CHRISTIAN SCIENCE

How striving for spiritual perfection gives life new meaning and purpose will be explained at Christian Science services this Sunday.

Readings from the King James Version of the Bible and from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will comprise the Lesson-Sermon on the subject "Probation After Death."

One verse to be read from the Bible states (Matt. 5: 48): "Be ye therefore perfect, even as your Father which is in heaven is perfect."

Correlative citations from Science and Health include the following: "The divine demand, 'Be ye therefore perfect,' is scientific, and the human footsteps leading to perfection are indispensable" (253: 22-2).

The Golden Text is from Matthew (24:13): "He that shall endure unto the end, the same shall be saved."

Memory sketch drawn by Scott

April 1, 1960

My dear Mrs. Keller:

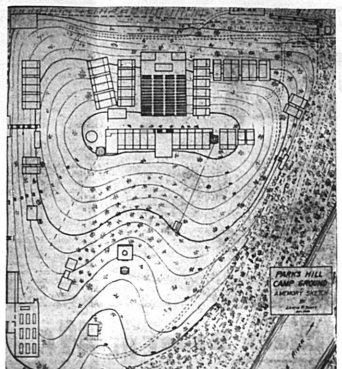
As President of the Parks Hill Alumni Association you may be interested in the accompanying sketch of Parks Hill Camp Ground.

Imagine yourself in a helicopter hovering over the Park's Ferry saw mill looking down at the old Camp Ground. Nearest to you to the left are the old Dining Hall and Booth and directly opposite is the Ice House. Beyond the Dining Hall are first, the Ice Cream Parlor, the Baggage Room, and "The Office" On up the hill are first, the Barber shop, then the Scott and Parks cottages beyond which is the shed where all the torches were serviced, and next an important facility, and beyond, a row of cottages.

On the summit of the hill you will recognize the old leaky water tank and cistern from which water was supplied to the Dining Hall and next, to the cistern "Miss Phebe's Mann's Office and the row of two story cottages on each side of the chapel. Beyond this row of cottages is Uncle Woody's cottage and the "Preacher's Row" and opposite them down toward the "Gate" is your own cottage. Bostains Hall's and Horace Taylor's.

Across the prominade in front of the chapel you recognize the auditorium with its row of cottages flanking it on either side and dont fail to note the Flemingsburg Raw and the cottage for the "Trasienis."

Finally you find yourself looking at the "Gate" and a row of benches where you used to await the arrival of the Carlisle crowd on the shuttle train. If you had a drug you may have even had a pass to permit your going down the plank walk to the railroad station to meet the train.



One thing is missing—the benches beneath the fine old beech trees. You will have to supply those most interesting memories of old Parks Hill.

We are starting something new Do hope you will enjoy our little Column. Guess you all know about our Cub Scout Pack in the courthouse yard. It will really give us something to do this spring and summer keeping it watered.

Miss Kathryn Clay's third graders are enjoying the beautiful magic that they have recently completed, and they have talked about the chemical reaction of the Ammonia and salt upon the coal used in making the magic garden.

Mrs. Ruth Anderson's second grade section are busy reading about birds for their goal is to be able to identify twenty birds that visit Kentucky. Also Allen Hicks brought some frog eggs to school one day. They studied how the eggs turn into tadpoles and then into frogs. The next day Allen brought a frog to school.
