## EDITORIAL CORRESPONDENCE.

FRANKFORT, KY., March 28th, 1892.

*Dear Mercury:*

Like all large and prosperous towns the Legislature attracts a large crowd of strangers to Frankfort, and on this occasion, although the halls of Legislature, and State Capitol are full, it is not unusually so.

To change the simile, it may be said to be in a state of inactivation, waiting the slow process of maturity which is when the influence of Spring warms it into life, a great crowd will then be looked for. The Revenue Bill is being farmed out to the people. Not exactly as the sole may receive the best of the bargain and be warmed and fed, but the Democratic Senate is trying to farm out an idea of what the people want, and what they will stand. Both a Democratic and Republican mess aspect in the farm yard. The Agricultural Bureau up to date is good, and as soon as solid business gets his mark on it therefrom it will be a great forth to spread its little wings and leave its little pile behind, and go to Carlisle where there is always rich picking.

I understand that in a few days a visit will be introduced to stop pool selling on horse races, and that it will be very repulsive against good legs to run horses for money, and that a bill to that effect will also be enacted. Now if some good brother would bring in the law of natural gamblership, it might help to a man loosing his wife on Sunday we might expect to be happy. Of course no one can object to these laws, at least I don't. We have to look after our moral season, and the good people have stood much opposition from the only way to get the law enforced is to have more opposition if not with law. I am for all reforms, even if it is new to me. I am for anything that is good, we did the fastest.

The election law spoken of above is very complicated, and will cause a close on primary election, and makes many Lawyers Expensive in their study in preparation of fraud. I have always been a strong anti-ballot reform and election law, and hope we now have a good one, and may have it enforced. Henry pamflets are prescribed against the use of corrupt methods to get votes, we did the fastest.

There is a big fight going on over an appropriation to the World's Fair at Chicago, and the chance are that Kentucky will not only waste it, but the Union that will not have an exhibition of her resources. She would be ashamed of mortification to every Kentuckian or ex-Kentuckian that may visit the Fair, but the spirit of economy is so much opposed to the spirit of pride that we seem willing to be at the tail end of the procession. I hope that the bill reported in my progressive ones, for the erection of a building will pass.

Talking about pollard, I am reminded of a great speech that was delivered lately before the Democratic party by Mr. Lewis, a colored man, and a brave soldier of U. J. Northern. Friend of the South and the Union has stood on the dividing line between the Democratic and republican parties and is a valuable party asset. Tom Lewis stood by the Democratic party when it was not popular, and he is entitled to the respect of every Democrat. He is a man of brains and ability, and would make them one power were he to receive his just dues. He has been a faithful worker for the party, and is entitled to the nomination for Auditor, and I hope he will be nominated. He would be a credit to the party and to the State.

Bro. Tom Combs, of Mason, and Bro. Ed Lewis, of Harrison, are here looking after the sale of tobacco warehouses. They will begin to sell on the 5th.

Bro. Lewis is erecting a large tobacco warehouse in Cynthiana, and Bro. Combs is erecting one in Carlisle.

Robert Madden has rented the three story brick on Main, and will open a big wholesale grocery April 4th. Success to Madden.

TITUS is talk of a new Carriage Manufactory in this city.

Ayres a stormy session last week extended past midnight, the House adjourned without a final vote on the Road law silent outrage bill. The example of the imposing, rules was discovered on a motion to table the bill, which was only prevented by the vote of the Speaker, making it a tie, the vote was finally announced, standing 100 to 100, and the second vote on the motion to lay on the table resulted in 101 to 99, and the silent bill was put into the calendar unless it is again made a special order.

Jerome W. W. Richardson is being urged by his associates at the Cynthiana bar to become a candidate for Circuit Judge, and will probably do so.

Test weekly review of trade by Dun Bro. Clay, of Cynthiana, last week, shows less encouragement in the business outlook than for some time past. Low prices are holding the markets down, and the effort upon the practical distribution of trade is against. The failures continue and grain is declining materially. Forces of consumption are not increasing.

Messrs Capp & Sharman, of Alexander, Texas, write us regarding a remedy for Rheumatism, which they say is the best they ever sold.
