CALL FOR COUNTY COMMITTEE MEETING.

The members of the Democratic Executive Committee of Nicholas County are requested to meet at the law office of C. W. Munger and B. H. Robinson, in Carlisle, on Saturday next, January 17, 1880, at 1 o'clock, P. M., for the purpose of selecting a time and determining a mode of nominating Democratic candidates for the several county offices to be voted for at the August election, 1880. A full attendance is earnestly [illegible]

ATTENTION, DEMOCRATS!

The County Committee will meet in Carlisle next Saturday to determine upon a mode of nominating candidates for Circuit Clerk, Sheriff and Deputy. There is a difference of opinion among Democrats as to the fairest mode, and those interested in the preservation of the organization in this county would do well to make their wishes known to the members of the Committee, in order that they may carry out the wishes of the majority. If any objections are to be raised to any action the committee is liable to take, now is the time to speak. The members of the Committee are all good Democrats, and are for the good of the party, and as they are the party representatives, we shall feel it our duty to uphold the result of their action.

EDISON's carbon horse electric light burned for 24 hours and was found to be just as good as new. It was found that by reducing the size of the light eleven lights per horse-power could be had, instead of eight. Photographing by electric light has been tried with success.

THE Democratic Executive Committee of the Thirteenth (Mt. Sterling) Judicial District, have decided upon precinct meeting as the best mode of selecting candidates for Judge and Commonwealth's Attorney, and request all candidates to refrain from the use of money.

MRS. MARGARET TUMY, an aged and most worthy lady residing at Walnut Hills, Cincinnati, has refused to partake of any food or nourishment of any kind since the 29th ult., in consequence of being seized with the hallucination that she had no stomach. She still refused to eat or drink, and had passed through the twenty-second day of her fast. Her person is entirely devoid of flesh, but she talks rationally on all subjects save the one of gastronomy.

We call the attention of our farmers to Mr. Ogle's advertisement of Patent Fences and Gates, which appears in another column. The fence comes well indorsed from some of the best farmers in Central Missouri and Southern Kentucky. Among a few of the farmers who are using it in Missouri, we notice the names of John M. Bowles and Jarrett Williams, formerly of this county. Our farmers would certainly to be interested in the success of any plan that will improve their fences in point of economy, durability and capacity to turn stock. Mr. Ogle claims that by using his patent the farmer can save from one-third to one-half of the material necessary to build the common worm fence, besides making a fence that will be proof against all kinds of stock, high winds and floods.
