Musketeers End Gridiron Season With Win

(Continued from page 1)

Moreover, Lt. Noel Walton received a Buffalo fumble on the twenty-six. Time ran out on Carlisle definately threating on the Georgetown eight.

Harper Over

The second half barely got underway before Myers, playing heads-up football, intercepted a pass and moved to Buffalo 16. Harper picked up nine on an end sweep. Booth a first on the 29. Harper the 19, and behind a brilliant blocking by Hardin, big Charlie swung wide around that same left end for a TD, his second of the night.

Hardin scored the extra point on a pitchout from Myers.

Flora Blocks Kick

Fired by the mounting score against them, the Ruckemen, powerhoused by Clark and Perry, drove deeply into the visitors six. A jump pass straight over the middle to Jim Hutton was incomplete, G.town trailing by only eight pioints.

Yet what later proved to be the deciding play of the game, Gary Flora, who played every minute in all six of the games season, broke through to block the attempted conversion.

Just as the game ended George town scored once more, after Donald Petty, closed halfback, set up the tally with a beautiful but broken field running from the Carlisle 40 to the 10 yard stripe. Centerfielder Jim Hutton, who plays, but, Perry found an opening on fourth down and crawled the necessary yards for the final 14-12 count.

Traveling Man

At 9:30 Saturday morning Doc Fisher called to tell Bob Fisher that he had the Huston Carter sale at 10:00, would sell the farm by 10:30, the personalty by 12:30, or one, drive to Lexington, get gas, his wife and he at the U. K.Cincy game by or before 2:00 that afternoon.

Bob laughed at him. However, when Bob Davis was going into the stadium, thinking 2:00, George Jr., called at him from his seat and told him to tell Fish Carter that he (George) had made it. (Bet the roads were hot between here and Lexington.)

Speaking of the game, "Big Emery" Clark looked mighty proud as he walked on the grid iron during the halftime ceremonies of file game which honored "Dads of the Players".

Course, "little E" didn't see much action Saturday, but the Kentucky's inability to get rolling can't be blamed on Emery. That was. Some of the fans seemed to think that had he played more, the scarlaids would have put up a score in the Wildcats favor.

It's good to hear that people other than home town folks, have confidence in our boy.

"Out of the mouths of babes . . ."

When Mrs. Hughes was asked her little son O. K., what he wanted Santa to bring this year, she quick replied, "a toy truck and a tricycle.

"Well, I don't think I can bring both honey," Momma insisted.

Well Mrs. Hughes, some thought Santa bring fire truck and Momma get tricycle.

As "Mrs. Helen" said, that certainly solves her problem.

Here N' There

According to Mrs. Alma Price, of near Blue Licks, it is a sure sign of cold weather ahead when crows fly south this early.

Guess so, there was ice Tuesday morning.

Mrs. Ted Hughes writes this week that Billy Hunter reaped better than 250 pounds of fodder off his bees, so much that it was necessary for Ed to make a wagon and sled to haul it to the house—

That's a lot of honey!

Mrs. Price also cites a good neighbor in her "Little Rock" column this week. It is very fitting tribute to "a dear old lady who took time to think of her neighbors."

It's well worth reading—
—EA—

Dear Emily,

Your column seems to have a lot of readers—maybe not yet you nowhere, but it's nice to hear E. A.) so have about taking a vacation this issue. You see, I have something I want to say and I want to be sure someone reads it.

Reading's a funny thing. Children struggle with it in school and get to the place, I guess, where they think the only reason they had to learn in the first place was so teacher could ask a lot of questions about other things they were made to read.

Maybe they're right. You'd be surprised at the number of grownups whose only reading matter is the morning paper. I'm glad to see them keep up with current events but that alone isn't going to improve their minds. You don't have to go to college to get an education. Of course, college simplifies it a lot but anyone can have a well-rounded education simply by reading.

Remember when all the books with nice clear print and pretty pictures were low stories and all the books that had any information were without pictures, with fine print and written with such long words you didn't know what they were talking about anyway?

Well, all that's changed now. That dull history we used to find only in history books has come to life and fictitious stories are written for them. Suspense, excitement, love, intrigue makes reading so entertaining that it isn't until you have finished that you realize you learned a lot of history and even more about the social life of the period. And don't be fooled, some of the charactbe things they were, the places they lived, the way they ate, all the little things that make you understand the people of the time are true. And after all it's the people that make history.

What I'm driving at, Emily, is —there's a wealth of entertainment and a better education for any that want it on the second floor of the courthouse. We call it the Nicholas County Memorial Library. Several boxs of new books have just arrived and we're anxious to share them.

NCHS Faces Corinth In Opener Tuesday Night, Scheduled Listed

Nicholas County High basketeers, ably schooled by Coach James Wall, will begin their 1949-50 hardwood season next Tuesday night, Nov. 8, p. m. against Corinth, former state high school champs.

The Blue Jackets squad, of some 24 hopefuls, members of the organized Licking River Valley basketball conference, boasts eight returning lettermen, Paul Brady, Charles Gaunce, Bobby Gaunce and John Ecton, seniors; Hargis Fryman, junior; Donnie Gaunce and Johnny Fryman, sophomores, and Ward Shannon, freshman. Coach Wall will select his starting five from these candidates and Paul McNess, sophomore transfer from Harrison county.

Coach Wall is highly pleased with the prowess of his squad, forward and center, Ward Shannon, as well as his other freshmen prospects, which he labels "the most promising in recent years".

Corinth is the former high school and home town of the NCHS principal, Henry Hale. A large crowd is anticipated for the double-bill courtfest.

