### SOME SANITARY ASPECTS OF BREAD MAKING

Bread is one of the most important articles of food, and it is important that it be made in a sanitary manner. The following are some of the sanitary aspects of bread making:

1. The flour should be sifted through a fine sieve to remove any clumps or foreign matter.
2. The water should be boiled and then cooled to a lukewarm temperature.
3. The yeast should be dissolved in a small amount of water before being added to the flour.
4. The dough should be kneaded thoroughly to develop the gluten.
5. The dough should be allowed to rise in a warm, draft-free place.
6. The bread should be baked in a preheated oven.

### HOW INSECTS MAKE MUD
