Mr. and Mrs. Jack Crawford of Carlisle, are parents of a son, born Saturday at Nicholas County hospital. This is the second child in the home and second son.

Buggy Makers

(Continued from page 1)

hitching posts outside. Long-maned Creole ponies pull high-wheeled family buggies into town on roads that often would mire more modern conveyances.

Carriage and Coach

While plain buggies are still fairly common in some rural areas, the day of fancier carriages seem dead. The victoria, brougham, hansoke, rockaway, landau, cabriolet and sociable are among the vanishing models.

What happened to all the counties old coaches and carriages of a short half-century ago? Who has any idea of their fate?

A few stagecoaches stand in museums, a few backboards lurk around estates and dude ranches. Recently, a refurbished Conestoga wagon rumbled into Wheeling, West Virginia, following the path of the old National Road and commemorating the 150th anniversary of the covered wagon.

One New York City stagecoach is several hundred dollars, plus expenses and other horse-and-buggy rights for sale, adding spice to college parties and special occasions. In Central Park, a few horses still maintain a nostalgic presence. But at all New York, more than a hundred horses now pass motors, public cars, carriages and pedestrians of any sort through the streets.

Income Tax Information

Internal Revenue Service reminds that to be paid a large income tax refund, one should file early and be sure to send. Internal Revenue officers for help in preparing returns, if they need help. Tax returns A very simple tax return has been provided this year for all taxpayers whose total gross income was less than $5,000 and who received no wages reported on Withholding Statements showing more than $100.00 of other wages, dividends and interest. This new tax return is Form 1040A and it has been printed on a "U" card. The entire return, both front and back, may be completed with ease in a matter of minutes.

Supplies of these forms are available at local Internal Revenue Service branch offices and at many post offices. To make the task of filing even more simple, envelopes in which the completed form, together with the W-2 Withholding Statements may be mailed to the District Director, are available with the forms.

A husband and wife may file a joint return on the form if their combined incomes do not exceed $5,000.00 from wages and not more than $100.00 from dividends and interest, but to assure any benefits of the split income provisions, both husband and wife, must sign a joint return. A joint return on Form 1040-A never results in more tax than separate returns.

File your tax return early. If you use Form 1040-A, no further action is required. The Internal Revenue Service will figure your tax and send you a check for any refund due you or a bill for any amount you owe. Just mail the card return, completely filled out, to District Director of Internal Revenue, P. O. Box 60, Louisville 1, Kentucky.

'Super-Short' Tax Form May Speed Income Returns

The Department of Revenue expects thousands of Kentuckians to file their income tax returns earlier than usual this year, according to Joe H. Alphin, Commissioner of Revenue.

Many taxpayers who filed returns last year are already receiving forms in the mail and the department is providing a "super-short" form for taxpayers subject to withholding that should speed returns, Alphin said.

This new form is printed on the back of the withholding statement which the taxpayer receives from his employer showing the amount of tax withheld during the year. It is for persons earning $5,000 or less who do not choose to itemize their deductions.

Alphin pointed out that by using this simple form filing can be made in a matter of minutes, he said. Because tax was withheld from the taxpayer's wages, the taxpayer will have some additional tax to pay with the return, he said.

Alphin cautioned taxpayers not to wait until they receive withholding statements from employers before filing returns. The law requires employers to provide these statements by Jan. 31.

Each taxpayer who files a long form return last year will receive a tax form in the mail this year. Other taxpayers may use either the "super-short" form or obtain the long form return at their banks, county court houses, or Department of Revenue field offices. Assistance in filing income tax returns is available to any taxpayer at the Department of Revenue in Frankfort, or at the field offices located in Ashland, Covington, Lexington, Louisville and Paducah.

Topographic Maps Near Completion

Kentucky's topographic mapping program, which began in 1948 in cooperation with federal agencies, should be completed by the end of 1956, according to Joe H. Taylor, executive director of the State Agricultural and Industrial Development Board.

"By the end of 1956 modern, up-to-date topographic maps will be available for the entire 40,395 square miles of Kentucky land and water areas," said Taylor. "During the last fiscal year 8,550 square mile were completed, bringing to more than 17,200 square miles the area finished."

Distribution of the maps has been wide with more than 15,000 maps and topographic materials being furnished public agencies and business firms during the last two years. The maps are widely used in highway planning and construction, heavy engineering construction, oil and minerals exploration, and surveys of the terrain and flood susceptibility of industrial business sites.

Five years ago, according to Taylor, less than 10 per cent of Kentucky's area was covered by modern large-scale topographic maps and by 1956, Kentucky should "lead all states in the adequacy of its mapping coverage."

A Floyd county committee will order plants and fertilizer and otherwise help farmers who wish to grow strawberries.
