CASTORIA

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and presumably perfect as a child's medicine.

Castoria destroys Worms,
Castoria allays Feverishness,
Castoria prevents vomiting Sour Curd,
Castoria cures Diarrhœa and Wind Colic,
Castoria relieves Teething Troubles,
Castoria cures Constipation and Flatulency,
Castoria neutralizes the effects of carbonic acid gas or poisonous air,
Castoria does not contain morphine, opium, or other narcotic property,
Castoria assists nature in the food, regulates the stomach and bowels, giving healthy and natural sleep,
Castoria is put up in one-size bottles only. It is not sold in bulk.
Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and will answer every purpose.
See that you get C-A-S-T-O-R-I-A.

The facsimile signature of Chas. H. Fletcher is on every wrapper.

SKY ON FIRE.

A Phenomenon in the Heavens Admired by Thousands.

WASHINGTON, July 17.—At 10:30 o'clock Saturday night the sunset glow in the western sky suddenly developed an enormous tail, which to the naked eye appeared to be a fire in the place of the aurora borealis.

Prof. Harkness, director of the Naval observatory, was watching the phenomenon through the meridian circle when he was informed of it by a messenger. He at once directed the attention of Prof. Eastman to it, and the latter called Prof. Hall. Prof. Hall had just set an advance notice of it in the newspapers, and he was the first to announce it to the public. The general impression of the bay crop was that it was a fire, and that the fire was raging in the mountains. Many inquiries in this country also began to be received at the observatory.

The storm at last began to subside, and the sun rose clear and bright, followed by a cool breeze. The rain fell in torrents during the storm, and the city was in a perfect mudhole. The streets were literally bottled, and the only thing to say is that it was a good rain. The farmers say they are ready to throw out the long stored corn, and the crops will be the best ever known. The rain was general all over the United States.

Prof. Frisbie said: "There is no way to account for the phenomenon. It is simply visible to the naked eye, and was watched for some time by the corps of observers at the observatory.

LUCKY FARMERS.

A Cry Comes From Europe for American Hay.

The Unfortunate Failure of the European Crops Opened.

[From Chicago Correspondence.]

The first news that Europe was short of hay and that the United States was the only country that could supply the demand came from Liverpool. Then the London Times published an article in which it was declared that the hay crop was short in all the countries of Europe, and that the United States was the only country that could supply the demand. Then the Paris papers announced that the hay crop was short in all the countries of Europe, and that the United States was the only country that could supply the demand. THE OLD LIBERTY BELL.

How It Is Regarded by Worth's Fair Visitors—Stories Told by the Guards.

The old Liberty bell is the one single object of greatest interest nearly all visitors to the World's Fair seek to see first. To the average visitor, perhaps, it is no object of veneration. To the sentimental, to the foreigner, it is an object of interest and curiosity. It is the bell that rang out the glad tidings of the Declaration of Liberty, and the white room of Jersey were dipped in blood in the old Carthaginian days it would have been worshiped in the land of Hannibal