Plans Being Formed To Improve State Fair

George E. Lambert, Manager of the Kentucky State Fair, has returned from an extended inspection tour of important fairs and livestock shows.

The purpose of the tour was to inspect the buildings and grounds of the various plants for possible ideas that might be used in improving the facilities of the Kentucky State Fairgrounds for the 1950 State Fair.

Lambert pointed out that there would be at least one improvement at the present grounds, and that this year's entries and exhibitors had literally "swamped" the facilities, making it imperative that improvements be made in anticipation of the record entries expected for the 1950 Fair. "Kentucky's Fair is on the march," said Lambert, "and soon we will have a fair second to none."

FISH, GAME TO MEET

The regular monthly meeting of the Nicholas County Fish and Game club will be held tonight (Thursday) at 7:30 at the court house. All members are urged to attend.

Youths Must Register For Selective Service

It is still compulsory for youths to register within five days after they reach their 18th birthday according to a directive from the Local Selective Service Board No. 77.

There is evidence of the fact that 18-year-old boys are failing to register for Selective Service. Nicholas county youths may register at the draft office located on the second floor of the Graeter building. The office is open each Wednesday for this purpose.

A survey will be made in the immediate future to determine the percentage of youths who have reached the age of 18, and it is advisable that all youths who have not registered after their 18th birthday do so at once.

A—Betty Jean Hollar.

B—Linda Caswell, Eleon Gaunce, Brenda Green, Reta Hash, Brenda Ann Hollar, Brenda Sue Hollar, and Wilson Mathes.

Youth Center to be Formed at Armory Friday Night

Through the efforts of the Recreation council and the National Guard armory, the teen agers in Carlisle and Nicholas county will have a youth center this year.

Friday night, November 4, at 7:00 (note time change) all teen agers who are interested in forming a center of their own, where they may dance, play and eat, are urged to gather at the local armory. **Depending entirely on the interest shown, at that time the dream of a youth center will become a reality.**

W. R. Buntin Jr., in behalf of the local guard unit, has offered the facilities of the armory on Friday night to the Recreation council for use as such a center.

A portion of Friday night will be devoted to the election of officers and committee members for the Youth Center Council, which will be composed of two representatives from each (senior high school) N. C. H. S. and the city school. The elected council will then meet with the Recreation Council committee for the center to set up the program for the season.

Poster, program, clean-up and class committees will also be elected at that time.

The center will be open on Friday nights only, after ball games and when no games are scheduled.

Dues will be 50 cents and membership cards will be issued.

Shan Kash, will come to Carlisle at a later date to instruct those interested in dancing. Popular tangles and a snack bar have been obtained and erected. However, complete plans for the operation of the center cannot be made until after Friday night, since it will be a program of their own making, the success or failure of which to be determined by their interest.

The whole-hearted support of all parents and organizations is solicited.

All interested persons are invited to attend the student gathering Friday night, and suggest ideas of changes beneficial to the success of the Youth center.

Cornerstone Laid For First Crippled Children School

In Covington last week the cornerstone was laid for the first crippled children school in the state. Sponsored by the Kentucky Chapter of the Kentucky Society for Crippled Children, this school will operate under supervision of local and state Departments of Education, and will accomodate 40 pupils.

Davis E. Geiger, Ashland, President of the state Society praised the Crippled children program in the state begun here in Covington over 26 years ago, and your Doctor Sullivan, who is here today, was first president of the Kentucky Society for Crippled Children. That same spirit is manifest now at the laying of the cornerstone for the first school in the state which will serve all types of crippled children," he added.

The school will be completed early in 1950, and will have such special features as cots for cardiac cases, a physical therapy room for treatment of patients during their school day, an equipped kitchen, radiant heating, and many more modern accessories. It is located in Covington behind Holmes High School.

Federal Tobacco Grader To Explain Grading System

Ward Shannon

County Agent William T. Straw announced today, that four tobacco chipping demonstration meetings will be held on Monday and Tuesday, November 7-8. John Blakemore, Federal Tobacco grader will attend each meeting to explain and show the grading system.

All growers are urged to attend one of the following meetings and to bring samples of tobacco that are difficult to strip:

Monday, Nov. 7, 10:00 a. m. farm of Hanson Judge, Moorefield, Monday afternoon, 1:30 p. m. farm of B. C. Clark, East Union; Tuesday, Nov. 8, 10:00 a. m. farm of W. W. Dyal, Berryville and Tuesday afternoon, 1:30 p. m. farm of Alton Kerns, Carlisle.

Russell Hunt, field agent in tobacco marketing, urges growers to strip their tobacco this year according to federal grades in order to realize the fullest income from the crop. Only by gaining a thorough knowledge of the grading system can a good job of stripping and sorting be done.

Burley Supports Vary From 10-62 Cents

It was announced last week that the government support prices for 1949 burley tobacco crop would vary from 70 cents a pound for two grades of nondescript tobacco to 62 cents for choice logs. The average Government support price is $40.30 a hundredweight.

The 1949 list does not include support prices for six wrapper grades which were included last year. It adds, however, three grades among the tips.

Burley tobacco was supported last year at $42.40 a hundredweight, or $2.10 a hundred more than this season. The grades ranged in 1948 from 12 to 66 cents.

The support price or loan average is the equivalent of guaranteeing growers an average of $40.30 for their leaf.

If their tobacco does not receive a bid equal to or higher than the support price for the grade offered they may reject the bid and resell the tobacco at their expense or accept loans available to farmers complying with the Department of Agriculture's tobacco program. These loans are administered by farmer co-operative associations.
