CHAPTER XX.

WHAT AILS THE NATION?

The Average Length of Life Decreasing—Not Famine—All our own Fault.

MOSSEY CURTIS AND MOSSEY LIVING have brought it on. It comes upon us treasury. The patient has pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint, all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become jerked and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient has all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and feel gloomy, and has evil forebodings. There is a giddiness, a sort of wavering sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and heat comes; the blood becomes impure; the whole system is poisoned; the fluids are clogged with poison; the liver, which lubricates, becomes sluggish and ceases to secrete bile; the kidneys are torpid; the whole system is filled with poisonous matter, and if the means of the Dispensary are not resorted to, the patient will die. The effect of this remedy is simply wonderful. Thousands of bottles have been sold in this country, and the testimonials in favor of its curative powers are overwhelming. In Indiana, Dr. Mossey is called all sorts of names by various people, and in this one instance stands, for they are the symptoms of the real malady.

Testimonials from thousands of people in this country, of its curative powers given away, this Dispensary, 5 cents by druggists.
