Adrian Arnold reports

As time and space permits I will be reporting some of the action in the General Assembly that may be of interest to the people of this district.

It would be impracticable to attempt to list all the bills that have been introduced (950 to date).

A legislator has the duty to inform the people of his district and hopes the constituents will express their views on issues of concern.

As a member of two committees, Agriculture and Natural Resources and Counties and Special Districts many bills will come before these committees that may affect the 74th district.

A listing of the introduced bills will be mailed to the County Clerk's office for your viewing.

Following is a list of some bills—your opinion is invited.

HB 77—Allow either parent or a guardian to sign application of a minor under 18 for drivers license or permit, thus assuming joint liability for any damages caused by negligence.

HB 214—Compulsory auto insurance or proof of financial responsibility before a motor vehicle license may be issued.

HB 106—Amend various sections of KRS chapter 339 to remove employment restrictions applicable to persons between 16 and 18 years of age.

HB 187—Concerning the death penalty for certain crimes.

HB 42—Habitual traffic violator. Impose penalty of up to 12 months in jail if an "habitual violator" is convicted of operating a vehicle while his license is revoked.

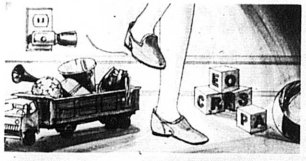
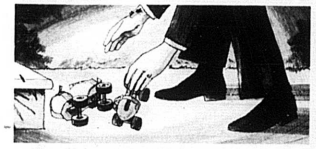
"Little" accidents that didn't happen...





thanks to light

Sometimes light is vital. A minor night time accident — tripping over a toy inside, a forgotten trike outside — can have major consequences. For personal and family safety, have some strategically planned lights where they are essential: hallways and bathroom, garage and carport.

Safety lighting need not be overpowering, just ample for the task it's doing. And the cost is minimal: you can burn a 100-watt bulb all night for about 3¢.
