Mr. Jones continues:

"For several years I suffered from my loss not properly digesting and I resorted to home remedies for relief, but a few years ago I began to really suffer from sour stomach and horrible gas pains. And although I was careful what I ate, I would still suffer that awful full feeling after nearly every meal. My appetite was down, right poor and I was subject to kidney headaches because of toxic waste, even though I used harsh laxatives most of the time.

"Within one week after I started taking Retonga I found wonderful relief from gas pains in my stomach and headaches. I sleep like a top, eat any kind of food without worry about sour stomach, and no longer take harsh laxatives. Retonga proved to be the best medicine I ever used."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency, and constipation. If the first bottle fails to give you gratifying relief, your money will be refunded. Get Retonga at **HOPKINS DRUG STORE.** Adv.

County's Sheep Loss Estimated At $3,000

Sheep losses, the result of attacks made on flocks by marauding dogs, already have cost Nicholas county farmers approximately $3,000, Judge Walter Shepherd said Wednesday afternoon.

Judge Shepherd said his estimate of the loss sustained by local farmers was based upon reports received by his office on raids within the county.

In addition to dogs, a varmint has been reported, a description of which has ranged from characteristics common to the panther to that of a timber wolf. This varmint has killed sheep upon the farm of Billy Conway and one of its attacks was witnessed by Jack Tincher, a teenseen the varmint.

Arthur Bretz also witnessed its attack on a sheep at Judge Shepherd's farm but was able to scare it off before the kill was completed. Walter Hollar also is reported to have seen the varmint.
