GRAIN DRILLS!

A farmer that broadcasts his grain is always behind the times. Three peck drills will make better yield than six peck broadcast. Drilled grain will stand more drought and more freezing, and the every way do better and make much better yield than broadcasting, and the next best thing to drill is a

STODDARD DISC HARROW

with well working attachment, it will thoroughly pulverize the ground, sow any number of pecks and cover any depth. Good, Cheap and see these implements and get better prices. They will pay.
