## Kay's Kitchen

By Kay Fisher

First I want to thank Mrs. Willmer Halcomb and Miss Alpha Brierly for seeing that I got the recipe for the "Friendship Cake." Thought for a while I was going to be left with the brandied fruit on my hands and no cake recipe. Thanks again for helping me.

So, if you have gotten in the mood to do some holiday baking, it is not too soon to start making your Pecan Cake. Fruit and nut cakes need to "ripen" and if you are going to moisten them every week it is better to start early and "doctor" them with a little whiskey each week to keep the cakes from becoming soggy.

PECAN CAKE

1 cup brown sugar
2¼ cups white sugar
¾ pound butter
6 whole eggs
4 cups flour, sifted
4½ cups broken pecans
1½ boxes raisins (seeded, sticky kind)
1 cup whiskey (bourbon)
1½ nutmegs, grated (4 teaspoons)
2 teaspoons baking powder

To keep this from being too big a job for one day, I flour the pecans and raisins the night before. Use about one cup of flour and with your hands flour the nuts until well coated, then put them into a large sieve and shake to remove excess flour. Empty into a large bowl. Now do the same with the raisins. This takes a bit longer, because you want to separate each raisin. Save the flour and add to make the four cups called for in recipe. Have all ingredients at room temperature.

In large bowl, cream butter and sugar; add eggs, one at a time, beating after each one. Add baking powder to flour and add alternately with the whiskey, then add the freshly grated nutmeg. Remove beaters and carefully fold in nuts and raisins with a wooden spoon. Spoon batter into large greased tube pan lined with brown paper that has been well greased with butter.

This makes a VERY large cake. If you do not have a large tube pan you may use loaf pans.

For large tube pan, preheat oven to 400 degrees. Place tube pan in iron skillet filled half full of water; cover with loose fitting lid and place a pan of water on top. Bake 45 minutes at 400 degrees, then reduce heat and bake at 350 degrees for about two hours.

You will have to add water to pans during baking. Remove water pans during the last 15-20 minutes of cooking time. Test with toothpick for doneness.

Remove from oven, cover with tea towel until cool, then remove from pan. Do not remove paper from cake. Wrap in heavy foil and store in airtight tin. Every week drizzle about two tablespoons of whiskey over cake, being careful to rewrap cake each time.

My large pan measures 12 inches across and is six inches deep. That will give you an idea as to size. If you are baking in loaf pans, reduce starting temperature to about 350 degrees and reduce after 30 minutes to 275 degrees for about 1½-2 hours. Test for doneness after an hour or so.

# School districts must verify income for low meal prices

The United States Department of Agriculture (USDA) has issued an interim rule requiring all school districts nationwide to verify the income listed by parents on three percent of applications for free and reduced price meals.

The rule pertains to those applications on file as of Oct. 31.

The requirement, according to USDA officials, is intended to ensure that free and reduced price benefits only go to those families whose incomes fall within the income eligibility guidelines set forth by the USDA. Its intent is to reduce any abuse which may exist in the child nutrition programs.

"The number of actual verifications will be relatively small," said Gover Whitt, Director of School Food Services for the Kentucky Department of Education.

"When you say three percent," Whitt said, "you're talking about a very small number compared to the total volume of applicants."

In Kentucky, 76 percent of all school districts will have fewer than 50 applications to verify, Whitt said, and only 14 school districts will be confirming more than 100 total applications.

Kentucky has approximately 282,000 children eligible for free or reduced price meals, which means that 8,460 applications must be selected for income verification statewide.

Selection of households whose incomes are to be verified will be on a non-discriminatory basis. Those randomly chosen will be required to provide written evidence of income, such as paycheck stubs.

"This regulation will impose some administrative burden on local officials, but the three percent requirement is minimal for the majority of Kentucky schools," Whitt said.

School districts have had the authority to verify application information for several years, but this is the first time that a mandatory federal verification rule has been in place.

Whitt stated that parents were notified in a letter accompanying the application at the beginning of the school year that reported income could be verified.

A suit challenging this interim rule has been filed in federal court. Pending resolution of the suit, however, local officials have no choice other than to put the requirement into effect, Whitt said.

# Area school boards hold regional meet

The annual meeting of the Central Kentucky Region of the Kentucky School Boards Association (KSBA) was held Nov. 1 at the Anderson County High School in Lawrenceburg. Robert Hyatt, a member of the Anderson County Board of Education and chairman of the Central Kentucky Region, presided at the dinner meeting.

Thomas Blankenship, a member of the Lincoln County Board of Education, was elected to a two-year term as chairman of the region. Regional chairmen also serve on the KSBA Board of Directors. Joseph G. Blair, superintendent of Lincoln County Schools, will serve as regional secretary.

The approximately 190 school board members, school superintendents and legislators from the 29-district region were welcomed by Anderson County School Supt. Paul W. Polly.

Ms. Mary Cohron, vice-president of the Kentucky School Boards Association, and David Keller, executive director of the KSBA, presented a program dealing with educational needs in the 1984 General Assembly.

The KSBA Central Kentucky Region is composed of the following county school districts: Anderson, Bourbon, Boyle, Clark, Estill, Fayette, Franklin, Garrard, Harrison, Jackson, Jessamine, Lee, Lincoln, Madison, Mercer, Montgomery, Nicholas, Powell, Robertson, Rockcastle, Scott and Woodford; and the independent school districts of Berea, Bourbon, Danville, Frankfort, Harrodsburg, Paris and Richmond.
