CHRISTIAN SCIENCE

The value of humility, patience, and obedience in learning the nature of spiritual reality and in experiencing the divine healing power will be stressed at Christian Science services Sunday. The Lesson-Sermon is entitled "Reality."

The challenging definition of worship given by the prophet Micah (6:6,8) will be included in the readings from the Bible: Wherewith shall I come before the Lord, and bow myself before the high God? shall I come before him with burnt offerings, with calves of a year old? . . . He hath showed thee, O man, what is good; and what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?"

Adding the selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be the follow-ng: "What we most need is the prayer of fervent desire for growth in grace, expressed in patience, meekness, love, and good deeds. To keep the commandments of our Master and follow his example, is our proper debt to him and the only worthy evidence of our gratitude for all that he has done. Our world worship is not of itself sufficient to express loyal and heartfelt gratitude, since he has said: 'If ye love me, keep my commandments' (4:3).

BUILDS CATTLE BARN

A beef cattle barn 44 by 60 feet, built by B. K. Means in Marshall county, provides for storing 1,200 bales of hay in the center, with hay racks and troughs around the storage area. Built of lumber and aluminum with concrete foundation the barn cost about $1,500, according to UK County Agent J. Homer Miller.

Ky. 41 burley brought the top price of $62.06 in a tobacco variety test made by Lloyd Flaughter of Carter county.

By rearranging barn plans, W. O. Gilreath of McCreary county will be able to reduce by half the job of milking.

Weekly Recipe

Macaroni combined with cheese, eggs or nuts make a good main dish to take the place of meat. For both food value and flavor, be generous with the amount of cheese used, suggest four specialists at the University of Kentucky.

Marcaroni And Cheese

2 c macaroni
2 T butter
2 T flour
2 c milk
1 t salt
1/8 t pepper
2 eggs
1/4 to 1/2 pound American cheese
1/3 c crushed cereal

Cook macaroni in boiling salted water for 10 minutes. Drain and place in a shallow, buttered baking dish. Make a white sauce of butter, flour and milk, stirring constantly until thickened. Remove from fire and stir in beaten eggs. Shred cheese or cut in small pieces. Scatter over macaroni, then pour the white sauce—egg mixture over all. Crunch cereal flakes and press over the top. Bake 30 minutes in a moderate oven, 350 degrees. Serves six. (If a deep casserole is used, arrange two layers of macaroni, cheese and white sauce.)

Menu: Macaroni with cheese, buttered peas with mint, carrot and celery strips, whole wheat muffins, butter and pineapple upside-down-cake.

CORN ACREAGE UP

Lyon county farmers told UK County Agent Warren H. Gardner that they are planning to plant corn on some of their drought-damaged pasture land. This will be done because of the need of a cash crop, the county agent said, and in face of the corn-acreage control program. The general conservation program includes restoring pastures.
