CITY OF CARLISLE, KENTUCKY
NOTES TO FINANCIAL STATEMENTS
for the years ended December 31, 1981 and 1980

1. Accounting Policies

The City maintains its records on the cash basis; however, the financial statements have been prepared on the accrual basis of accounting from memorandum records. Water, sewer and gas service revenue is recognized when billed.

Expenditures in the Utility Fund for supplies are expensed when purchased and are not inventoried and reflected in the balance sheet of the funds.

Investments are stated at cost.

General fixed assets records have not been maintained.

As of January 1, 1978, the City adopted the generally accepted accounting policies of capitalizing water and sewer utility property and equipment and charging depreciation thereon.

There are no records available for the gas utility property and equipment; therefore, these assets and related depreciation are not included in the accompanying financial statements.

2. Water and Sewer Bonded Debt Requirements

A water and sewer revenue bond ordinance, dated July 1, 1969, requires that certain reserves be accumulated and minimum balances be maintained as follows:

a. Flow of Revenues: Bond and Interest Redemption Fund of 1964 (Sinking Fund). Revenues shall first be used to pay into this fund each month, an amount sufficient to pay at least one-sixth of the next interest installment and at least one-twelfth of the amount of principal (if any) becoming due on the next succeeding January 1, on the bonds herein authorized, the Utility (Water, Sewer and Gas) Revenue Bonds, dated January 1, 1964, and January 1, 1967, and on any parity bonds as may be outstanding until all of the bonds are retired. In any event the deposit made into this fund shall be sufficient to pay all interest, due each January 1, and July 1, and all principal due January 1.

-9-

CITY OF CARLISLE, KENTUCKY
NOTES TO FINANCIAL STATEMENTS, Continued
for the year ended December 31, 1981 and 1980

b. Utility Project Reserve Fund: (Within Sinking Fund). There shall be set aside monthly sums sufficient to accumulate within five years from the date of issuance of these bonds a reserve equal to the maximum annual principal and interest requirements on this issue of bonds, and on the Utility (Water, Sewer and Gas) Revenue Bonds, dated January 1, 1964, and January 1, 1967. If additional parity bonds are issued in the future, provisions shall be made for adjustment of the amounts to be deposited into this account so that within five years from their issuance, a reserve of one year's maximum requirements will be accumulated. The required balance at December 31, 1981 is $47,619.

The actual balance of the reserve at December 31, 1981 was $47,747, which is in compliance with bond ordinance agreements.

c. Operation and Maintenance Fund: Seventy percent of the remaining revenues shall next be used to pay into this fund the proper cost of operating, maintaining, and insuring the Utility System (Water Sewer and Gas). Payments in excess of current operating costs need not be made into this account after accumulation of six months' normal requirements, but are then earmarked for Sinking Fund Reserve or for Depreciation Reserve until all required reserves are accumulated.

d. Depreciation Reserve (Fund): Four hundred dollars ($400.00) per month minimum of the revenues shall next be set aside into this fund and shall be used to set up reasonable reserves for renewals, replacements, new construction and contingencies in the operation of the Utility System (Water, Sewer and Gas). Payments need not be made into this account after accumulation and maintenance of $30,000 balance.

The balance of the Depreciation Fund at December 31, 1981 was $40,667.

e. Surplus Revenues: After all funds have been accumulated to the maximum requirements under paragraphs a through d above, and there is a balance in the Revenue Fund in excess of three months' estimated future requirements, such excess may be used (1) to retire or redeem bonds in advance of maturity, (2) to make extensions and improvements to the combined systems, and (3) for any lawful purpose.

3. Property Taxes

The 1980 General Fund property tax (Ad Valorem Taxes) revenues include $64,482 of the 1980 property taxes that were not levied and mailed until 1981 due to the delays in obtaining the property assessments.

Bluejackets tie Henry Clay

The Nicholas County Bluejackets played the Henry Clay Blue Devils to a scoreless tie Friday in the first game of the CKC Gridorama at Woodford County.

Coach Pumphrey said it was "a superb team effort and a clean, hard-hitting contest with very few errors."

Offensively, Robert Hopkins had 112 yards in 19 carries to lead the Bluejackets to seven first downs.

The defense was led y Terry Ledford with 15 tackles, Keith Williams with eight tackles, Scott Ramey with five and a "generaly fine effort by the entire team."

To single out more individuals, Coach Pumphrey said, would probablv cause us to slight some. "Every yard gained or tackle made is the result of teammates doing their job on either side."

Fleming County

In the Bluejackets home opener, the guests will be the Fleming County Panthers. They will return most of the players "who played us so hard last year". Coach Pumphrey said Fleming County should have a good team this year.

Pumphrey stressed that it is a re-building year for the Bluejackets, and "we hope to build a good team."

"At this time we're slightly behind schedule, but making decent progress. Wins will be scarce this year, "but if we plav hard, the future looks good. Game time is 8 p.m. at home Friday.

Probable starters this week are: Offense, at end, Rocky Young, Ken Baker, Brian Watkins. At tackle, Greg Robinson and Steve Kirby. At guards, Terry Ledford, Jeff Hammonds, Duane Baker. At center, David Hunter. Quarterback will be Eric McGuffey, at fullback, Keith Williams and at halfback, Robert Hopkins and Steve Anderson.

On defense, the probable starters will be, at cornerback, Paul Tubbs and David Hunter. At end, Terry Ledford and Keith Williams. At tackle, David Allison, Duane Baker and Greg Bean. At linebacker, Scott Ramey and Darrin Robinson. At safety, Rocky Young and Eric McGuffey and Steve Anderson at Stinger.
