Malicious Hunting Causes Farmers To Post Property

Several farmers of the county, received violations will be published in the next issue of the Carlisle Mercury. These violations have caused the farmers to take action, the spokesman stated.

Meredith Wilson lost the hay stacks a couple of seasons ago when hunters set a tree afire to smoke out a lone squirrel. The tree fire ignited the grass and the grass carried the fire to the hay stacks.

J. J. Thomas lost a heifer and a horse when hunters shot the animals and Herschel Howard lost one bull and three heifers in the same manner.

A list of those who have posted so far is carried on page eight of this weeks issue, and will be published in subsequent issues during the hunting season.

Official Defends $50 Admission Fee

Two weeks ago this paper carried an article by a local man who compared the functions of the Nicholas County hospital to the acts of the Good Samaritan in the familiar and beautiful story of the Bible.

This week let us look at the functions of the hospital from another view point, one which is just as familiar, the business away.

First let us remember that our hospital is not operated with tax money nor has it ever been. Big endowments created in its future not have there been any willprobated in which it was remembered. Our hospital operates from its own income just like any other private business in the country.

Suppose I wished to purchase an automobile or a washing machine from one of the local privately owned businesses, decided on one I liked and started to enter the business office. Before I could get out the front door I would be asked for a down payment for my purchase. I would not be at all surprised at that not being the object. Why? Because it is business. Then why should I object to paying a deposit when I go into the hospital for treatment. Isn't it the same thing?

But, you say, it may be a case of emergency and you do not have the admission fee with you at the time. Wouldn't the hospital refuse to help me until I produced? There has been no case of an emergency accident or sudden attack in this part of the country that was refused admittance and treatment because he did not have the admission fee. But the hospital staff does not believe the person who brings his wife in for a delivery and says it just happened and he didn't have time to rake up that $50. Surely he had known that thing was going to happen for several months.

Next month, our hospital will ring that one year there have actually been no deaths in the hospital. But the hospital staff does not believe the person who brings his wife in for a delivery and says it just happened and he didn't have time to rake up that $50. Surely he had known that thing was going to happen for several months.

The admission fee applies to the rich and the poor without discrimination. It is collected from the man who never failed to pay an account in his life as well as the man who never paid one. As an inducement to increase interest in the Blue Cross Insurance plan the fee is charged to a person covered by an insurance policy.

If the total bill during the stay at the hospital does not reach the $50 advance payment the balance is refunded upon release of the patient.

I believe a clear view on this subject will convince you that the admission fee is necessary if we are to keep in operation the excellent hospital we voted to build.

If it is something about the hospital ask someone on the hospital board and don't listen to old wive's tales.

State Probation Officer Conley Reports On Work For Past Year

J. Patrick Conley, State probation and parole officer for Robertson, Bracken, Pendleton, Mason, Nicholas, Fleming, and Harrison counties, reports that his services did not cost the taxpayers a cent the last fiscal year.

Citing statistics issued in Frankfort by Darrell B. Hancock, director of the Division of Probation and Parole, Conley says it works this way:

He had an average of 15 prisoners who were paroled from State prisons under his supervision during the fiscal year beginning July 1, 1950 and ending June 30, 1951. They earned approximately $22,500 during the same period and paid State and Federal taxes totalling over $6,000.

During the same time Conley had an average of 22 men who had been granted probation following their convictions in circuit court for felonies committed in these counties. They earned $33,000 and paid nearly $9,000 in taxes.

Conley pointed out that if these men had been kept in prison instead of being granted probation or parole, the taxpayers would have paid $14,800 just to keep them imprisoned at LaGrange or Eddyville. He also noted that they would not have earned anything, and in many cases, their families would have been dependent upon charity or state relief rolls.

The statistics are a part of an annual report of the Division of Probation and Parole made to Welfare Commissioner Luther T. Gobeen.

Judge Lander Bright of Maysville and A. H. Barker of Cynthiana preside over circuit court in the eighteenth and nineteenth district, and has charge of granting probation to persons convicted in his court.

Fred Whaley Elected President Of Nicholas County Youth Fair

The 14th annual Nicholas County Youth Fair has been scheduled for September 28 and 29. Fred Whaley, newly elected president, has announced.

The other officers of the fair committee are Shelly Gaunce, vice-president, and Marjory Miller, secretary.

An estimated attendance of 3500 people attended last year's exhibit and the fair committee hopes that this year's event will far surpass any held heretofore.

About $500.00 in premiums will be offered to members of 4-H Clubs, F F A., Future Homemakers, and several adult classes, Whaley said.

The first meeting of the fair committee was held on Thursday night of last week.

The following members of the fair committee attended this session: Mr. and Mrs. Shelly Gaunce, Marjory Miller, Fred Whaley, John Adams, Brunker Harney, Jewell Dean Ellis, G. B. Leonard, Mr. and Mrs. Eugene Neal, Emmi Barnes, and W. T. Strain.

The next meeting of the fair committee will be held on August 23.

The committee voted to ask Prof. Tom Young to attend and exhibit his miniature circus at this year's fair. Prof. Young has constructed a miniature circus as a hobby and is one of the most outstanding miniature circus ever constructed. He recently presented the marionette show at the farm bureau picnic.

Football Practice Opens At CHS; Initial Contest Three Weeks Away

Twenty-three Carlisle high school football aspirants reported for practice Monday night at the athletic field to open drills for the coming season.

Coach Tebay Rose had the boys in full pads and gave them a two-hour workout Monday and Tuesday night.

Although this year's team appears to be comparatively light, the boys showed plenty of spirit while prepping.

Blocking, tackling, and running through plays took up the biggest part of the practice session and most of the boys appeared to be in good shape.

Lost from last year's squad were "Doot" Hardin, Billy Blake, Billy Joe Morrison, and Oliver Owens.

Coach Rose announced that his tentative starting lineup for his opening game with Cynthiana would probably be: ends, Estil Hunt and Jim Hughes; tackles, Jimmy Shepherd and Eugene Kelly; guards, Ralph Kash and Jimmy Carter, and center, Gary Flora.

The backfield finds Billy Clark running at right half, Benny Donovan, at left half, Kimball Bouldin at fullback, and Brooks Pitman calling the plays.

Others out for the team are Hmmett John Wells, Jim McGinley, Donny Dampier, Walker, H. Bussell and Billy Ellery, Backfield, Larry Cameron, quarterback, Bobby McFarland and Billy Dayton, halfbacks, and Bernard Bouldin and Jackie Shepherd, fullbacks.

The Mustangers will play eight games this season. Three home games are on the card and five will be played away home.

The schedule is as follows:

September 7, Cynthiana, home.
September 14, Paris, away.
September 21, Stanford, away.
September 28, Hazard, away.
October 5, Lancaster, home.
October 12, Nicholasville, away.
October 19, Georgetown, away.
