NICHOLAS COUNTY LIVESTOCK NEWS

MARVIN CASWELL
Purina Feedmg Advisor
NICHOLAS COUNTY FEEDERS
Carlisle, Ky. Phone 1008

STOP! YOU'RE TAKING A CHANCE!

If you've been in the habit of "booking" your cattle feed before new-crop information is available, you have been taking a chance with your feedlot results as well as brood cow caring cost. You make pennies on a "cheaper," less efficient supplement or ration. A good booking means nothing unless the feed itself is of high quality. So why not wait until you have talked with us about Purina's feeding programs. They contain supplements "built-to-fit" your own particular grain and roughages. Or complete Cattle Chows that can save you work and may cut feeding costs. Ask us also how you can protect your cost with Purina's Prim Price Plan.

BABY BEEF CALVES BRING TOP MONEY

Baby beef calves are selling exceptional well from indications we have received. Would 50 to 100 lbs. more weight on your calves up grade them? Will they continue to gain on the pasture they are now on? Will feeding them now still pay off? These are a few of the questions that are facing beef calf owners that plan to sell this fall. It is possible to get 2.5 to 3.5 lbs. daily gain on calves with Purina Cattle Starters If they are full for two weeks according to the Purina program. It will cost between 12 and 20 cents per lb. of gain depending on the size of calf. Extra weight will up grade calves
