## Co. Extension Service Holds Chair Seat Weaving Workshop

The Nicholas County Extension Service held a three-day chair seat weaving workshop in the Industrial Arts Shop at the Nicholas County High School July 7,8,9. Seat weaving materials used included both cane and Hong Kong Grass. A variety of patterns were used. In seat weaving, an old favorite was using the seven steps in hand caning-in chairs with holes. The machine woven cane using the spline proved to be a quick way of chair seating for some of the ladies.

Some of the advantages of the workshop were: Seat weaving materials were inexpensive to buy; Chair seating stretches the family's home furnishing dollar by enabling the family to continue to use a chair rather than purchase a new one; It is a way of using leisure time, It can promote better family relations through providing a shared activity; It gives one a sense of personal satisfaction and pride when the task is completed.

Directions are available at the County Extension Office. Ask for H.E. Leaflet "Seating Chair and Stool with Hong Kong Grass and H.E. Leaflet "Chair Caneing."
