Solar House Tests Sol's Warmth

This four-room "solar" house, built by the Massachusetts Institute of Technology, Cambridge, is being used to test whether New England's sunshine is warm enough to heat a house throughout the winter. A student family occupies the house while engineers study its efficiency. Glass areas of the heat collector appear on the roof.

PERSONALS

Bob McFenna, Paris, entered Johnson Memorial hospital Tuesday for medical attention.

Mrs. Harry S. King and daughter, Miss Jane King were here this week from Lexington and plan to come home the last of the week. Miss King has completed a three months course in an art school in Chicago, and for several weeks Mrs. King has been in Lexington.

Mr. and Mrs. Walter Wyrick will return the last of the week from a months motor trip to interesting points in Florida.

Clyde Snelling was able to return Monday night from the St. Joseph's hospital, Lexington, after a week's illness.

Mrs. H. T. Griffin remains critically ill at the Good Samaritan hospital, Lexington, where she submitted to surgical treatment ten days ago. Members of the family are at her bedside.

Mrs. Alexandra was before her marriage Miss Martha Joe Flora of Nicholas county, daughter of Mr. and Mrs. A. R. Flora of the Moorefield road.

Marriages

Harp-Day

Miss Louise Harp of Bartlerville daughter of Mrs. Mayme Harp of Lexington, became the bride of Paul Day, son of Mr. and Mrs. Sam Day, also of Bartlerville, at a ceremony solemnized at the First Methodist church in Paris on Friday afternoon, with the pastor, the Rev. I. S. Pineur, officiating.

The bride wore a tan suit with blue accessories, and a shoulder bouquet of pink roses.

The attendants were Mr. and Mrs. Jesse Lowe Jr., of Paris.

The bride attended Clintonville High school. Mr. Day is a graduate of Headquarters High school in Nicholas county, and served three years in the Navy during World War II.

After a wedding trip to Nashville and the Smokey Mountains they will reside near Bartlerville, where the bridegroom is engaged in farming.

Frakes-Lowe

The marriage of Miss Jane Clay Frakes, daughter of Mr. and Mrs. E. H. Frakes of Bartlerville and Jesse Lowe Jr., son of Mr. and Mrs. Jesse Lowe Sr., of Paris, was solemnized at 2 o'clock Friday afternoon in the First Methodist church, Paris, with the pastor, the Rev. I. S. Pineur, officiating.

For her wedding the bride wore a beige suit with brown accessories, and a shoulder bouquet of yellow roses.

Miss Louise Harp and Paul Day of Bartlerville were the attendants.

The bride was a student at the Headquarters High school, Nicholas county. Mr. Lowe is a graduate of Paris High school and is employed at the Lexington Signal Depot.

After a wedding trip to Nashville and the Smokey Mountains, Mr. and Mrs. Lowe will make their home at 231 West Seventh street, Paris.

Deaths

James Sumner

Funeral services for James Sumner, 69, were held at 2 p. m. today at the Mathers-Stigner funeral chapel with the Rev. Ernest Hisley officiating. Burial was in the Earlington cemetery.

Mr. Sumner died unexpectedly at 1 o'clock Sunday morning at the home of his son, Ed Sumner, on the Mt. Moriah road. Earlier he had been ill a short time, a surprise to his friends in the Sugar Grove community.

He had no immediate survivors.

Local Committees Propose New Ventures

Additional tours page 11

Farmers get plant beds started early and set tobacco in field early. Grow tobacco on rich, thoroughly fertilized cutting, secure plants from fast growing strains and one ton of coke per acre, seed in crescent letter in advance of young season explaining a new device for determining the curing condition of tobacco. Farm Meetings held county Tobacco Field Day in August. Report local crops on tobacco meeting with Russell Hunt in March.

Soils and Crops Program, Harold Mitchell, chairman, H. R. Hinks, vice chairman.

Soil Fertility: Promote the general use of new growth soil legumes not only in testing soil for tobacco but for pastures, hay fields and corn. Set forth efforts according to the needs of the soil, a goal of one ton of soil tests for the year. Pastures and hay acreages increased from 1000 to 5,000 acres, sow any of the following grasses with alfalfa to improve pastures: Orchard grass, timothy, orchard grass, bromes grass, red clover, ladino clover and three legumes in all pasture mixtures, three phosphate and broad leaf birdsfoot trefoil. Corn grow only adapted hybrid varieties, first application of nitrogen 2-4-D to control weeds in corn. Grass and legume seedings of small grains, leave grass waterways in permanent sod. Harvest small grain with cover crops, use diversion ditches or terraces on sloping land. Marketing: Grade, sort, pack stock and tobacco field day to include emphasis on soil fertility, pastures hay, and soil testing.

Shop Program, Walter Hudson, chairman, Woodrow Richey, vice chairman.

