## Weekly Burley News Report

Twenty-two Burley tobacco markets completed their selling season for the 1953 crop during the week ending January 22. Eleven more have set dates for final sales. Only eight markets have not set closing dates.

This week's sales in the area dropped to 33,338,567 gross pounds and averaged $50.06 per hundred according to the Federal-State Market News Service. Volume was around 49 million pounds below the previous week while the general average was only 74¢ lower. Season gross sales through January 22 totaled 576,762,262 pounds for an average of $52.54.

Grade averages held fairly steady at last week's levels. Non-descript and a few lower quality tips and leaf grades were higher but there were also a few scattered losses. Most changes were $1 and $2 a hundred pounds.

The offerings were not as good as last week. There was a smaller percentage of lugs and more nondescript. However, the bulk continued to grade low to good quality.

Receipts of the Burley Growers Associations under the Government loan program again ran about 20 percent of gross sales for the week. Season deliveries approximate 17 percent.

## Railroad Service Being Abandoned

The Kentucky Railroad Commission took notice of a definite trend toward abandonment of local freight and passenger service, and the increasing use of other methods of transportation in its biennial report of operations.

The Commission noted that during the period there were filed before it 47 actions—35 of which were decided, and 12 left pending—mainly involving retirement of railroad stock-pens, stations, shelter sheds and tracks, and discontinuance of regular stops, employes' services or train services.

Statistics presented by the railroads tell a story of disuse of local services by the traveling and shipping public," the commission reported "Explanation for this disuse is found in the tremendous increase in motor vehicle registrations in the state, and the entire country.

"This increase is apparent both in passenger vehicles and trucks. The motor transportations has expanded greatly. It is likely that the increase in private automobile ownership has cut deeply into the railroads' local passenger service patronage, and that the increase in motor transportation service has likewise influenced the decline in is use of local freight service."

It was suggested that the commission—composed of Frank L. McCarthy, Lexington, chairman; Frank A. Stubblefield, Murray, and Pleat William Mobley, Manchester—had held hearings on important questions in Frankfort that might better have been held nearer the areas affected—but that serious budgetary problems prevented such a course.

Following a major eruption of Krakatoa volcano, in the strait between Java and Sumatra, in 1883, abnormally long twilights and remarkably colorful sunsets occurred throughout the world for two years, says the National Geographic Society.

Eighty homemakers in Warren county have a record of perfect attendance at their homemakers club meetings the past year.

## Farm People To Have Annual Round-Up At University Next Week

Kentucky farm people and all persons interested in farming and homemaking will meet in their and Home Convention at the University next week (Feb 2-5).

A large variety of subjects will be covered in talks, exhibits and demonstrations. Included will be the latest information on agriculture.

Men and women will hold a joint meeting Tuesday, the first day, in the Memorial Coliseum. Women will continue to meet here Wednesday and Thursday and then go to Memorial Hall and the Student Union building for their sessions on Friday.

After Tuesday, farmers will have sectional meetings for two days and then attend a session on tobacco production on Friday.

A lecture and demonstration on new uses for farm products will feature the joint meeting in Memorial Coliseum the first day. In charge will be Dr. F. L. Teuton of the U. S. Department of Agriculture. Other speakers will include J. Earl Coke, assistant secretary of agriculture, Washington; Mrs. Raymond Sayre of Iowa, former president of the Associated Country Women of the World; Dr. Leo Chamberlain, vice president of the University, and Prof. L. A. Bradford, University economist.

Sessions during the week will deal with such subjects as government programs, farm management, dairying, beef cattle, hogs, sheep and poultry, irrigation, fruit growing, soils and crops, and the rural church and community.
