THE LATEST NEWS.

MIKE MCGEE, the pugilist, reported to have been drowned on the Potomac Mayor, still lives and has been interviewed.

The most storms have produced frightful devastation on the Northern Lakes, losing the shores of Lake Huron and Lake Michigan with wrecks. The steamer Alpena, and forty to sixty lives, are thought to be lost, and railroads have been blocked by snow drifts.

In a speech before the National Committee Secretary Sherman used this language: "And now you see asked by surrender all you have done into the hands of Wade Hampton and the kuklux and the little sapgoat in the North that is called the Democratic party." Hampton wrote to Sherman asking if he had been correctly reported. Sherman thought he had. Hampton wrote back: "As you do not disclaim the language to which I called your attention, I have only to say that in using it you uttered what was absolutely false, and what you know to be false. My address will be Columbia, S. C."

THIS *typster* is for West Virginia. He is little, but he's loud, and may increase in size if he is favored duly in November.

SINCE the election in Indiana, we find there was a universal fear that she would go Republican.

THE INDIANA ELECTION.

INDIANAPOLIS, October 15.—Returns from all the counties in the State except Ripley give Porter (Democrat) 5,000. Ripley County gave a Democratic majority in 1876 of 27. Full returns from the 11th Congressional District give C. M. Matson, Democrat, 1,000 majority. This leaves the Congressional delegation eight Republicans and five Democrats.

UNOFFICIAL returns have now been received from all the counties of Ohio, which show that Townsend's majority for Secretary of State is 18,926. In several counties containing large cities Townsend ran ahead considerably on account of his temperance record. This did not have its effect upon the balance of the ticket, and hence the average majority for all other candidates will be fully 20,000.

CONSERVATIVE REPUBLICAN ADDRESS.

The National Association of Conservative Republicans has issued an address to the friends of General Hancock and of the Constitution and the Union, asking their earnest cooperation in a national effort to close out the polls on the 2d of November next all who think the success of the Democratic Conservative Republicans overcoming the Republican party. They prophesy a repetition of the election in 1876. They show states that in Indiana and Ohio large bodies of fraudulent votes were brought and brought to the polls by Federal managers, many of whom fill posts in the public service and draw pay from the Treasury of the United States. In Indianapolis and Cincinnati alone the closing of the polls showed an aggregate of votes deposited in the ballot-boxes of the two cities exceeding by more than five thousand the census returns of men of voting age included in their population. The association calls upon the people to come forward and unite with them in raising, by single subscriptions of $5 each, a great popular fund for the defense of the polls. This fund is to be reported to the people's voluntary poll-tax, levied by themselves to keep across to the polls in November free from fraud and force.