Breeding: Twenty-replace culled ewes with either Southwestern crossbred ewes or native ewes but preferred ewes or if native ewes are big, well-developed lambs for the breeding flock, use registered purebred rams, eliminate scrub bucks. Feeding: feed breeding flock a month before lambing with the best quality alfalfa hay and grain feature containing corn and soybeans. Pasture: pastures and testing of pastures and hay fields to determine soil needs, use proper stocking and rotation. Feed: feed are phosphatize to control internal parasites of lambs. Lambs should be individually treated with phenothiazine or bloodine and black leaf 40 in the spring after lambing and again in November, from April through August the entire flock should receive phenothiazine with nutrine. Dogs: Have 2,500 sheep in Nicholas County. Sheep Protection is a pooled program against sheep losses by dogs, secure 10 blocks for cotts in lambs on the pasture control. Tour H-Ed tour in August.

Geologist and Soil Test Program, Mrs. W. I. Moir, chairman.

Gardens: the 1,700 gardens in the county are worth $200 each or a total value of at least $340,000, each garden to include one new vegetable this season. Varieties grow cheaper resistant and varieties of high vigor and quality including yellow resistant cabbage, wilt resistant tomatoes, Golden Cross Bantam sweet corn, Logan beans, certified seed irish potatoes and Fordhook 242 dwarf lima beans. Diseases and insects control late blight of tomatoes with any of the new fixed copper sprays; scab, wilt and blight of cabbage may be used, use rotenone or all insects except on potatoes. Garden Soils: use small plots, grow gardens over wash, fertilizer. Strawberries: 50 to plant new

It's Done With Mirrors

Martha Mitchell left skating in the sky above Cypress Gardens, Fla. It's simply that the cloud she skates is reflected in the clear water over which she glides. Martha, herself, is very real, though a little less alert.

College of Pharmacy in Louisville, and 145 at the Northern Extension Center in Covington.

Illustrify Homemakers

Illustrify Home Demonstrators held their February meeting at the home of Mrs. Leonard Alexander with six members present. Mrs. J. Stoddard, president, called the meeting to order. Business both old and new was discussed. It was suggested that a Valentine be given by the project leader. Mrs. Stoddard. The next meeting will be March 2 at the home of Mrs. J. S. Butler. Mrs. Leonard Alexander.

Tips For Housewives

These practical ideas to simplify the work of housekeepers are reported by home economists at the Agricultural Experiment Station, Lexington, University of Kentucky.

1. After pressing wool garments, brush them with the right side of the brush to remove lint and raise the nap and prevent shine.

2. Make stocks of low impact glass, low to the degreasers and dishwasher, so there is no glass waste through shrinkage.

3. For an extra warm surface, remove top layer from an old cotton table. Hanging the legless end to a table or cabinet, fold the table out of the way when it is not in use.

4. Wet clothes are less likely to freeze to the clothesline if it is rubbed with vinegar.

5. Gingerbread waffles served with apple sauce, apple butter or ice cream make a quick and delicious dessert.

Recipe of the Week

Carrot and rice ring makes an attractive dish for a party luncheon or supper particularly when it is served with pineapple cheese or ham. Mrs. Pearl Hisle, food specialist of the Agricultural Extension Home Economics Division, University of Kentucky, supports this recipe.

Carrot and Rice Ring

Mix 1 cup cooked rice, 2 tablespoon chopped onion 1 cup scaled rice

Pepper and salt

Pack in greased mold

Parboil the shredded raw carrots for five minutes in boiling salted water. Drain well. Combine with other ingredients. Pour into a greased ring mold. Bake in moderate oven. 350 degrees for 30 minutes, or until firm. Tel center with creamed chicken or ham. Recipe serves four to five.

Mrs. Carrot and rice ring with creamed chicken, buttered string beans, corn sticks, butter, cabbage slaw, and cherry betts.

College Radio Schedule

Radio program for the College of Agriculture and Home Economics, University of Kentucky, to be heard daily at 12:45 p. m. over station WHAS are: Feb. 28, Mrs. Frances Soper, "Problems in Home Furnishing." Mar. 1, G. J. McKinney, "Four-H Agricultural Projects." Mar. 2, Dr. Ward Bond and Raymond Payne, "What Organizations Do Rural People Think Most Valuable?" Mar. 3, John B. Roberts, "Outlook for Poultry and Eggs." and Mar. 4, Robert H. Ford, "Questions From Farm People." On Mar. 5 at 11:45 a. m., Mrs. Helen M. Whoe, "Home Economics Clubs — A Medium for Growth."

A Long-Time Forestry Program In Caldwell

A long range forestry program adopted in Caldwell county, and sponsored by the wife of Earl A. Nelson of Princeton, calls for planting at least three months of each planted forestock.

Fire damage is to be held to at a minimum, protection of the woodland area in the county. Fire-safe is to be encouraged to prevent timber land be burned. Finally, land that is not suitable for farming is to be set to adapted forestry.

Well-Managed Flock Returns Good Money

Flock owners in Estill county in Lincoln collected 9,920 eggs in January, Miss Ruth Ann Hammond, home demonstration agent, reports. Mrs. Hammond reports that the eggs sold for 2,480 dozen, 2,480 dozen, 2,480 dozen,
