Canning Still Tops In Putting Up Food

Although Fayette county homemakers froze 21,693 pounds of meat during the past six months, reports turned in to Mrs. Ruth Saunders, home agent, indicate that canning of fruits and vegetables is the most popular type of preservation. Last fall, 9,720 jars of fruits were canned and 2,103 pounds frozen, and 13,085 jars of vegetables were canned and 4,639 pounds frozen.

By doing home sewing, the homemakers estimated they saved $6,338 in six months time. They also saved $1,825 by making alterations in garments at home.

HE IS ARISEN! Just a phrase, three words long. Yet it expresses all the faith and hope of mankind, born anew each year on Easter Sunday, under the inspiration of His teachings as renewed and reviewed for us in the Church of our choice.

Yes, it is just a phrase of three short words, yet in it is the source of the soul lifting joy with which we depart from Easter Sunday Services to greet our relatives and friends, with a new light shining in our eyes.

The celebration of the Resurrection of Him, whom evil kings could not destroy, takes on especial significance in this year of 1950 . . . for this year marks the beginning of a period historically golden.

The past fifty years of this century have held more than their share of strife and trouble, yet they have also brought to mankind a tremendous potential, promising to carry us forth to a brighter, happier era.

The message of Easter is a message of hope. It tells us that man, by following His teachings, can reach the greatest heights. Let us attend the Church of our choice this Easter Sunday and all the Sundays to follow, for it is there that we hear His Lesson and see the way to brotherhood.
